

**ADDENDUM**

**Number: 10**

**Issue Date: June 6, 2008**

**Subject: Eligibility – Project Type and Existing Contracts**

Words and phrases defined in the RFP and used in this Addendum have the meanings given in the RFP, unless otherwise defined herein. References to section numbers mean sections of the RFP, unless otherwise specified.

1. **Clarification re: Existing Contracts**

Capacity and/or energy from a Project under an existing contract with BC Hydro is eligible, provided that the capacity or energy can be lawfully recalled by the Proponent under the terms of that contract, with effect on or before the Guaranteed COD, or in the case of a Phased Project, on or before the scheduled in-service date of the phase in which such energy is first deliverable under an EPA awarded in this Call, and such energy will satisfy the “Existing Contracts” eligibility criterion in section 14. Such energy will also be considered new or incremental and will satisfy the “Project Type” eligibility criterion in section 14.
