We want to hear from you

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY LADORE SPILLWAY SEISMIC UPGRADE PROJECT and STRATHCONA DISCHARGE UPGRADE PROJECT

On June 14, 2023, the British Columbia Hydro and Power Authority (BC Hydro) filed an application with the British Columbia Utilities Commission (BCUC) pursuant to section 44.2(3) of the *Utilities Commission Act* for acceptance of schedules of capital expenditures BC Hydro anticipates making for implementation of the Ladore Spillway Seismic Upgrade Project and the Strathcona Discharge Upgrade Project (together, the Projects) and a determination that the expenditures for the Projects are in the public interest (Application).

The Ladore and Strathcona facilities form part of the Campbell River System, which comprises of dams, reservoirs, and generating facilities located along the Campbell River on Vancouver Island. The purpose of the Projects is to address dam safety deficiencies related to the Ladore and Strathcona facilities' seismic withstand and water discharge capacity that could lead to overtopping and failure of the dams.

The BCUC has established a public hearing process to review the Application. Please visit the [Proceeding webpage](#) on bcuc.com under "Our Work" to learn more.

To participate in the proceeding, visit www.bcuc.com/get-involved.

GET INVOLVED

- Request intervener status
- Submit a letter of comment
