

VANCOUVER ISLAND - CALL FOR TENDERS

ADDENDUM

Addendum Number: 15

Date of Issue: 23 June 2004

Subject: **Final Form Agreements**
Key Changes in the Final Form Agreements
Appendix 6 Reissued
Minimum/Maximum CFT Capacity

1. This Addendum is issued pursuant to the BC Hydro Call for Tenders for Capacity and Associated Energy on Vancouver Island, issued 31 October 2003, as amended (the "CFT").

2. Words and phrases defined in the CFT and used herein have the meanings given in the CFT. Refer to Appendix 1 of the CFT for definitions.

3. **Final Form Agreements Issued:** BC Hydro has considered all bidder comments on the Preliminary Form Agreements, which were submitted in accordance with the CFT Schedule. The Agreements have been revised. The Final Form EPA and the Final Form VIGP Transfer Agreement are issued and posted with this Addendum. These agreements are available in clean and blacklined form, both as PDF documents. The blacklined form shows changes from the most recently published Preliminary Form Agreements on which bidder comments were based. No bidder elected a partial tolling option and no wind projects were pre-qualified. Accordingly, these options have been deleted from the Final Form EPA.

4. **Key Changes in the Final Form Agreement:** A Summary of Key Changes in the Final Form Agreements is issued and posted with this Addendum. This document summarizes very briefly certain of the substantive changes made in the Final Form Agreements, by comparison to the immediately preceding version of the Preliminary Form Agreements, in response to bidder comments.

5. **Appendix 6 Reissued:** In order to assist bidders and their advisors in reviewing the Final Form EPA, Appendix 6 to the CFT, Summary of Seller EPA Performance and Delay LDs, Liabilities and Securities, has been revised to reflect the Final Form EPA. The revised Appendix 6 is issued and posted as a PDF document with this Addendum.

6. **Minimum/Maximum CFT Capacity:** The Minimum CFT Capacity and the Maximum CFT Capacity remain unchanged at 150 MW and 300 MW, respectively.

7. **Documents Issued Concurrently:** The following documents referenced herein are issued concurrently with this Addendum and are available at <http://www.bchydro.com/vicft>.

- Final Form EPA (PDF - clean and blacklined)
- Final Form VIGP Transfer Agreement (PDF - clean and blacklined)
- Summary of Key Changes in the Final Form Agreements (PDF)
- Appendix 6 – Summary of Seller EPA Performance and Delay LDs, Liabilities and Securities (PDF)
