

ELECTRICAL SAFETY TRAINING

FIRE FIGHTERS

'Electrical Safety for Fire Fighters' train-the-trainer workshops are designed to assist you in educating fellow fire fighters on the dangers of common electrical hazards that may be encountered when fighting fires involving electricity and to make fire fighters better equipped to evaluate risks, make decisions and take actions to keep everyone safe. The workshop is delivered by instructors from the Electrical Industry Training Institute (EITI).

All **Chief Fire Training Officer/Training Officers** in British Columbia are welcome to attend a workshop in the location and on the date most convenient to them. All workshops start at 8:30 am unless otherwise noted.

TO REGISTER

To register, please contact Colleen Morlan at the Electrical Industry Training Institute at **1-866-590-8911**. Please do not call the 'local contact' to register.

ADDITIONAL INFORMATION

- The workshop is for Training Officers who deliver training to their fellow fire fighters.
- Participants receive a set of electrical safety training materials, including an instructor guide, comprehensive instruction manual, CD with Power Point presentations, and DVD with video.
- Workshop takes a minimum of 5 hours and is free-of-charge.
- Each participant at a regional workshop will be eligible to win a draw prize.
