Canada Energy Regulator
Suite 210, 517-10th Avenue SW
Calgary, Alberta T2R 0A8

Attention: Clair Kwak

Dear Ms. Kwaki:

**RE: Canada Energy Regulator (CER)
British Columbia Hydro and Power Authority (BC Hydro)
Response to CER Cost Recovery Request for Information for
2021 Estimates**

BC Hydro writes in response to the CER's letter of July 31, 2020 requesting transmission data for international power lines regulated by the CER in order to estimate levies payable for the 2021 calendar year. BC Hydro is the owner of six international power lines authorized by CER Certificates of Public Convenience and Necessity. Volumes expected to be transmitted over these international power lines in 2021, along with the corresponding actual volumes for the 2019 calendar year, are provided in the attached Appendix 1.

The Corporate Information Confirmation sheet is also attached to this correspondence as Appendix 2. The Corporate Information Confirmation sheet is the same as the one included in BC Hydro's filing of August 26, 2019.

For further information, please contact the undersigned.

Yours sincerely,

Fred James
Chief Regulatory Officer

APPENDIX 1

POWER LINE COMPANIES

Company Name: British Columbia Hydro and Power Authority

	Megawatt Hours (MWH)		
	Export Interchange Schedule ^{2,3,4}	Import Interchange Schedule ^{2,3,4}	Total forecast/actual transmission for the year ^{2,3,4}
Forecast of transmissions			
1 January 2021 to 31 December 2021			
(Total for all CER-regulated power lines)^{1,2,3}			
EC-III-4, EC-III-10, EC-III-12	9,834,677	8,894,029	18,728,706
EC-29 – distribution feeder to Puget Sound Energy in Point Roberts, Washington	20,181		20,181
EC-30 – distribution feeder connected to Tongass Power and Light Company in Hyder, Alaska	999		999
EC-51 – distribution feeder from Lincoln Electric Cooperative to BC Hydro’s isolated service area of Newgate, B.C.		751	751
Total	9,855,857	8,894,780	18,750,637
Actual transmissions			
1 January 2019 to 31 December 2019			
(Total for all CER-regulated power lines)^{1,2,3}			
EC-III-4, EC-III-10, EC-III-12	7,290,786	11,179,439	18,470,225
EC-29 – distribution feeder to Puget Sound Energy in Point Roberts, Washington	20,445		20,445
EC-30 – distribution feeder connected to Tongass Power and Light Company in Hyder, Alaska	669		669
EC-51 – distribution feeder from Lincoln Electric Cooperative to BC Hydro’s isolated service area of Newgate, B.C.		711	711
Total	7,311,900	11,180,150	18,492,050

NOTES:

1. Report only transmissions over CER-regulated lines
2. Include volumes transmitted over border accommodation power lines
3. Include wheel-throughs but do not include volumes associated with inadvertent flows, loop flows and reserved transmission capacity
4. Amounts must be reported in the units specified by the Regulations. Please do not use a different metric even if it is equivalent
5. You may provide more detail by month, number of days, etc., at your discretion

The CER requests your cooperation in confirming its database of information relating to international and interprovincial power lines. Please list any changes only to the information which you provided in your submission of August 2019. Please include by number, the certificates of public convenience and necessity, related amending orders and exemption order numbers for the power lines included in the table above.

Regulatory Instrument(s):

1. CPCN No. EC-III-4 amended by Order Nos. MO-11-66, AO-1-EC-III-4, AO-2-EC-III-4, AO-3-III-4 and AO-4-EC-III-4.
2. CPCN No. EC-III-10 amended by Order Nos. MO-44-79, AO-1-EC-III-10, AO-2-EC-III-10 and AO-3-EC-III-10.
3. CPCN No. EC-III-12 amended by Order Nos. AO-1-EC-III-12, AO-2-EC-III-12 and AO-3-EC-III-12.
4. CPCN No. EC-29 amended by Order Nos. MO-2-61 and AO-1-EC-29.
5. CPCN No. EC-30 amended by Order Nos. MO-1-65 and AO-1-EC-30.
6. CPCN No. EC-51 amended by Order Nos. AO-1-EC-51 and AO-002-EC-51.
