

VANCOUVER ISLAND – CALL FOR TENDERS

ADDENDUM

Addendum Number: 11

Date of Issue: 12 March 2004

Subject: **Full Tolling Option Designation and Information Form
Revised Fuel Supply Certainty Guidelines and Information Requirements
Pre-Qualification Submissions – Correction on CFT Schedule**

1. This Addendum is issued pursuant to the BC Hydro Call for Tenders for Capacity and Associated Energy Supply on Vancouver Island, issued 31 October 2003, as amended (the “CFT”).
2. Words and phrases defined in the CFT and used herein have the meanings given in the CFT, unless otherwise indicated.
3. ***Full Tolling Option Designation and Information Form:*** This Addendum includes a form by which any bidder wishing to designate “Option #2 – Full Tolling” (as described in section 6.2(b) of the CFT) in respect of a gas-fired project is required to make that election in respect of each such project being tendered. Such designation must be made by completing the *Full Tolling Option Designation and Information Form*, attached, in accordance with the General Instructions in that document and submitting it on or before 4:00 p.m. PPT on the date indicated in the CFT Schedule. Any such election made shall be irrevocable after that date. Late forms will not be accepted. Option #2 – Full Tolling will not be available for a gas-fired project if the bidder does not submit a *Full Tolling Option Designation and Information Form* for that project before 4:00 p.m. PPT on the date specified in the CFT Schedule. If the required forms are incomplete or inaccurate BC Hydro may be unable to secure accurate information from third parties relative to gas transportation issues, with the result that Tenders may be rejected. The bidder is solely responsible for all consequences of incomplete or inaccurate forms.
4. ***Revised Fuel Supply Certainty Guidelines and Information Requirements:*** The Fuel Supply Certainty Guidelines and Information Requirements posted with Addendum 7 on 6 January 2004 have been revised to reflect, among other things, the introduction of Option #3 - Partial Tolling/Commodity Only as described in section 6.2(c) of the CFT. The revised document is posted with this Addendum, along with a blacklined version showing the changes made since the 6 January 2004 posting.
5. ***Pre-Qualification Submissions – Correction on CFT Schedule:*** The CFT Schedule currently specifies that 29 March 2004 is the “Deadline for Submission of Pre-Qualification Form”. The submissions required at that time include all “Pre-Qualification Submissions” (of which the Pre-Qualification Form is a part) as described in the *Pre-Qualification Form, Mandatory Criteria Guidelines and Information Requirements*, revised 5 March 2004. This is consistent with section 9.6 of the CFT. The CFT Schedule is revised to be in the form issued with this Addendum.
