**Attention: Ms. Janet Fraser, Chief Regulatory Officer**

Dear Madam:

**Re: BC Hydro Balancing Area Transmission Service Tariff and Enforcement Mechanism**

Montana Alberta Tie Ltd. c/o Enbridge Inc. (Enbridge MATL) has reviewed the January 10, 2014 letter from the British Columbia Hydro and Power Authority (BC Hydro) regarding the BC Hydro Headroom Tariff Consultation Workshop as well as the BC Hydro OATT – Balancing Area Transmission Service Workshop materials presented at the workshop on January 20, 2014.

Enbridge MATL notes that, although BC Hydro is proposing an accelerated filing schedule for the proposed Headroom Tariff with the British Columbia Utilities Commission (BCUC), this proposal is still in the preliminary discussion stages. Given that a substantial amount of additional information is required in order to adequately evaluate this proposal, Enbridge MATL takes no position on the Balancing Area Transmission Tariff and Enforcement mechanism proposed by BC Hydro at this time.

However, Enbridge MATL remains interested in this issue and respectfully requests to be added to the notification list in relation to this process. Additionally, Enbridge MATL reserves its rights to make further submissions whether in the form of comments or in official regulatory proceedings relating to this matter.

Yours truly,
