

# Community ReGreening Program

## Terms and conditions for program participation

### THE APPLICANT:

1. agrees that any trees planted within five (5) metres of a distribution power line will be a species with a maximum mature growth height of five (5) metres; trees planted within a transmission right-of-way will be a species with a maximum mature growth height of three (3) metres, as detailed in [planting-near-powerlines.pdf \(bchydro.com\)](#)
2. will make arrangements to purchase or provide the trees and plant materials which will be planted in accordance with sound arboricultural practices
3. will provide ongoing appropriate care and maintenance for the trees and other plant materials according to sound arboricultural practices
4. will review all plant and seeding mixes to ensure no invasive species are planted
5. will work with BC Hydro to balance the needs for trees in communities and safe reliable power supply, both of which contribute to community liveability
6. will provide a report (including pictures) upon completion of the project
7. will ensure that this project is not for commercial or industrial purposes
8. will indemnify and save harmless personnel from BC Hydro from all claims, demands, losses, damages or costs of any kind including injury or death of a person or damage to or loss of property because of any willful or negligent act
9. will ensure that BC Hydro will be acknowledged for its contribution and will be invited to participate in any public announcement or dedication ceremony
10. will allow BC Hydro to publicize the project, as well as providing the opportunity to be involved with any promotion related to the project
11. agrees that the financial obligation and payment schedule is limited to that outlined in the project approval email
12. agrees that BC Hydro's obligation to this project is concluded after a planting event and on payment of funds as outlined in the project approval email

By submitting an application for ReGreening grant funding, the applicant agrees to be bound by the terms and conditions listed above and any other conditions listed as part of the approval.
