

# PUBLIC NOTICE

## OF PROJECT DEFINITION CONSULTATION PROGRAM FOR POTENTIAL PEACE RIVER SITE C HYDRO PROJECT

**MAY 1 – JUNE 30, 2008**

BC Hydro is inviting communities, stakeholders and the public to participate in the upcoming Project Definition Consultation for the potential Peace River Site C Hydro Project. Site C is one of several options available to help meet B.C.'s future electricity needs.

Pre-Consultation from December 2007 to February 2008 focused on how communities want to be consulted, and on what topics. Feedback from Pre-Consultation has informed the next phase – Project Definition Consultation.

Project Definition Consultation, Round 1, takes place from May 1 through June 30, 2008. Feedback gathered through this consultation will be used, along with technical and environmental information, to help update the potential project's design and definition.

Consultation materials will be available online beginning May 1, 2008. You can provide feedback and learn more by:

### **Multi-stage Evaluation and Consultation Program**

BC Hydro is undertaking a stage-by-stage approach for evaluating Site C as a potential option to meet B.C.'s future electricity needs. At the end of each stage of the process, BC Hydro will make a recommendation to government for a decision on whether to proceed to the next stage of project planning and development.
