## Independent Power Producer (IPP) Supply List - In Development

As of April 1, 2025, BC Hydro has 13 Electricity Purchase Agreements (EPAs) with IPPs whose projects are currently in development. These projects represent approximately 4,886 gigawatt hours of annual supply and approximately 1,669 megawatts of capacity. For information on IPP projects that have an EPA with BC Hydro and have achieved commercial operation, please refer to the IPP Supply List – In Operation document posted to our website.
