

BRITISH COLUMBIA UTILITIES COMMISSION
Save British Columbia Coalition
Information Request

**British Columbia Hydro and Power Authority
2004/05 and 2005/06 Revenue Requirements Application**

1. Please supply the actual dividend dollar amounts paid to government in each fiscal year from 1990 to the present, and forecasts for the fiscal years covered by this application.

2. What has been the actual cost of restructuring?

Please include all related costs including internal staff assignment, commissioned studies, research costs, etc. related to all aspects of restructuring (outsourcing, formation of BC Transmission Corporation, etc.).

3. What are the actual and predicted cost savings resulting from restructuring for the period covered by this revenue application?
4. Why is the rate Stabilization Fund being discontinued?
5. Given that purchased electricity costs about 12x Hydro-produced electricity, what alternatives have been investigated to mitigate this cost differential?
6. What additional cost to BC Hydro is forecast related to the privatization of future electricity development, including any development subsidies, grants and cost of purchasing, as opposed to internal development of additional electricity production?
