**RE: Proposed Change to Counterflow**

Dear Ms. Ambrosi,

BC Hydro posted a bulletin on April 30, 2021 requesting feedback on a proposal to allow for firm counterflow scheduling based on assured deliveries of the Canadian Entitlement. Powerex is supportive of the proposal and encourages BC Hydro to modify its business practices and ATCID to account for firm counterflow attributed to the Canadian Entitlement.

Kind Regards,

Raj Hundal  
Market Policy and Practices Manager
