2. GENERAL SERVICE

**RATE SCHEDULES 1200, 1201, 1210, 1211 – EXEMPT GENERAL SERVICE
(35 KW AND OVER)**

Availability	For Customers who qualify for General Service where supply is 60 hertz, single or three phase at Secondary or Primary Voltage and Billing Demand is 35 kW or more. BC Hydro reserves the right to determine the voltage of the Service Connection.
Applicable in	Rate Zone IB.
Rate	<p>Basic Charge: 28.82 ¢ per day</p> <p>plus</p> <p>Demand Charge:</p> <p>First 35 kW of Billing Demand per Billing Period @ \$0.00 per kW</p> <p>Next 115 kW of Billing Demand per Billing Period @ \$7.02 per kW</p> <p>All additional kW of Billing Demand per Billing Period @ \$13.47 per kW</p> <p>plus</p> <p>Energy Charge:</p> <p>First 14800 kWh of Energy consumption in the Billing Period @ 13.72 ¢ per kWh</p> <p>All additional kWh of Energy consumption in the Billing Period @ 6.59 ¢ per kWh</p>
Discounts	<ol style="list-style-type: none"> A discount of 1½% will be applied to the above charges if a Customer's supply of Electricity is metered at a Primary Voltage. A discount of 25 ¢ per Billing Period per kW of Billing Demand will be applied to the above charges if a Customer supplies Transformation.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>3. If a Customer is entitled to both of the above discounts, the discount for metering at a Primary Voltage will be applied first.</p>
Monthly Minimum Charge	<p>50% of the highest Demand Charge billed in any Billing Period wholly within an on-peak period during the immediately preceding 11 Billing Periods. For the purpose of this provision an on-peak period commences on November 1 in any year and terminates on March 31 of the following year.</p>
Rate Schedules	<p>1. Rate Schedule 1200: Applies if a Customer's supply of Electricity is metered at a Secondary Voltage and BC Hydro supplies Transformation.</p> <p>2. Rate Schedule 1201: Applies if a Customer's supply of Electricity is metered at a Primary Voltage and BC Hydro supplies Transformation.</p> <p>3. Rate Schedule 1210: Applies if a Customer's supply of Electricity is metered at a Secondary Voltage and the Customer supplies Transformation.</p> <p>4. Rate Schedule 1211: Applies if a Customer's supply of Electricity is metered at a Primary Voltage and the Customer supplies Transformation.</p>
Definitions	<p>Billing Demand is the Maximum Demand in the Billing Period, subject to Special Condition No. 1.</p> <p>Billing Period means a month between regular meter readings, provided that in cases where meter readings are not available or are delayed for any reason BC Hydro may vary the number of days in the Billing Period.</p>

2. GENERAL SERVICE**RATE SCHEDULE 1253 – DISTRIBUTION SERVICE – IPP STATION SERVICE**

Availability	For Customers who are Independent Power Producers (IPPs) served at distribution voltage, on an interruptible basis.
Applicable in	Rate Zone I excluding Districts of Kingsgate-Yahk and Lardeau-Shutty Bench.
Rate	Energy Charge: The sum, over the billing period, of the hourly Energy consumed multiplied by the entry in the Intercontinental Exchange (ICE) Mid Columbia (Mid-C) Peak, and Mid-C Off-Peak weighted average index price as published by the ICE in the ICE Day Ahead Power Price Report that corresponds to the time when consumption occurred, during that hour.
Monthly Minimum Charge	\$52.84
Special Conditions	<ol style="list-style-type: none">1. BC Hydro agrees to provide Electricity under this Rate Schedule to the extent that it has energy and capacity to do so.2. BC Hydro may, without notice to the Customer, refuse to supply or terminate the supply of Electricity under this Rate Schedule if at any time BC Hydro does not have sufficient energy or capacity.3. Prior to taking Electricity under this Rate Schedule, the Customer may be required to obtain approval from BC Hydro. BC Hydro will advise the Customer of the need to obtain approval prior to the taking of Electricity under this Rate Schedule.4. Electricity taken under this Rate Schedule is to be used solely for maintenance and black-start requirements and will not displace electricity that would normally be generated by the Customer.

2. GENERAL SERVICE**RATE SCHEDULE 1268 – DISTRIBUTION SERVICE – IPP DISTRIBUTION
TRANSPORTATION ACCESS**

Availability	For Customers who have generators connected to BC Hydro's distribution system and who want to access BC Hydro's transmission system pursuant to and in accordance with BC Hydro's Open Access Transmission Tariff (OATT).
Applicable in	Rate Zone I excluding Districts of Kingsgate-Yahk and Lardeau-Shutty Bench.
Rate	Distribution Transportation Charge: 0.213 ¢ per kWh
Special Conditions	<ol style="list-style-type: none">1. The Customer is required to pay the costs, including the cost of altering existing facilities, to connect the generator to BC Hydro's distribution system in accordance with BC Hydro's Connection Requirements for Utility or Non-Utility Generation, 35 kV and Below.2. For Customers with self-generation (i.e., with a Customer Baseline Load (CBL) greater than zero), this Rate Schedule is only applicable to sales of Surplus Energy. It may not be used by self-generating Customers who appear to have varied their demand for power from BC Hydro based on the actual or anticipated difference between BC Hydro's rate for providing Service to them and the market price of power.3. For the purposes of this Rate Schedule, "Surplus Energy" in any period is the energy made available from generation by the Customer calculated as the difference between the Customer's CBL and the Customer's actual consumption from BC Hydro in that period.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>4. The Customer's CBL is established, in general, by determining the Customer's Energy consumption, on a monthly basis, for the past three years; in cases where inadequate history exists, alternative methods may be used to determine a Customer's CBL. Once established, the Customer's CBL will not be automatically adjusted for changes in the Customer's net metered consumption from BC Hydro. Any subsequent changes to the CBL must be due to changes in the Customer's load and not due to changes in its generation. The Customer must provide metered output from its generator which demonstrates an increase in generation output commensurate in time and amount with the Surplus Energy transported using this Rate Schedule. Where it appears that the Customer has transported on this Rate Schedule Energy that is not Surplus Energy, BC Hydro will provide replacement energy to the Customer's load at market prices, subject to Commission approval for such sales.</p> <p>5. The metering point to determine the electricity being delivered to BC Hydro's distribution system will be determined by BC Hydro. The electricity delivered to BC Hydro's distribution system will also be deemed to be delivered to BC Hydro's transmission system (that is, no distribution loss adjustment will be applied to the electricity from an independent power producer or self-generator when determining capacity and energy delivered to BC Hydro's transmission system).</p>
Rate Riders	<p>The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.</p> <p>The Trade Income Rate Rider as set out in Rate Schedule 1904 applies to all charges payable under this Rate Schedule, before taxes and levies.</p>
Rate Increase	<p>Effective April 1, 2024, the rate under this Rate Schedule includes a rate increase of 6.42% before rounding.</p>

Service</p> <p>Service for the purposes of this Rate Schedule means the provision of Electricity from a Fast Charging Station to a Customer to enable the Customer to charge an electric vehicle. A Customer does not need to apply for Service.</p> <p>For greater certainty, Service under this Rate Schedule is not to a Premises and is not unmetered Service. Further, Service under this Rate Schedule does not include the access to, and the use of, BC Hydro’s website and mobile application(s) or other alternative methods to activate the use of a Fast Charging Station</p>
Special Conditions	<p>1. BC Hydro does not guarantee charging speeds at a Fast Charging Station.</p> <p>2. BC Hydro may disconnect, interrupt or terminate Service at a Fast Charging Station due to existing or expected system, safety, accessibility, technical, environmental or other constraints at a Charging Site or at a Fast Charging Station as determined by BC Hydro. BC Hydro will, whenever practical, give notice of such disconnection, interruption, or termination to Customers, by posting information at the Fast Charging Station and the Charging Site and on a relevant third party website. In the event of a disconnection or interruption of Service, BC Hydro, whenever possible, to provide information on the expected duration of disconnection or interruption.</p> <p>Neither BC Hydro nor any of its representatives or agent will be responsible or liable for any loss, injury, damage or expense caused by or resulting from such disconnection, interruption, or termination.</p>

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

3. A Customer using the Fast Charging Station is solely responsible for the supply, compatibility, connectivity, safety and use of any third party equipment, device, hardware, software and telecommunications networks necessary for the use of the Fast Charging Station, including any and all fees. In addition to and without restriction of any other limitations of liability of BC Hydro, BC Hydro is specifically not liable for any loss, damage, injury or expense caused by or resulting from the use of such third party equipment, device, hardware, software and telecommunications networks.

4. If a Customer intends to use a BC Hydro radio frequency identification card (**RFID**) to receive Service from a Fast Charging Station, a one-time fee of \$15 will be applied for the initial purchase of the RFID card.

5. The Customer taking Service under this Rate Schedule will be billed in Canadian currency and make payment of the billed amount in full at the end of each Charging Session, through a payment method accepted by BC Hydro. Subject to Special Condition No. 4, no other fees or charges in addition to the billed amount will be applicable for the use of a Fast Charging Station.

For greater certainty, back-billing or re-billing because the original billings were discovered to be either too high (over billed) or too low (under billed) is inapplicable to the Service.

6. The Customer taking Service under this Rate Schedule will be billed in Canadian currency and make payment of the billed amount in full at the end of each Charging Session, through a payment method accepted by BC Hydro. Subject to Special Condition No. 4, no other fees or charges in addition to the billed amount will be applicable for the use of a Fast Charging Station.

For greater certainty, back-billing or re-billing because the original billings were discovered to be either too high (over billed) or too low (under billed) is inapplicable to the Service.

