

# BC Hydro Clean Power Call

## Box Canyon Hydro Project

Project Type:	Run-of-river hydro
Owner:	Box Canyon Hydro Corporation and Sound Energy Inc.
Nearest Community:	Port Mellon
Capacity:	15 MW
Total Energy:	50 GWh/year

The Box Canyon Hydro Project is located 9 km northeast of Port Mellon.

The project does not require a dam but rather relies on the natural grade and flow of the river. A portion of the flow is diverted into a penstock which conveys the water to a downstream powerhouse.

The project qualifies as clean or renewable electricity in accordance with the guidelines published by the B.C. Ministry of Energy, Mines, and Petroleum Resources.
