

British Columbia Utilities Commission Re-issued Information Request No. 1.15.3 Dated: 01 December 2004 BC Hydro Response issued 17 December 2004	Page 1
British Columbia Hydro and Power Authority Call for Tenders for Capacity on Vancouver Island Review of Electricity Purchase Agreement	

**15.0 Reference: CFT Report, Appendix J**

1.15.3 Further to page 2 of Appendix J, please provide a schedule showing the annual energy prices under each of the two pricing assumptions that were used to equalize energy production, and the cost in terms of energy price of the energy losses differential. On the schedule, please also show the annual average forecast LLH electricity price and average annual price that BC Hydro expects to pay under its past and future energy calls. Please outline the basis of the price forecast for energy bought under energy calls.

**RESPONSE:**

**THIS INFORMATION RESPONSE IS BEING FILED IN CONFIDENCE  
WITH THE BCUC**