(150 KW AND OVER)**

Availability	For Customers who qualify for General Service where the Customer is a business, government agency or other organization. For use only for separately metered charging of Electric Fleet Vehicles or Vessels owned or leased by, and operated by, the Customer, at Maximum Demand equal to or greater than 150 kW. Supply is 60 hertz, single or three phase at Secondary or Primary Voltage. BC Hydro reserves the right to determine the voltage of the Service Connection.
Applicable in	Rate Zone I.
Termination Date	These Rate Schedules will terminate effective March 31, 2032. As of April 1, 2032 customers will be migrated to Rate Schedules 16xx or the otherwise applicable rate.
Rate	<p>Basic Charge: 28.82 ¢ per day</p> <p>plus</p> <p>Demand Charge: \$0 per kW of Billing Demand until March 31, 2026</p> <p>plus</p> <p>Energy Charge: 9.90 ¢ per kWh</p>
Discounts	<ol style="list-style-type: none"> 1. A discount of 1½% will be applied to the above charges if a Customer's supply of Electricity is metered at a Primary Voltage. 2. A discount of 25 ¢ per Billing Period per kW of Billing Demand will be applied to the above charges if a Customer supplies Transformation. 3. If a Customer is entitled to both of the above discounts, the discount for metering at a Primary Voltage will be applied first.

ACCEPTED: March 27, 2024

4. Fixture Removal

The Customer will pay to BC Hydro the original cost of the existing fixture less any accumulated depreciation, and the cost incurred by BC Hydro in removing the existing fixture under the following circumstances:

- (a) When the lighting fixture is removed, or removed and replaced with another lighting fixture, at the request of the Customer; or
- (b) When BC Hydro has exercised its rights to Terminate Service because the Customer fails to comply with the Electric Tariff and/or Service Agreement, and BC Hydro elects to remove the lighting fixtures.

This Special Condition is not applicable when the request to remove or replace a light fixture is made by a Customer within one year of taking Service at a Premises at which lighting service is illuminating private property and was already provided under RS 1701, or when BC Hydro terminates RS 1701 Service in accordance with Special Condition No. 8.

5. Relocation and Redirection of Fixtures

The Customer will pay the full cost of relocating or redirecting fixtures when the change is made at the request of the Customer.

6. Responsibility for Fixture Selection, Design and Installation

The Customer is responsible for the lighting design and the selection of the overhead street lighting fixture offered by BC Hydro. BC Hydro is responsible for its installation.

Rate	<p>Demand Charge: \$9.378 per kVA of Billing Demand per Billing Period</p> <p>plus</p> <p>Energy Charge: A</p> <p>For Customers that do not have a CBL by order of the British Columbia Utilities Commission:</p> <p>5.497 ¢ per kWh for all kWh per Billing Period</p> <p>This rate will apply until the Customer has been supplied with Electricity under this Rate Schedule for 12 Billing Periods or another period approved by the British Columbia Utilities Commission, after which the Customer will be supplied with Electricity at the rate specified in Part B below.</p> <p>Energy Charge: B</p> <p>For Customers with a CBL:</p> <p>4.891 ¢ per kWh applied to all kWh up to and including 90% of the Customer's CBL in each Billing Year</p> <p>10.955 ¢ per kWh applied to all kWh above 90% of the Customer's CBL in each Billing Year</p> <p>Monthly Minimum Charge: \$9.378 per kVA of Billing Demand</p>
Definitions	<p>1. Billing Year</p> <p>The Billing Year is the 12-month period starting with the first day of the Billing Period which commences nearest to April 1 in a year and ending on the last day of such 12-month period.</p>

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

2. Billing Demand

The Billing Demand will be:

- (a) The highest kVA Demand during the High Load Hours (**HLH**) in the Billing Period; or
- (b) 75% of the highest Billing Demand for the Customer's Plant in the immediately preceding period of November to February, both months included; or
- (c) 50% of the Contract Demand stated in the Electricity Supply Agreement for the Customer's Plant,

whichever is the highest value, provided that for new Customers the Billing Demand for the initial two Billing Periods will be the average of the daily highest kVA Demands for the Customer's Plant.

3. Customer Baseline Load (CBL)

The Customer Baseline Load (**CBL**) is the Customer's historic annual energy consumption in kWh as approved by the British Columbia Utilities Commission. The Customer's CBL will initially be determined by BC Hydro, and be subject to revision from time to time, in accordance with the criteria and procedures set forth in BC Hydro's "Customer Baseline Load (**CBL**) Determination Guidelines" (Electric Tariff Supplement No. 74). All CBLs will be subject to final approval of the British Columbia Utilities Commission.

4. High Load Hours (HLH)

High Load Hours (**HLH**) is the period of hours from 06:00 to 22:00 Monday to Saturday, except for Statutory Holidays (New Year's Day, Family Day, Good Friday, Victoria Day, Canada Day, B.C. Day, Labour Day, Thanksgiving Day, Remembrance Day and Christmas Day).

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>5. Low Load Hours (LLH)</p> <p>Low Load Hours (LLH) are all hours other than HLH.</p> <p>6. Customer-funded DSM project Duration</p> <p>As defined in Electric Tariff Supplement No. 74 (TS 74). For clarity, remaining Customer-funded DSM project Duration as of April 1, 2024 means that under TS 74 the Customer-funded DSM project would continue to be recognised as of April 1, 2024.</p>
Special Conditions	<p>1. A Customer having two or more operating plants may elect to have a single aggregated CBL determined for all or any combination of its operating plants in accordance with BC Hydro's "Customer Baseline Load (CBL) Determination Guidelines" (Electric Tariff Supplement No. 74). Thereafter, BC Hydro will issue a single bill for all operating plants included in the aggregation, and the Energy Charge payable will be determined on the basis of the aggregated CBL. However, the Demand Charge will continue to be determined separately for each operating plant.</p> <p>2. If any initial, revised, or aggregate CBL for a Customer has not been determined by BC Hydro and approved by British Columbia Utilities Commission by the time at which the CBL would become effective, BC Hydro may determine the CBL on an interim basis and apply that CBL for the purposes of any billing periods and bills rendered to the Customer until such time as the CBL has been finally determined and approved by the British Columbia Utilities Commission, following which BC Hydro will make any necessary billing adjustments.</p>

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<ol style="list-style-type: none">3. If a Customer taking Service at the rates in Part B of the Energy Charge rate section above Terminates Service under this Rate Schedule prior to the end of a Billing Year, the Customer's CBL or aggregate CBL will be prorated for the portion of the Billing Year during which the Customer was taking Service, and the prorated CBL or aggregate CBL will be used for the purposes of applying the rates in Part B to all energy consumption during the Billing Year up to the time of Termination. BC Hydro will make any necessary billing adjustments and bill the Customer for the difference (if any) owing.4. BC Hydro will notify each Customer with remaining Customer-funded DSM project Duration as of April 1, 2024 that the Customer may provide a one-time written election within 30 days of BC Hydro's notification to continue taking service under Rate Schedule 1823 before the Customer is transferred to Rate Schedule 1830 after the fiscal 2026 Billing Year.5. Customers with two or more operating plants that have a single aggregated CBL in accordance with Special Condition 1 may elect for one or more of the operating plants within the aggregated CBL to continue to receive service under this Rate Schedule on an aggregate basis, if one or more individual site(s) has remaining Customer-funded DSM project Duration, with no option to opt in or opt out following the one-time election.6. Customers that are eligible to remain on Rate Schedule 1823 and that do not provide written election within 30 days of BC Hydro's notification will be moved to take service under Rate Schedule 1830 and may not transfer back to Rate Schedule 1823.7. Customers that are eligible to remain on Rate Schedule 1823 and elect to transfer to Rate Schedule 1830 may not transfer back to Rate Schedule 1823.
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

5. TRANSMISSION SERVICE**RATE SCHEDULE 1880 – TRANSMISSION SERVICE – STANDBY AND MAINTENANCE SUPPLY**

Availability	For Customers supplied with Electricity under Rate Schedule 1830 (Transmission Service), Rate Schedule 1823 (Stepped Rate) or Rate Schedule 1828 (Biomass Energy Program), on an interruptible basis.
Applicable in	Rate Zone I excluding the Districts of Kingsgate-Yahk and Lardeau-Shutty Bench.
Rate	Administrative Charge: \$150.00 per Period of Use plus Energy Charge: During the Period of Use, 4.724 ¢ per kWh of metered Rate Schedule 1880 energy consumption, determined as set out below
Definitions	1. HLH Reference Demand HLH Reference Demand is the highest kVA Demand in the HLH for the current Billing Period prior to the Period of Use, but excluding any prior Period of Use. If the Period of Use extends over an entire Billing Period, the highest kVA Demand in the HLH from the prior Billing Period will be used in determining the HLH Reference Demand, excluding any Period of Use in the prior Billing Period. For the purpose of determining HLH Reference Demand, the HLH periods are as defined in Rate Schedule 1830, 1823 or 1828, whichever is applicable.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>2. Period of Use</p> <p>A period of consecutive hours during which Electricity is taken under this Rate Schedule. The Period of Use is as defined by the Customer when requesting Service from BC Hydro under this Rate Schedule 1880 and may extend into subsequent Billing Periods.</p>
Rate Schedule 1880 Energy Determination	<p>During HLH periods, the kWh consumption on an hourly basis which exceeds the HLH high kWh per hour within the Period of Use or portion thereof where HLH high kWh per hour is the product of HLH Reference Demand multiplied by the Power Factor for the half hour when the HLH Reference Demand occurred.</p> <p>For the purpose of the Rate Schedule 1880 Energy Determination, the HLH periods are as defined in Rate Schedule 1830, 1823 or 1828, whichever is applicable.</p>
Special Conditions	<p>1. BC Hydro agrees to provide Electricity under this Rate Schedule to the extent that it has energy and capacity to do so.</p> <p>2. BC Hydro may, without notice to the Customer, refuse to supply or terminate the supply of Electricity under this Rate Schedule if at any time during the Period of Use BC Hydro does not have sufficient energy or capacity.</p>

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

3. This Rate Schedule is only for the following purposes:

To provide Electricity the Customer would otherwise generate during periods when all or part of the Customer's electrical generating plant is curtailed.

Electricity used for this purpose may be taken on an instantaneous basis when the impact of the instantaneous pickup of loads normally provided by the Customer's electrical generation units does not occur after BC Hydro has advised the Customer that a period of system constraint or potential system constraint exists.

During periods of potential system constraints, BC Hydro will require Customers to arm load shedding relays to ensure that the loss of electricity production from a Customer's electrical generation unit will not result in a demand greater than the Customer's Maximum kVA Demand on BC Hydro's system. BC Hydro may require the Customer to provide it with control of these load shedding relays. During periods of potential system constraints, upon a Customer's request, BC Hydro will endeavour to provide Electricity normally provided by the Customer's electrical generation unit.

