

Notice of Vegetation Work

Fraser Highway - North Creek

March 6, 2024

Dear Neighbour,

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the new rapid transit extension. In March, we'll undertake vegetation pruning and clearing work along Fraser Highway, in the North Creek area, from 184 Street to just past 185 Street in Surrey.

This project will ensure that the lines continue to provide safe and reliable power to residents and businesses in the Lower Mainland and allow for the safe construction of the SkyTrain around the power lines.

Where: Fraser Highway, in the North Creek area, from 184 Street to just past 185 Street in Surrey.

When: Anticipated to start to complete in the Week of March 11.

Hours: Monday to Friday, 7 a.m. to 5 p.m.

Skilled workers employed/contracted by BC Hydro are trained in both electrical safety and tree care. Trees will be pruned and cleared using the best arboriculture (tree care) techniques to eliminate any safety hazards.

For trees on private property, vegetation crews will work directly with property owners to discuss the planned work.

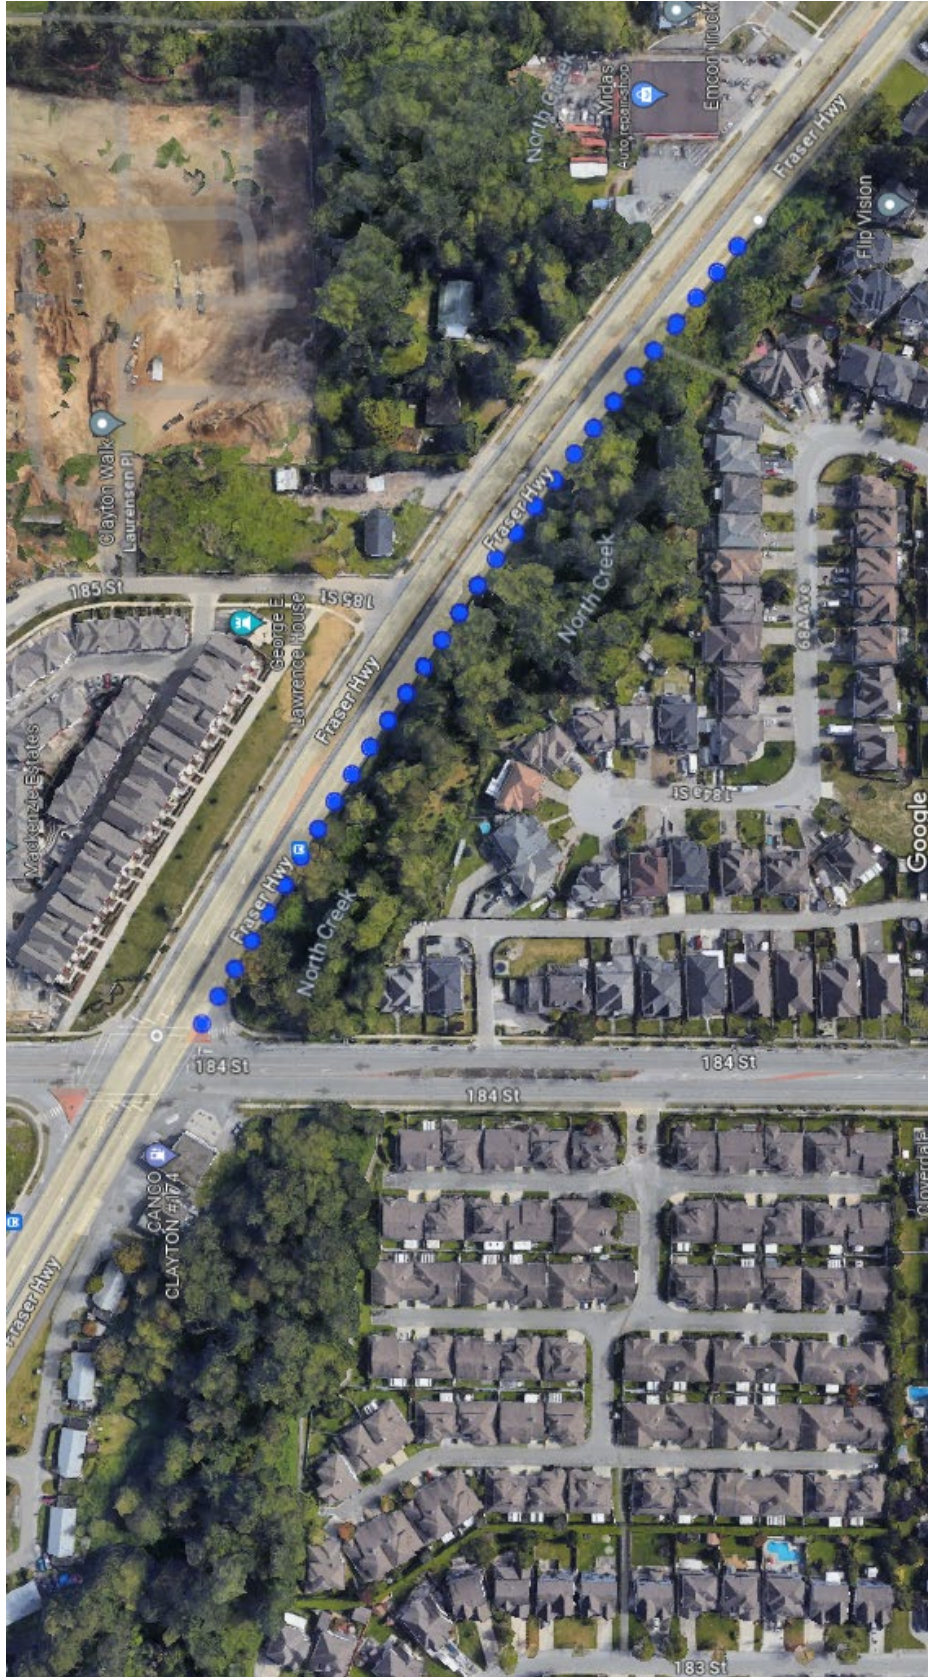

See page two for a map of the work area.

This work may require temporary traffic pattern changes. Please adhere to traffic management on site. To ensure everyone's safety, we advise drivers to reduce their speed in the construction zone and follow the directions of traffic control personnel and posted signage.

If a planned power outage is required as part of this project, you will receive a separate notification.

If you have any questions or would like more information about our work to relocate the power lines and equipment, please contact us at 1-866-647-3334. Look for additional updates at www.bchydro.com/skytrain.

For inquiries directly related to the SkyTrain extension project, please contact surreyangleyskytrain@gov.bc.ca
