## West End Substation Project

# NOTICE OF CONSTRUCTION

From November 30, our contractors will arrive at site to start construction. One crew will work on Nelson Street, installing power line housing underground, and a second crew will install fencing, and deliver and remove materials to the substation site.

**When:** from November 30, 2026

**Hours:** between 7 a.m. and 8 p.m.

**Where:** Nelson Street, between Bute Street and Thurlow Street

**What:** Nelson Street: duct bank and vault installation in the roadway: excavating the road, installing pre-made vaults (concrete rooms) and conduit (plastic pipes), refilling the excavations and restoring the road

VSB property: installing fencing, delivering and removing materials and equipment

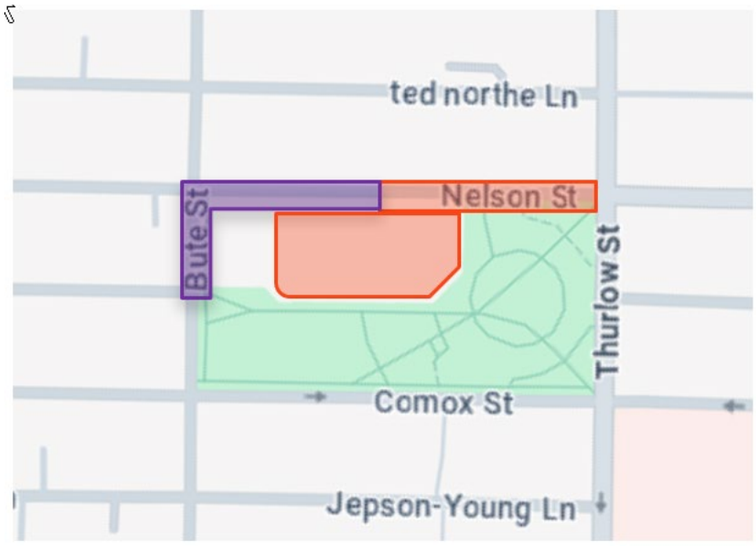
**Impacts:** the 1100 block of Nelson Street will remain closed to road traffic

the south sidewalk on this block will be closed

there will be typical construction noises and workers in the street

Onsite crews and signage will direct people travelling around the work zone. **For your safety, and that of workers, please follow posted traffic signs and directions from crews.**

**Work zone**



Approximate BC Hydro work area
Approximate TELUS work area

**TELUS work continues**

TELUS's contractor will continue its work to build new underground cable housing in the streets to by-pass Nelson Park. TELUS estimates this civil work will be completed by early 2027.