The Customer is required to advise BC Hydro within 30 minutes of taking Electricity under this Rate Schedule for this purpose. If the Customer fails to advise BC Hydro within 30 minutes, measured Demand and Energy consumption will be billed under Rate Schedule 1830, 1823, or 1828, whichever is applicable.

4. Electricity taken under this Rate Schedule will not displace Electricity otherwise to be taken by the Customer under Rate Schedule 1830, 1823 or 1828.

Electricity taken under this Rate Schedule will not displace electricity that would normally be generated by the Customer for the purpose of re-sale.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<ol style="list-style-type: none">5. In addition to the charges specifically set out in this Rate Schedule, the Customer will pay for any additional facilities required to deliver Electricity under this Rate Schedule provided that BC Hydro obtains the prior consent of the Customer for construction of the additional facilities.6. A Customer may be required to allow BC Hydro to install metering and communication equipment to measure the electricity output of the Customer's self-generation unit.7. BC Hydro will bill for Electricity taken under Rate Schedule 1880 at the same time it bills for Electricity taken under Rate Schedule 1830, 1823 or 1828, whichever is applicable.
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.
Note	The terms and conditions under which Transmission Service is supplied are contained in Electric Tariff Supplement Nos. 5 and 6, or Electric Tariff Supplement Nos. 87 and 88, as applicable.
Rate Riders	<p>The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.</p> <p>The Trade Income Rate Rider as set out in Rate Schedule 1904 applies to all charges payable under this Rate Schedule, before taxes and levies.</p>
Rate Increase	Effective April 1, 2024, the Energy Charge under this Rate Schedule includes a rate increase of 6.42% before rounding.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

5. TRANSMISSION SERVICE**RATE SCHEDULE 1891 – TRANSMISSION SERVICE – SHORE POWER SERVICE**

Availability	For the supply of Shore Power to Port Customers for use by Eligible Vessels while docked at the Port Customer's Port Facility, on an interruptible basis. Supply is at 60 kV or higher.
Applicable in	Rate Zone I.
Rate	Administrative Charge: \$150.00 per month plus Energy Charge: 4.724 ¢ per kWh for all kWh in a billing period
Definitions	For purposes of this Rate Schedule, capitalized terms have the meanings given to them in the Shore Power Service Agreement (Electric Tariff Supplement No. 86).
Special Conditions	<ol style="list-style-type: none">1. BC Hydro agrees to provide Electricity under this Rate Schedule to the extent that it has energy and capacity to do so. BC Hydro may refuse Service under this Rate Schedule in circumstances where BC Hydro does not have sufficient energy or capacity. For greater certainty, BC Hydro will not be required to construct a System Reinforcement under Electric Tariff Supplement No. 6 to provide Shore Power Service under this Rate Schedule.2. The terms and conditions under which Shore Power Service is supplied are contained in the Shore Power Service Agreement (Electric Tariff Supplement No. 86). The Port Customer will pay to BC Hydro the charges set out in this Rate Schedule in addition to any charges set out in the Shore Power Service Agreement.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>3. A Port Customer that provides Port Electricity at a Port Facility under Rate Schedules 1600, 1601, 1610, 1611 (Large General Service), 1823 (Stepped Rate) or 1830 (Transmission Service) is not eligible to take Shore Power Service under this Rate Schedule to provide Port Electricity to that Port Facility, or a Port Facility served by the same BC Hydro delivery facilities.</p> <p>4. On each occasion, if any, that BC Hydro is required to dispatch power line technicians or other workers to operate the switchgear for each connect and disconnect of Eligible Vessels docked at the Port Customer's Port Facility, BC Hydro will charge, and the Port Customer will pay, the reasonable time and labour costs for this service. The charge will be based on prevailing BC Hydro contracted labour rates and will be separately itemized on the Port Customer's monthly bill.</p>
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.
Rate Riders	<p>The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.</p> <p>The Trade Income Rate Rider as set out in Rate Schedule 1904 applies to all charges payable under this Rate Schedule, before taxes and levies.</p>

2. High Load Hours (HLH)

High Load Hours (**HLH**) is the period of hours from 0600 to 2200, Monday to Saturday, except for Statutory Holidays (New Year's Day, Family Day, Good Friday, Victoria Day, Canada Day, B.C. Day, Labour Day, Thanksgiving Day, Remembrance Day and Christmas Day).

3. HLH Baseline

The Customer's average hourly energy consumption under Rate Schedule 1823 during HLH of the 2015 Freshet Period, Rate Schedule 1828 or Rate Schedule 1830 during HLH, in accordance with Special Condition 3.

4. HLH Gross Freshet Energy

The sum of energy taken by the Customer during each HLH of the current Freshet Period in excess of the HLH Baseline, excluding all hours where the energy taken is less than the HLH Baseline.

5. HLH Net Freshet Energy

The total energy taken by the Customer during all HLH of the current Freshet Period in excess of the total energy taken by the Customer under Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830 during all HLH of the current Freshet Period.

6. HLH Net to Gross Ratio

The ratio obtained by dividing HLH Net Freshet Energy by HLH Gross Freshet Energy.

7. Low Load Hours (LLH)

Low Load Hours (**LLH**) are all hours other than HLH.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

8. LLH Baseline

The Customer's average hourly energy consumption under Rate Schedule 1823 during LLH of the 2015 Freshet Period, Rate Schedule 1828 or Rate Schedule 1830 during LLH, in accordance with Special Condition 3.

9. LLH Gross Freshet Energy

The sum of energy taken by the Customer during each LLH of the current Freshet Period in excess of the LLH Baseline, excluding all hours where the energy taken is less than the LLH Baseline.

10. LLH Net Freshet Energy

The total energy taken by the Customer during all LLH of the current Freshet Period in excess of the total energy taken by the Customer under Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830 during all LLH of the Freshet Period.

11. LLH Net to Gross Ratio

The ratio obtained by dividing LLH Net Freshet Energy by LLH Gross Freshet Energy.

12. Reference Demand

The average of the highest kVA Demand during the High Load Hours in each of May, June and July 2015, where the High Load Hour period is as defined in Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830.

ACCEPTED: March 27, 2024

COMMISSION SECRETARY

3. Determination of HLH and LLH Baselines and Reference Demand for Customers that do not have 2015 Freshet Period Rate Schedule 1823 Electricity or who have been transferred to Rate Schedule 1828:
- (a) Customers will require at least one year of historical Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830 Electricity usage to be eligible for baseline determination; and
 - (b) BC Hydro will use Rate Schedule 1823 Electricity or Rate Schedule 1830 Electricity during the most recent Freshet Period for HLH and LLH Baseline and Reference Demand determination; or
 - (c) Customers who have been transferred to service under Rate Schedule 1828 can apply for adjustments to their existing HLH and LLH Baseline and Reference Demand to reflect their expected Rate Schedule 1828 Electricity usage. Otherwise, BC Hydro will use Rate Schedule 1828 Electricity during the most recent Freshet Period for new HLH and LLH Baseline and Reference Demand determination.
4. If BC Hydro and the Customer agree that the HLH and LLH Baselines and Reference Demand calculated in accordance with the provisions above (i.e., using historical Electricity for the 2015 Freshet Period or most recent Freshet Period, as applicable) are not representative of the Customer's expected Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830 Electricity usage during the forthcoming Freshet Period and the parties agree to alternative HLH and LLH Baselines and Reference Demand, BC Hydro will file the agreed-to baselines and Reference Demand with the British Columbia Utilities Commission (**BCUC**). Subject to direction from the BCUC, BC Hydro will use such filed baselines or Reference Demand for the purposes of applying this Rate Schedule and Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

5. BC Hydro will also file with the BCUC any adjustments to the HLH and LLH Baselines and/or Reference Demand requested by customers and that are consistent with the principles and criteria set out in BC Hydro's "Customer Baseline Load (CBL) Determination Guidelines" Electric Tariff Supplement No. 74. Subject to direction from the BCUC, BC Hydro will use such filed baselines and Reference Demand for the purposes of applying this Rate Schedule and Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830, as applicable.
6. Electricity under this Rate Schedule will not be available to a Customer if:
 - (a) The Customer has an electricity purchase agreement (**EPA**) with BC Hydro; and
 - (b) The Customer has, in accordance with the EPA, changed the Seasonal, Monthly or Hourly GBL(s) (as applicable and as defined in the EPA) applicable during the current Freshet Period for generator turndown and for which the customer is entitled to financial payment from BC Hydro under the EPA.
7. A Customer taking Electricity under this Rate Schedule may, by providing notice to BC Hydro at any time prior to July 31, cancel supply under this Rate Schedule for the current Freshet Period.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24_____
COMMISSION SECRETARY

8. Change in Site Ownership

If there is a change in site ownership during the current Freshet Period, supply under this Rate Schedule will be cancelled for the current Freshet Period. The new site owner may take Electricity under this Rate Schedule in a subsequent Freshet Period subject to the following provisions:

- (a) Where the new site owner expects to operate the site in the same way as the prior site owner, HLH and LLH Baselines and Reference Demand previously determined for the site and which have been approved by the Commission will be used for the site for any forthcoming Freshet Period; and
- (b) Where the new site owner expects to operate the site differently from the prior site owner, such that the existing approved HLH and LLH Baselines and Reference Demand are no longer representative of expected Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830 Electricity usage during the forthcoming Freshet Period, Special Condition 4 will apply to the determination of new HLH and LLH Baselines and Reference Demand.

9. If a Customer taking Electricity under this Rate Schedule advises BC Hydro that the Customer, is or will be, taking Electricity under Rate Schedule 1880 (Standby and Maintenance) during the current Freshet Period, supply under this Rate Schedule will be cancelled for the current Freshet Period.

10. If supply under this Rate Schedule is cancelled, all Electricity supplied to the Customer during the current Freshet Period will be deemed to be supplied under Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830 and/or Rate Schedule 1880, as applicable. Such Customer's Energy and Demand Charges will be determined in accordance with Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830 and/or Rate Schedule 1880, whichever is applicable, and BC Hydro will make any necessary retroactive billing adjustments.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>11. Subject to any advance billing arrangement made under Electric Tariff Supplement Nos. 5 or 87, or other special billing terms in effect for a particular Customer, BC Hydro will bill for Electricity supplied under this Rate Schedule 1892 after the Freshet Period has ended and BC Hydro has determined the HLH and LLH Net Freshet Energy for the Customer. BC Hydro will then make any necessary retroactive billing adjustments in relation to energy supplied under Rate Schedule 1823, Rate Schedule 1828 or Rate Schedule 1830.</p> <p>12. All monetary amounts referred to in this Rate Schedule will be paid in Canadian currency. The ICE Day Ahead Power Price Report referenced in this Rate Schedule is published in US dollars, and the amounts in the report will be converted from US dollars to Canadian dollars at the Bank of Canada daily exchange rate on the applicable day(s).</p>
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.
Note	The terms and conditions under which Transmission Service is supplied are contained in Electric Tariff Supplement Nos. 5, 6, 87 and 88.
Rate Riders	<p>The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.</p> <p>The Trade Income Rate Rider as set out in Rate Schedule 1904 applies to all charges payable under this Rate Schedule, before taxes and levies.</p>

Definitions

Terms used in this Rate Schedule have the meanings given to them in Electric Tariff Supplement Nos. 5 or 87 (as applicable) and Rate Schedule 1823, unless otherwise defined below. In addition, the following terms have the following meanings:

1. Billing Year

For the purpose of this Rate Schedule 1894, the Billing Year is the 12-month period starting with the Commencement Date set out in the Customer's Electricity Supply Agreement or anniversary thereof each year and ending on the last day of such 12-month period.

2. New Customer Plant

A New Customer Plant is a Customer facility that was not taking electricity service from BC Hydro as of the effective date of this Rate Schedule 1894.

3. Clean Industry Customer

A New Customer Plant that uses a process to remove greenhouse gases from the atmosphere or produces a renewable or low-carbon fuel, including:

- (a) Production of hydrogen via electrolysis;
- (b) Production of synthetic fuels from hydrogen, carbon dioxide or biomass; and
- (c) Capture and/or storage of carbon dioxide.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

4. Innovation Customer

A New Customer Plant that is a data center, composed of networked computers and data storage used to organize, process, store and disseminate large amounts of data, subject to the requirements that:

- (a) The Customer's Contract Demand in its Electricity Supply Agreement must be greater than 10,000 kV.A;
- (b) The Customer's Plant must not be used for producing or exchanging cryptocurrency; and
- (c) The annual energy consumption of the Customer's Plant must be greater than 70 GWh/year.

5. Energy Participation Cap

The Energy Participation Cap under this Rate Schedule 1894 is 1,500 GWh/year, subject to adjustment as set out below.

As of April 1 of each year, BC Hydro may reduce or increase the Energy Participation Cap of this Rate Schedule 1894 and increase or reduce the Energy Participation Cap of Rate Schedule 1895 by the same amounts, provided that the sum of the Energy Participation Caps of both Rate Schedules 1894 and 1895 do not exceed 5,000 GWh/year. BC Hydro may assess the 5,000 GWh/year cap, from time to time, as conditions warrant.

6. Actual Annual Energy Consumption

The Actual Annual Energy Consumption is, for Customers that have been taking service under this Rate Schedule 1894 for more than 12 Billing Periods, the sum of each such Customer's actual energy consumption in the most recent 12 Billing Periods.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

7. Expected Annual Energy Consumption

The Expected Annual Energy Consumption is: (i) for Customers determined to be eligible for service under this Rate Schedule 1894 but not yet taking service; and (ii) for Customers that have been taking service under Rate Schedule 1894 for less than 12 Billing Periods, the sum of each such Customer's expected annual energy consumption under this Rate Schedule 1894 for 365 consecutive days of normal operations as determined in accordance with Special Condition 1.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

**Special
Conditions****1. Determination of Eligibility for Service under Rate Schedule 1894**

A Customer applying for service under this Rate Schedule 1894 must provide an engineering estimate of the expected annual energy consumption of the Customer Plant that is representative of normal operations over a consecutive 365-day period after the commencement of service and that has been signed by a Professional Engineer (P.Eng) or Officer of the company. The engineering estimate documentation must include descriptions of the equipment comprising the Customer Plant and plant production process/es, and the supporting background and technical documentation used to determine the estimate.

BC Hydro will assess a Customer's eligibility for service under this Rate Schedule 1894 at the time the Customer provides the engineering estimate documentation and prior to the Customer entering into a Tariff Supplement Nos. 6 or 87 Facilities Agreement with BC Hydro.

BC Hydro will perform an Engineering Review of the customer's engineering submission to assess the expected annual electricity consumption impact of the Project. The Engineering Review will be based on the application of engineering principles to forecast assumptions of production and plant/system/equipment performance data used in the customer's engineering submission.

A Customer will be eligible for service under this Rate Schedule 1894 if the Customer is a Clean Industry Customer or Innovation Customer, and the sum of the Actual Annual Energy Consumption, the Expected Annual Energy Consumption and the Customer's expected annual energy consumption do not exceed the Energy Participation Cap at the time the service request is assessed.

The determination of eligibility will remain effective so long as the Customer continues to actively move through BC Hydro's load interconnection process.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>2. If after the second Billing Year an Innovation Customer's energy consumption under Rate Schedule 1894 is less than 70 GWh/year in any subsequent 12 consecutive Billing Periods, unless otherwise agreed to by BC Hydro, service to the Customer under this Rate Schedule 1894 will be cancelled and the Customer will be provided service under the otherwise applicable Rate Schedule.</p> <p>3. Concurrent Service Under Other Rate Schedules</p> <p>BC Hydro will not provide service to a Customer Plant under any other rate schedule or rate schedules while the Customer is taking service under this Rate Schedule 1894, except for Rate Schedule 1880 as applicable.</p>
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.
Note	The terms and conditions under which Transmission Service is supplied are contained in Electric Tariff Supplement Nos. 5 and 6, or Electric Tariff Supplement Nos. 87 and 88, as applicable.
Rate Riders	<p>The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.</p> <p>The Trade Income Rate Rider as set out in Rate Schedule 1904 applies to all charges payable under this Rate Schedule, before taxes and levies.</p>

5. TRANSMISSION SERVICE**RATE SCHEDULE 1895 – TRANSMISSION SERVICE – CLEAN B.C. INDUSTRIAL ELECTRIFICATION RATE – FUEL SWITCHING**

Availability	<p>For Customers that are eligible for service under Rate Schedule 1823 or Rate Schedule 1828 and have qualifying New Electrification Projects or Modification Electrification Projects, subject to Special Condition 1.</p> <p>Not available to oil transportation pipelines, oil refineries, methanol production and natural gas liquefaction facilities.</p> <p>Service will be provided to a Customer under this Rate Schedule for a fixed term of up to seven years only, starting as of the first day of the Customer's first Billing Year. Subsequently, service will be provided under the otherwise applicable Rate Schedule.</p> <p>Effective March 31, 2030, and subject to the availability conditions above, this Rate Schedule will only be available to Customers already taking service under this Rate Schedule prior to that date or such later date acceptable to BC Hydro.</p>
Applicable in	Rate Zone 1 excluding the Districts of Kingsgate-Yahk and Lardeau-Shutty Bench.
Termination Date	This Rate Schedule will terminate effective March 31, 2037.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

Rate	<p>Demand Charge:</p> <p>The charge per kVA of Billing Demand per Billing Period under this Rate Schedule 1895 is equal to:</p> <ul style="list-style-type: none">(a) The Demand Charge specified under Rate Schedule 1823 multiplied by 0.80 for the Customer’s Billing Years 1 to 5;(b) The Demand Charge specified under Rate Schedule 1823 multiplied by 0.87 for the Customer’s Billing Year 6;(c) The Demand Charge specified under Rate Schedule 1823 multiplied by 0.93 for the Customer’s Billing Year 7. <p>Plus</p> <p>Energy Charge:</p> <p>The charge per kWh of Energy Supplied under this Rate Schedule 1895 for all kWh per Billing Period is equal to:</p> <ul style="list-style-type: none">(a) The Customer’s Average Energy Charge for the Billing Period multiplied by 0.80 for the Customer’s Billing Years 1 to 5;(b) The Customer’s Average Energy Charge for the Billing Period multiplied by 0.87 for the Customer’s Billing Year 6;(c) The Customer’s Average Energy Charge for the Billing Period multiplied by 0.93 for the Customer’s Billing Year 7.
Definitions	<p>Terms used in this Rate Schedule have the meanings given to them in Electric Tariff Supplement Nos. 5 or 87 and Rate Schedule 1823 or Rate Schedule 1828, as applicable, unless otherwise defined below. In addition, the following terms have the following meanings:</p> <ul style="list-style-type: none">1. New Customer Plant <p>A New Customer Plant is a Customer facility that was not taking electricity service from BC Hydro at 60kV or higher as of the effective date of this Rate Schedule 1895.</p>

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

2. Actual Annual Energy Consumption

The Actual Annual Energy Consumption is, for Customers that have been taking service under this Rate Schedule 1895 for more than 12 Billing Periods, the sum of each such Customer's actual energy consumption under this Rate Schedule 1895 in the most recent 12 Billing Periods.

3. Billing Demand

For the purpose of this Rate Schedule 1895, the Billing Demand for a Billing Period will be the highest of:

- (a) The highest kVA Demand during the High Load Hours (excluding a Rate Schedule 1880 Period of Use) in the Billing Period less the Customer's Billing Demand under Rate Schedule 1823 or Rate Schedule 1828 for the Billing Period as determined below; or
- (b) 75% of the highest Billing Demand under Rate Schedule 1895 for the Customer's Plant in the immediately preceding period of November to February, both months included; or
- (c) 50% of the expected kVA Demand under Rate Schedule 1895 for the Project as set out in the determination of the Fixed Percentage.

For the purpose of determining Billing Demand for a Billing Period under Rate Schedule 1823 or Rate Schedule 1828:

- (a) If the highest kVA Demand during the High Load Hours (excluding a Rate Schedule 1880 Period of Use) in the Billing Period is greater than the Monthly Reference Demand, the Billing Demand will be set equal to the Monthly Reference Demand; or

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

- (b) If the highest kVA Demand during the High Load Hours (excluding a Rate Schedule 1880 Period of Use) is less than the Monthly Reference Demand, the Billing Demand will be set equal to the higher of:
- (i) The highest kVA Demand during the High Load Hours (excluding a Rate Schedule 1880 Period of Use); or
 - (ii) 75% of the highest Billing Demand under Rate Schedule 1823 or Rate Schedule 1828, as applicable, for the Customer's Plant in the immediately preceding period of November through February, both months included.

4. Billing Year

For the purpose of this Rate Schedule 1895, the Billing Year is the 12-month period starting with the Project In-service Date or anniversary thereof each year and ending on the last day of such 12-month period. For greater certainty, a Customer with multiple Projects will have multiple Billing Years.

5. Energy Supplied

The Energy Supplied under this Rate Schedule 1895 for a Billing Period will be the higher of:

- (a) The Total Metered Energy supplied to the Customer in the Billing Period less the Customer's Monthly Energy Baseline for the Billing Period; or
- (b) Zero.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

6. Expected Annual Energy Consumption

The Expected Annual Energy Consumption is: (i) for Customers determined to be eligible for service under this Rate Schedule 1895, but not yet taking service; and (ii) for Customers that have been taking service under Rate Schedule 1895 for less than 12 Billing Periods, the sum of each such Customer's expected annual energy consumption under this Rate Schedule 1895 for 365 consecutive days of normal operations as determined in accordance with Special Condition 1.

7. Project

A Project is a unique New Electrification Project or Modification Electrification Project, as applicable, that is implemented by the Customer.

Any subsequent changes to the Project will be deemed to be the same Project and have the same Project In-service Date as the original Project, except that any subsequent change that is assessed to increase expected electricity use by greater than 10 MVA or 75 GWh/year will be treated as a separate Project and will have a separate Project In-service Date determined, subject to Special Condition 1.

8. Project In-service Date

The Project In-service Date is:

- (a) For a New Customer Plant, the Commencement Date set out in the Customer's initial Electricity Supply Agreement;
- (b) For a Modification Electrification Project, the date the Modification Electrification Project is first energised.

For greater certainty, the Project does not need to be fully commissioned or achieving its full design capability at the Project In-service Date.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

9. Energy Participation Cap

The Energy Participation Cap of this Rate Schedule 1895 is 3,500 GWh/year, subject to adjustment as set out below.

As of April 1 of each year, BC Hydro may reduce or increase the Energy Participation Cap of this Rate Schedule 1895 and increase or reduce the Energy Participation Cap of Rate Schedule 1894 by the same amounts, provided that the sum of the Energy Participation Caps of both Rate Schedules 1894 and 1895 do not exceed 5,000 GWh/year. BC Hydro may assess the 5,000 GWh/year cap, from time to time, as conditions warrant.

10. Fixed Percentage

The purpose of the Fixed Percentage is to separate electricity that will be served under Rate Schedule 1823 or Rate Schedule 1828 from electricity that will be served under Rate Schedule 1895. Only the assessed portion of load for the fuel switch portion of a Project is eligible for Rate Schedule 1895 pricing.

The Fixed Percentage will initially be determined based on the Customer's engineering submission in accordance with Special Condition 1. The Fixed Percentage will then be subject to annual assessment and adjustment in accordance with Special Conditions 4 and 5.

- (a) For a New Customer Plant, the Fixed Percentage is the percentage (rounded to two decimal places and not to exceed 100%) of the total electricity supplied to the Customer's Plant that is required to serve the fuel switch portion of the New Electrification Project.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

- (b) For an existing Customer with a Modification Electrification Project, the Fixed Percentage is the percentage (rounded to two decimal places and not to exceed 100%) of the total incremental electricity supplied to the Customer's Plant that is required to serve the fuel switch portion of the Modification Electrification Project.

11. New Electrification Project

A New Electrification Project is a project:

- (a) undertaken as part of the design of a New Customer Plant that is powered by electricity supplied by BC Hydro and where the Customer had an alternative to design all, or a portion, of the Project (including specific pieces of equipment) to be powered by hydrocarbon fuel; and/or
- (b) to permanently modify existing operating plant with electrical equipment that uses hydrocarbon fuel for self-generation of electricity and is not powered by electricity supplied by BC Hydro, to take electricity supplied by BC Hydro so as to eliminate or reduce hydrocarbon fuel usage for power supply; and/or
- (c) to permanently modify existing operating plant that is powered by electricity supplied by BC Hydro at less than 60kV, so as to take electricity supply from BC Hydro at 60kV or higher. The Customer must demonstrate that it had an alternative to power all, or a portion, of the Project (including specific pieces of equipment) by hydrocarbon fuel, in which case all of the existing plant load that is switched to service at 60kV or higher will then be treated as New Customer Plant.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

To qualify, for each case listed above, the Customer must demonstrate that: (i) it had a viable alternative project using hydrocarbon fuel to power all or a portion of the Project; and (ii) the fuel switch portion of the Project results in an assessed increase in electrical energy of at least 20 GWh/year.

12. Modification Electrification Project

A Modification Electrification Project is a project undertaken by an existing Customer to:

- (a) Increase or modify the capacity of the Customer's Plant powered by electricity supplied by BC Hydro where the Customer had an alternative to design all or a portion of the Project (including specific pieces of equipment) to be powered by hydrocarbon fuel; and/or
- (b) Permanently modify existing plant and/or add new plant to change the power supply for the Customer's Plant, or a portion of it (including specific pieces of equipment), from hydrocarbon fuel to electricity supplied by BC Hydro.

To qualify, for each case listed above, the Customer must demonstrate that for each Project: (i) it had a viable alternative project using hydrocarbon fuel to power all, or a portion, of the project; and (ii) the fuel switch portion of the Project results in an assessed increase in electrical energy consumption of at least 20 GWh/year.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

13. Monthly Reference Demand

For Customers with a New Electrification Project, the Monthly Reference Demand (in kVA) for a Billing Period will be equal to the product of:

- (a) (100% minus the Fixed Percentage); and
- (b) The Customer's highest kVA Demand during the High Load Hours in the Billing Period, excluding a Rate Schedule 1880 Period of Use.

For Customers with a Modification Electrification Project, the Monthly Reference Demand (in kVA) for a Billing Period will be equal to the sum of:

- (a) The actual Billing Demand under Rate Schedule 1823 or Rate Schedule 1828 in the corresponding Billing Period of the most recent annual period prior to the commencement of service under this Rate Schedule 1895; and
- (b) The product of:
 - (i) (100% minus the Fixed Percentage); and
 - (ii) The higher of:
 - the difference between the Customer's highest kVA Demand during the High Load Hours in the Billing Period (excluding a Rate Schedule 1880 Period of Use) and the actual Billing Demand under Rate Schedule 1823 or Rate Schedule 1828 in the corresponding Billing Period as determined per (a) above; or
 - zero.

The Monthly Reference Demand will remain subject to adjustment in accordance with Special Conditions 3, 4 and 5.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

14. Monthly Energy Baseline

For a Customer with a New Electrification Project, the Monthly Energy Baseline (in kWh) for a Billing Period will be equal to the product of:

- (a) (100% minus the Fixed Percentage) and the Customer's Total Metered Energy in the Billing Period.

For a Customer with a Modification Electrification Project, the Monthly Energy Baseline (in kWh) for a Billing Period will be equal to the sum of:

- (a) The actual kWh supplied to the Customer under Rate Schedule 1823 or Rate Schedule 1828 in the corresponding Billing Period of the most recent annual period prior to the commencement of service under this Rate Schedule 1895; and
- (b) The product of:
- (i) (100% minus the Fixed Percentage); and
- (ii) The higher of:
- the difference between the Customer's Total Metered Energy in the Billing Period and the actual kWh supplied to the Customer under Rate Schedule 1823 or Rate Schedule 1828 in the corresponding Billing Period as determined per (a) above; and
 - zero.

Monthly Energy Baselines will remain subject to adjustment in accordance with Special Conditions 3, 4 and 5.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

15. Average Energy Charge

For a Customer with a New Electrification Project, the Average Energy Charge (in \$/kWh) for all Billing Periods is equal to Energy Charge A specified under Rate Schedule 1823.

For a Customer served under Rate Schedule 1828 with a Modification Electrification Project, the Average Energy Charge (in \$/kWh) for all Billing Periods is equal to that Customer's prevailing energy charge as determined under Rate Schedule 1828.

For a Customer served under Rate Schedule 1823 with a Modification Electrification Project, the Average Energy Charge (in \$/kWh) for a Billing Period is equal to the total Rate Schedule 1823 energy charge (in \$) to the Customer for that Billing Period divided by the total energy (in kWh) supplied to the Customer under Rate Schedule 1823 in that Billing Period.

16. Total Metered Energy

The Total Metered Energy is the total energy (in kWh) supplied to the Customer at the Point of Delivery for the Customer's Plant, excluding energy supplied under Rate Schedule 1880.

17. Assessed

Assessed means the expected or actual electrical energy consumption and demand impact of a Project and/or the fuel switch portion of the Project that has been determined by BC Hydro in accordance with commonly accepted engineering principles and based on the Customer's engineering submission.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

Special Conditions	<p>1. Determination of Eligibility for Service under Rate Schedule 1895</p> <p>A Customer applying for service under this Rate Schedule 1895, including for an increase in service under this Rate Schedule, must provide an engineering submission that is acceptable to BC Hydro and that has been signed by a Professional Engineer (P.Eng) or Officer of the company. The Customer's engineering submission must include: (i) a description of the Project and associated production process/es; (ii) a description of the hydrocarbon fuel power supply alternative for the Project, including information demonstrating that the alternative is both technically and financially viable; (iii) the expected date by which the Customer will be making its financial investment decision to proceed with the Project and the expected in-service date for the Project; (iv) an estimate of the electrical load of the Project in both kVA and kWh over a full year's normal operations and of any planned changes or stages related to the Project; and (v) any other relevant supporting background and technical documentation in relation to the Project.</p> <p>The Customer must also provide a Declaration, signed by an Officer of the company, stating that the Customer will continue to take service from BC Hydro under the applicable rate schedule for a minimum of five years after completion of service under this Rate Schedule 1895, provided the Customer's Plant remains operational.</p>
---------------------------	--

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

A Project will be eligible for service under this Rate Schedule 1895 if:

- (a) The Customer's New Electrification Project or Modification Electrification Project is assessed by BC Hydro to consume at least 20 GWh/year of energy on an expected basis, and the sum of the expected annual energy consumption for the Customer's Project plus the Actual Annual Energy Consumption and the Expected Annual Energy Consumption for all other Customers does not exceed the Energy Participation Cap; and
- (b) The expected In-Service Date for the Project precedes March 31, 2030 or such later date acceptable to BC Hydro; and
- (c) The expected date by which the Customer will make a financial investment decision to proceed with a Project is within four years of the date of its engineering submission, or such other date acceptable to BC Hydro.

For a New Electrification Project, BC Hydro will assess a Customer's eligibility for service under this Rate Schedule 1895 at the time the Customer provides its engineering submission for Stage 1 Engineering Review by BC Hydro and prior to the Customer entering into a Tariff Supplement Nos. 6 or 87 Facilities Agreement with BC Hydro.

For a Modification Electrification Project, BC Hydro will assess a Customer's eligibility for service under this Rate Schedule 1895 at the time the Customer provides its engineering submission for Stage 1 Engineering Review by BC Hydro and prior to the Project In-service Date.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

A Customer that is determined to be eligible for service under this Rate Schedule 1895 will continue to be eligible for so long as the Customer continues to actively move through the interconnection process related to its Project or otherwise demonstrates to BC Hydro's satisfaction that it is proceeding with their Project in accordance with the schedule provided in their engineering submission(s).

2. Service under Rate Schedule 1823 for a New Customer Plant

A New Customer Plant supplied with electricity under this Rate Schedule 1895 will not have a Customer Baseline Load (Energy CBL) for service under Rate Schedule 1823 while the Customer is taking service under this Rate Schedule 1895. For greater certainty, Energy Charge A specified under Rate Schedule 1823 will apply to all kWh supplied to such new Customers under Rate Schedule 1823.

3. Determination of Fixed Percentage

The Fixed Percentage will be a single number used to determine the amounts of electricity (in kVA and kWh) supplied to a Customer under Rate Schedule 1823 or Rate Schedule 1828 while being served under this Rate Schedule 1895.

Via Stage 1 Engineering Review, BC Hydro will determine the Fixed Percentage in relation to a Customer's New Electrification Project or Modification Electrification Project based on the engineering submission provided by the Customer in accordance with Special Condition 1.

4. Annual Assessment of Baselines and Fixed Percentage

Within 90 days of the end of a Billing Year and in consultation with the Customer, BC Hydro will conduct an annual review of the Customer's Monthly Reference Demands, Monthly Energy Baselines and Fixed Percentage.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

BC Hydro and the Customer will use billing and metering data and the Customer's updated engineering submission(s) to assess, via Stage 2 or Stage 3 Engineering Review, that the baselines continue to be representative of normal expected electricity use under Rate Schedule 1823 or Rate Schedule 1828 for the current Billing Year.

Via Stage 2 or Stage 3 Engineering Review, the Fixed Percentage will thereafter remain subject to annual assessment and adjustment in accordance with Special Conditions 5 and 6. BC Hydro may require the customer to install metering equipment to BC Hydro's satisfaction to separately monitor and measure project electrical loads, at the customer's cost.

Where the customer's own metering information is used to assess the electricity consumption of a Project, the Customer will be responsible to design, procure, install and operate and maintain a high accuracy metering system (e.g., meter and instrument transformers) to BC Hydro's satisfaction and to provide such metering information requested by BC Hydro as part of its engineering submission.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

5. Baseline Adjustments

If BC Hydro and the Customer agree that the Monthly Reference Demands, Monthly Energy Baselines or Fixed Percentage as determined in accordance with the provisions above are not representative of the Customer's normal expected Rate Schedule 1823 or Rate Schedule 1828 electricity use for the current Billing Year, the parties can attempt to reach agreement on baseline adjustments. BC Hydro will rely on the principles and criteria set out in Tariff Supplement No. 74 to review and assess any requested baseline adjustments.

To initiate a baseline adjustment request, including a change to the Fixed Percentage, the Customer must provide an engineering submission to BC Hydro with a description of the requested adjustments and supporting technical information:

- (a) If the Customer's request for adjustment is to its initial Fixed Percentage:
 - (i) For Stage 1 Engineering Review, the Customer's engineering submission must be provided to BC Hydro prior to the commencement of service under Rate Schedule 1895;
 - (ii) For Stage 2 or Stage 3 Engineering Review, the Customer's engineering submission must be provided to BC Hydro within 30 days of the end of the prior Billing Year, unless otherwise agreed to by BC Hydro.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

- (iii) Where a Customer served under Rate Schedule 1823 has separately requested and been approved for an Energy CBL adjustment under Tariff Supplement No. 74, BC Hydro will make a corresponding adjustment to the Customer's Monthly Energy Baseline under Rate Schedule 1895 for the applicable Billing Period(s) of the current Billing Year. In this case, no further engineering submission is required since BC Hydro will have already assessed the electricity consumption impact of the adjustment event(s).

A Customer request for an increase or decrease in the Contract Demand specified in their Electricity Supply Agreement will trigger an automatic review by BC Hydro of the Customer's Monthly Reference Demands, Monthly Energy Baselines or Fixed Percentage.

BC Hydro will file all adjusted baselines with the British Columbia Utilities Commission (BCUC) for approval. Subject to direction from the BCUC, BC Hydro will use such filed baselines for the purpose of applying this Rate Schedule 1895 and Rate Schedule 1823 or Rate Schedule 1828, as applicable.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

6. Assessment of Project Electricity Consumption

BC Hydro will assess the electricity consumption impact of the Project and/or fuel switch portion of the Project as set out below:

Stage 1 Engineering Review: Initial Engineering Estimate

The purpose of the Stage 1 Review is to determine an initial estimate of the expected electricity consumption impact of the Project based on the application of engineering principles to forecast assumptions of production and plant/system/equipment performance data used in the Customer's initial engineering submission.

Stage 2 Engineering Review: Refined Engineering Estimate

The purpose of the Stage 2 Review is to refine the Stage 1 Review estimate of the electricity consumption impact for the Project based on the application of engineering principles to actual production, metering and plant/system/equipment performance data used in the Customer's updated engineering submission.

Stage 3 Engineering Review: Impact Study

The purpose of the Stage 3 Review is to further refine and assess prior engineering determinations of the electricity consumption impact of the Project. If an Impact Study is requested by BC Hydro, the Impact Study must be prepared by a third-party acceptable to BC Hydro and retained and paid for by the Customer.

The Impact Study will be based on the application of an international protocol known as the International Performance Measurement and Verification Protocol (IPMVP). BC Hydro will work with the customer and the third-party to agree on the scope of the Impact Study.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>The Customer will deliver a copy of the Impact Study report to BC Hydro for review. BC Hydro will not be bound to accept the conclusions of the Impact Study, but may also rely on metering and billing data, or other available data, in making its determination.</p> <p>If BC Hydro determines that a second Impact Study is required to assess the electricity consumption impact of the Project, BC Hydro will pay the cost of the second Impact Study.</p> <p>7. Concurrent Service Under Other Rate Schedules</p> <p>BC Hydro will not provide service to a Customer under any other rate schedule or rate schedules while the Customer is taking service under this Rate Schedule 1895, except for Rate Schedule 1823 or Rate Schedule 1828 and, as applicable, Rate Schedule 1880. For greater certainty, the Customer will not be eligible for service under any of BC Hydro's other optional non-firm Rate Schedules such as Rate Schedule 1892 and Rate Schedule 1893.</p>
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.
Note	The terms and conditions under which Transmission Service is supplied are contained in Electric Tariff Supplement Nos. 5 and 6, and Electric Tariff Supplement Nos. 87 and 88, as applicable
Rate Riders	<p>The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.</p> <p>The Trade Income Rate Rider as set out in Rate Schedule 1904 applies to all charges payable under this Rate Schedule, before taxes and levies.</p>

5. TRANSMISSION SERVICE**RATE SCHEDULE 3817 – WHEELING SERVICE – FORTISBC INC.**

Availability	This Rate Schedule is available to FortisBC Inc. (FortisBC) for the Wheeling of electricity over BC Hydro's transmission facilities in accordance with the terms and conditions of the Amended and Restated Wheeling Agreement entered into between BC Hydro and FortisBC and deemed effective July 1, 2014 (Amended and Restated Wheeling Agreement).
Applicable in	The Point of Supply and the Points of Interconnection specified in the Amended and Restated Wheeling Agreement.
CPI Adjustment	Each Contract Year, the applicable rates for General Wheeling and Emergency Wheeling to each Point of Interconnection identified in this Rate Schedule will be adjusted by increasing the prior Contract Year's applicable rates by the annual rate of inflation as published by Statistics Canada using the British Columbia Consumer Price Index (all items) for the month of July preceding the commencement of the Contract Year in which the adjustment will apply. These adjustments will become effective at the commencement of the next Contract Year on October 1 of that calendar year, and the adjusted rates will be posted on BC Hydro's transmission website.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

Annual General Wheeling Rates	<p>Subject to adjustment in accordance with the CPI Adjustment provision of this Rate Schedule, for the purposes of calculating the applicable rates for General Wheeling to each Point of Interconnection identified in this Rate Schedule for the Contract Year commencing October 1, 2013, the applicable rates for General Wheeling to each Point of Interconnection identified in this Rate Schedule for the prior Contract Year are:</p> <ol style="list-style-type: none">Point of Supply to Creston Point of Interconnection \$13,411.12 per MW of Nominated Wheeling DemandPoint of Supply to Okanagan Point of Interconnection \$20,578.55 per MW of Nominated Wheeling DemandPoint of Supply to Princeton Point of Interconnection \$54,874.45 per MW of Nominated Wheeling Demand
Monthly Charge	<p>The monthly charge will be one-twelfth of the above annual rate per MW of Nominated Wheeling Demand for each Point of Interconnection.</p>
Nominated Wheeling Demand	<p>The maximum amount of electricity, as determined in section 6.1 of the Amended and Restated Wheeling Agreement, that BC Hydro will Wheel for FortisBC under General Wheeling to each Point of Interconnection during a stated Contract Year.</p>
POI Imbalance Wheeling	<p>A rate will be charged for each MW of POI Imbalance Wheeling that is equal to 200% of the then-current maximum rate that would apply to FortisBC under Schedule 01 of BC Hydro's Open Access Transmission Tariff for Hourly Non-Firm Point-To-Point Transmission Service.</p>
Emergency Wheeling	<p>Subject to adjustment in accordance with the CPI Adjustment provision of this Rate Schedule, a rate of 0.110 ¢ per kWh will be charged for each kWh of Emergency Wheeling. This charge would only apply to Wheeled Electricity which cannot be accommodated within the limits of the Nominated Wheeling Demand applicable to the Point of Interconnection, and which meets the criteria for Emergency Wheeling in accordance with the Amended and Restated Wheeling Agreement.</p>

	<p>(b) Customers with an accepted Net Metering Application on or before April 28, 2019:</p> <p>a transitional Energy Price of 9.99 ¢ per kWh. This transitional Energy Price will expire on April 30, 2024. After April 30, 2024, all Customers receiving Service under this Rate Schedule will be paid the Energy Price described in (a), above.</p>
Definitions	<p>1. Anniversary Date</p> <p>The Anniversary Date is March 1st or such other date chosen by the Customer in the manner described in this Rate Schedule.</p> <p>2. DGTIR-100</p> <p>DGTIR-100 is BC Hydro’s Distributed Generation Technical Interconnection Requirements – 100 kW and Below.</p> <p>3. Generation Account</p> <p>The Generation Account is an account established by BC Hydro for a Customer on the first billing period following the date the Customer commences taking Service under this Rate Schedule.</p> <p>4. Generation Account Balance</p> <p>The Generation Account Balance is the Electricity represented by credits in a Customer’s Generation Account.</p> <p>5. Generating Facility</p> <p>Generating Facility for the purposes of this Rate Schedule means a generating facility, including fuel cells and energy recovery generation, that:</p> <p>(a) Utilizes biogas, biomass, geothermal heat, hydro, solar, ocean, wind or other energy resources or technologies defined as a “clean or renewable resource” in the Clean Energy Act (as updated from time to time) to generate Electricity;</p> <p>(b) Has a nameplate rating of not more than 100 kilowatts; and</p>

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24COMMISSION SECRETARY

(c) Is owned or leased by the Customer and is located on the same parcel of land as the Customer's Premises for which Service is being provided under any of the Rate Schedules described above, or on an adjacent parcel of land owned or leased by the Customer, and is connected to the same Point of Delivery as the Customer's Premises being served under any of the Rate Schedules described above, and includes all wiring, protection isolation devices, disconnect switches, and other equipment and facilities on the Customer's side of the Point of Delivery.

6. Interconnection Approval

BC Hydro's approval of the interconnection of the Generating Facility to the BC Hydro system and the commencement of operation of the Generating Facility.

7. Net Consumption

Net Consumption is the Net Energy that is positive because BC Hydro supplies more Electricity to the Customer than the Electricity delivered.

8. Net Energy

Net Energy is the difference between the Electricity supplied by BC Hydro to the Customer during the billing period and the Electricity delivered from the Generating Facility to BC Hydro's system during the billing period.

9. Net Generation

Net Generation is the Net Energy that is negative because the Customer delivers more Electricity from the Generating Facility to BC Hydro's system than the Customer receives in Electricity from BC Hydro during the billing period.

10. Net Metering Application

The Net Metering Application is the Customer's application to receive Service under this Rate Schedule, to expand the generating capacity of their Generating Facility, or to modify their Generating Facility.

ACCEPTED: March 27, 2024

COMMISSION SECRETARY

	<p>11. Net Metering Site Acceptance Verification Fee</p> <p>The Net Metering Site Acceptance Verification Fee is the fee set out in section 11 (Schedule of Standard Charges) of the Terms and Conditions of the Electric Tariff.</p>
Application and Interconnection Approval	<ol style="list-style-type: none">1. Customers wishing to receive Service under this Rate Schedule must submit a Net Metering Application to BC Hydro. The Customer must not interconnect or commence operation of a Generating Facility before receiving:<ol style="list-style-type: none">(a) BC Hydro's written acceptance of the Net Metering Application, and(b) Interconnection Approval.2. A Customer receiving Service under this Rate Schedule may change their Anniversary Date in the Net Metering Application or by request to BC Hydro. BC Hydro will accept one request to change the Anniversary Date per Customer.3. BC Hydro may determine that a site acceptance verification is required. In that case:<ol style="list-style-type: none">(a) the Customer will be notified;(b) BC Hydro will inspect the installation of the Generating Facility and may require the Customer to supply additional information and provide access to the Customer's Generating Facility to carry out additional inspections, as described in the DGTIR-100 or other interconnection requirements applicable to the Generating Facility, and(c) the Customer must pay the Net Metering Site Acceptance Verification Fee.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

4. The Customer will submit a copy of the final inspection report or approval issued by the governmental authority having jurisdiction to inspect and approve the installation, and any additional information that may be requested by BC Hydro. BC Hydro will provide a decision on Interconnection Approval with reasonable promptness following BC Hydro's receipt of any final inspection reports, applicable government approvals and requested information.
5. A Customer will begin receiving Service under this Rate Schedule on the date identified in BC Hydro's written Interconnection Approval.
6. In BC Hydro's sole discretion, BC Hydro may reject any Net Metering Application where:
 - (a) BC Hydro considers that the information provided in the Net Metering Application is insufficient or inconsistent with the terms of this Rate Schedule, the DGTIR-100 or other applicable interconnection requirements;
 - (b) the Customer has submitted false or misleading information to BC Hydro in the Net Metering Application or other information requested by BC Hydro;
 - (c) the Customer has a prior history of non-compliance with this Rate Schedule; or
 - (d) BC Hydro's system cannot accommodate the connection of the Customer's Generating Facility due to existing or expected system, safety, financial or technical constraints.
7. Where BC Hydro has accepted the Customer's Net Metering Application, this acceptance will expire 18 months from the date BC Hydro accepted the Customer's Net Metering Application if the Customer has not received Interconnection Approval. The Customer may then submit a new Net Metering Application.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

Metering	<ol style="list-style-type: none">8. Electricity supplied from the BC Hydro system to the Customer, and Electricity delivered from the Customer's Generating Facility to the BC Hydro system, will be determined by means of a Smart Meter or Radio-Off Meter.9. The Customer will install, at their cost, the meter base and any wiring, poles, protection-isolation devices, disconnect switches, and other equipment and facilities on the Customer's side of the Point of Delivery as required under DGTIR-100 or other interconnection requirements applicable to the Generating Facility. BC Hydro will supply and install the Metering Equipment and make the final connections.
Billing	<p>Determination of the Customer's bill will be as follows:</p> <ol style="list-style-type: none">1. Meter reading and billing frequency will be in accordance with the Rate Schedule under which the Customer is receiving Service from BC Hydro.2. At the end of each billing period BC Hydro will determine the Net Energy applicable for that billing period.3. If there is Net Consumption, then BC Hydro will apply any credits in the Generation Account Balance to the Net Consumption until the Net Consumption amount is reduced to zero. If the Customer's Generation Account Balance has insufficient credits to reduce the Net Consumption to zero, BC Hydro will bill the Customer for the remaining Net Consumption.4. If there is Net Generation, BC Hydro will credit the Customer's Generation Account with the Net Generation.5. Every billing period, BC Hydro will bill the Customer for the Basic Charge and Demand Charge (if applicable) under the Rate Schedule under which the Customer is receiving Service from BC Hydro.6. BC Hydro will follow this procedure, and will notify the Customer of amounts credited and debited to the Customer's Generation Account and of any Generation Account Balance on the bill rendered by BC Hydro for each billing period, until the Anniversary Date.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<ol style="list-style-type: none">7. At the Anniversary Date, if a Customer has a Generation Account Balance, BC Hydro will be deemed to have purchased that amount of Electricity from the Customer, and will be obliged to pay the Customer for that Electricity at the Energy Price and the Generation Account Balance will revert to zero.8. The procedures described above will apply in each succeeding 12 month period and at each succeeding Anniversary Date for as long as the Customer continues to take Service under this Rate Schedule.9. If Service under this Rate Schedule is Terminated, the billing procedures described above will be applied as of the date of Termination instead of the Anniversary Date. In that event, BC Hydro will pay the amount owing in respect of any Generation Account Balance to the Customer within 45 days of the date of Termination, subject to any rights of deduction or set-off BC Hydro may have.10. In no case will any Generation Account Balance have any cash value or be convertible to cash, except as provided above.
Special Conditions	<ol style="list-style-type: none">1. Subject to the provisions of Rate Schedule 1289, any other applicable Rate Schedule(s) under which the Customer is from time to time receiving Service from BC Hydro and other applicable provisions of BC Hydro's Electric Tariff, BC Hydro will supply Electricity to, and accept delivery of Electricity from, the Customer at the Point of Delivery.2. A Customer who (a) utilizes a synchronous generator, (b) takes Service at a Primary Voltage and/or (c) utilizes a Generating Facility with a nameplate rating greater than 50 kilowatts, will pay all associated incremental costs for connection of the Customer's Generating Facility as set out in Terms and Conditions section 9.7 (Generating Facility Connections (Distributed Generation)).

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

3. The Customer will design, install, operate and maintain the Generating Facility, and all ancillary facilities on the Customer's side of the Point of Delivery in accordance with all governmental laws and regulations from time to time applicable, and BC Hydro's DGTIR-100 or other interconnection requirements applicable to the Generating Facility. Customers will obtain and maintain any required governmental authorizations and/or permits required for the installation and operation of the Generating Facility. The Generating Facility will meet all applicable safety and performance standards, including the codes and standards identified in BC Hydro's DGTIR-100 or other interconnection requirements applicable to the Generating Facility. The Customer will be responsible for the safe and proper operations of the Generating Facility consistent with the requirements of the regulations of the *Safety Standards Act*. BC Hydro, acting reasonably, may from time to time prescribe additional requirements which in its judgment are required for the safety of its system.
4. The Customer will promptly notify BC Hydro of any malfunction or breakdown of the Generating Facility that could constitute a safety hazard or reasonably be expected to cause disturbance or damage to BC Hydro's system.
5. Where the Customer leases the Generating Facility from a third party or retains a third party to install, operate and maintain the Generating Facility on its behalf, then as between the Customer and BC Hydro, the Customer will remain responsible for any obligations under all terms and conditions of Service, including applicable Rate Schedules, DGTIR-100, and other applicable interconnection requirements to the same extent as if the Customer owns, installs, operates and maintains the Generating Facility itself.
6. The Customer will not operate the Generating Facility so as to generate Electricity at a rate greater than 110 per cent of the nameplate rating of the Generating Facility, and will not add to or modify the Generating Facility without Interconnection Approval.
7. BC Hydro may suspend or Terminate the Customer's Service under this Rate Schedule if the Customer fails to comply with this Rate Schedule.

ACCEPTED: March 27, 2024ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

8. Service under this Rate Schedule is conditional on the continuance of Service to the Customer under any of the Rate Schedules described under the Availability section above, and is further conditional on the Customer being billed monthly or bi-monthly under BC Hydro's regular billing plan.
- If Service under the applicable Rate Schedule is suspended or Terminated for any reason, or if the Customer ceases to be billed under BC Hydro's regular billing plan, Service under this Rate Schedule will be deemed to have automatically been suspended or Terminated concurrent with suspension or Termination of Service under the applicable Rate Schedule, or change to a different billing plan, as applicable.
9. If Service under this Rate Schedule is suspended or Terminated for any reason, BC Hydro may require the Customer to obtain a new Interconnection Approval prior to resuming operation of the Generating Facility.
10. BC Hydro will have the right to require the Customer to interrupt (including, if so specified by BC Hydro, by means of physical disconnection or lock-out) or reduce the output of their Generating Facility whenever:
- (a) BC Hydro deems such action necessary, in its sole judgment, to permit BC Hydro to construct, install, maintain, repair, replace, remove, investigate, or inspect any of its equipment or any part of its electric system; or
 - (b) BC Hydro determines in its sole judgment, that curtailment, interruption, or reduction of the Customer's electrical generation is otherwise necessary due to emergencies, forced outages, force majeure, safety hazards, possible damage to or disturbance of its electric system, or compliance with prudent electrical practices.

ACCEPTED: March 27, 2024

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

11. Notwithstanding any other provision of this Rate Schedule, in any of the events or circumstances mentioned in Special Condition No. 10, BC Hydro will have the right:
 - (a) To require the Customer to immediately disconnect the Generating Facility from BC Hydro's system; and
 - (b) To itself immediately disconnect the Generating Facility from the BC Hydro system if the Customer is either not available or fails to act, and such disconnection is deemed necessary by BC Hydro.
12. Whenever feasible BC Hydro will give the Customer reasonable advance notice that interruption or reduction in deliveries may be required, or that disconnection of the Generating Facility from BC Hydro's system may be required, but the failure of BC Hydro to give such notice will not invalidate any action taken by BC Hydro under any of the Special Conditions in Rate Schedule 1289.
13. If BC Hydro in its discretion deems it necessary to require the Customer to interrupt or disconnect the Generating Facility from BC Hydro's system, or for BC Hydro to itself effect the interruption or disconnection of the Generating Facility from its system, as provided in Rate Schedule 1289, or such interruption occurs as a result of suspension or Termination of Service to the Customer in accordance the provisions of Rate Schedule 1289, then except to the extent caused by the wilful misconduct or gross negligence of BC Hydro, its servants or agents, BC Hydro and its servants or agents will not be liable to the Customer for any loss or damage whatsoever resulting from the exercise of such rights by BC Hydro.
14. BC Hydro will have the right to enter the Customer's Premises at all reasonable hours, without notice to the Customer, to inspect the Customer's protective devices and read, inspect and/or test meters, or to disconnect the Generating Facility. Nothing in this Rate Schedule will limit or affect any rights of entry to the Customer's Premises that BC Hydro may have under any other sections of the Electric Tariff or any other agreement with the Customer.

COMMISSION SECRETARY

3. BC Hydro may disconnect, interrupt, or terminate Electric Vehicle Charging Service due to existing or expected system, safety, accessibility, technical or environmental issues, or other constraints on the BC Hydro system or at a Charging Port, a Charging Site or a Charging Station, as determined by BC Hydro. BC Hydro will, whenever practical, give notice of such disconnection, interruption, or termination to Customers, by posting information on applicable website(s) or digital platforms. In the event of a disconnection or interruption of the Electric Vehicle Charging Service at a Charging Site, BC Hydro will, whenever practical, provide information on the expected duration of the disconnection or interruption of the Electric Vehicle Charging Service on applicable website(s) or digital platforms or at the applicable Charging Site.

Neither BC Hydro nor any of its employees, representatives, or agents will be responsible or liable for any loss, injury, damage, or expense caused by or resulting from such disconnection, interruption, or termination.

4. A Customer using a Charging Port is solely responsible for the supply, compatibility, connectivity, safety, and use of any third-party equipment, device, hardware, software, and telecommunications networks necessary for the Customer to initiate, complete, or pay for a Charging Session, and for any and all third-party fees and taxes payable. In addition to and without restriction of any other limitations of liability of BC Hydro, BC Hydro is specifically not liable for any loss, damage, injury, or expense caused by or resulting from the use of such third-party equipment, device, hardware, software, and telecommunications networks.

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

5. The Customer taking Electric Vehicle Charging Service under this Rate Schedule will be billed in Canadian currency and make payment of the billed amounts for a Charging Session and the collected amount of any applicable third-party fees, through a payment method accepted by BC Hydro.
6. BC Hydro may, in its discretion and at any time, waive all or part of BC Hydro's rates and charges otherwise applicable under this Rate Schedule. The cause of the waiver may include, but is not limited to, metering or billing errors not attributable to, or beyond the reasonable control of, the Customer using a Charging Port.
7. If a Customer intends to use a BC Hydro radio frequency identification (**RFID**) card to receive Electric Vehicle Charging Service, a one-time fee, as posted on BC Hydro's website and electric vehicle mobile app, will be applied for the initial purchase of the RFID card.
8. BC Hydro may collect from a Customer fees payable by the Customer to a third party where the third party charges a fee:
 - (i) For the provision of its services or the use of its equipment, devices, software and telecommunication networks necessary for the Customer to initiate, complete or pay for a Charging Session; and
 - (ii) For parking the electric vehicle at a Charging Station during a Charging Session

The applicable third-party fees will be displayed at the applicable Charging Site and on BC Hydro's electric vehicle mobile app. For greater certainty, the third-party fees are not rates and charges of BC Hydro.

ORDER NO. G-91-23, G-154-23 and G-43-24; G-93-24

COMMISSION SECRETARY

	<p>9. A Customer who takes Service for a Premises from BC Hydro under other Rate Schedules may elect to enter into an Electric Vehicle Charging Billing Agreement with BC Hydro. BC Hydro may, in its discretion, refuse to enter into, or terminate, an Electric Vehicle Charging Billing Agreement with a Customer.</p> <p>For greater certainty, under the Electric Vehicle Charging Billing Agreement, a bill for BC Hydro’s Service for a Premises that includes the billed amounts for a Charging Session and the collected amount of any applicable third-party fee under this Rate Schedule is deemed to be one single bill for the purposes of applying the Terms and Conditions of the Electric Tariff and must be paid in accordance with section 5.3 (Payment of Bills).</p> <p>Notwithstanding the preceding paragraph, a Customer’s billed amounts for a Charging Session and the collected amount of any applicable third-party fee will not be included to estimate the Customer’s fixed monthly installments under section 5.6 (Monthly Equal Payment) and will be paid in addition to the fixed monthly installments.</p> <p>Regardless of whether an Electric Vehicle Charging Billing Agreement has been entered into, section 5.7 (Back-Billing) does not apply to the billed amounts for a Charging Session and the collected amount of any applicable third-party fee.</p> <p>10. The Charging Stations and associated facilities and equipment located outside Rate Zone I, Rate Zone IB, and Rate Zone II are solely for the purposes of providing the Electric Vehicle Charging Service under this Rate Schedule, but not for the purposes of providing Service under any other Rate Schedule.</p>
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.

Schedule 01 – Point-To-Point Transmission Service (continued)

Penalty Charge	In addition to the applicable rate for service and associated charges for Ancillary Services, a penalty charge will be applied to all unauthorized usage at a rate of 125 percent of the maximum hourly delivery charge.
Special Conditions	<p>Discounts:</p> <p>The following conditions apply to discounts for transmission service:</p> <ol style="list-style-type: none"> 1. Any offer of a discount made by BC Hydro must be announced to all Eligible Customers solely by posting on the OASIS, 2. Any customer-initiated requests for discounts (including requests for use by one's wholesale merchant or an affiliate's use) must occur solely by posting on the OASIS, 3. Once a discount is negotiated, details must be immediately posted on the OASIS, and 4. For any discount agreed upon for service on a path, from POR(s) POD(s), BC Hydro must offer the same discounted transmission service rate for the same time period to all Eligible Customers on all unconstrained transmission paths that go to the same POD(s) on the Transmission System.
Taxes	The Rate and Charges contained herein are exclusive of applicable taxes.
Resales	The rates and rules governing charges and discounts stated above shall not apply to resales of transmission service, compensation for which shall be governed by section 23.1 of the Tariff
Note	The terms and conditions under which Transmission Service is supplied are contained in BC Hydro's Open Access Transmission Tariff. Capitalized terms appearing in this Rate Schedule, unless otherwise noted, shall have the meaning ascribed to them therein.

Effective April 1, 2024, this rate schedule is approved.

Schedule 03**Scheduling, System Control, and Dispatch Service**

Preamble	This service is required to schedule the movement of power through, out of, within, or into a Control Area. This service can be provided only by the operator of the Control Area in which the transmission facilities used for transmission service are located. Scheduling, System Control and Dispatch Service is to be provided directly by BC Hydro. The Transmission Customer must purchase this service from BC Hydro. The charges for Scheduling, System Control and Dispatch Service are to be based on the rates set forth below.
Availability	In support of Network Integration Transmission Service, Long and Short-Term Firm Point-to-Point Transmission Service, and Non-Firm Point-to-Point Transmission Service.
Rate	\$0.140 per MW of Reserved Capacity per hour.
Taxes	The Rate and Charges contained herein are exclusive of applicable taxes.
Note	A description of the methodology for discounting Scheduling, System Control and Dispatch Services provided under this Schedule is contained in Section 3 of the BC Hydro OATT.

Effective April 1, 2024, this rate schedule is approved.
