Terms and Conditions

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

1. INTERPRETATION AND DEFINITIONS**1.1 Interpretation****1.1.1 Conflicts**

To the extent these Terms and Conditions conflict with any applicable Rate Schedule or Electric Tariff Supplement, the terms or conditions provided in such Rate Schedule or Electric Tariff Supplement will prevail. To the extent that an applicable Rate Schedule conflicts with an applicable Electric Tariff Supplement, the terms or conditions provided in the Electric Tariff Supplement will prevail.

1.1.2 Statutes

References to statutes in the Electric Tariff will include the statute and regulations issued pursuant to it, as amended and in force from time to time, and any superseding statute or regulation.

1.1.3 Technical Terms

Technical or industry-specific phrases, units of measure or words not otherwise defined in the Electric Tariff have the well-known meaning given to those terms in the electrical industry.

1.1.4 Including

In the Electric Tariff, the word “including” will in all cases be deemed to mean “including without limitation”, unless otherwise expressly provided.

1.2 Definitions

Unless the context otherwise requires, in the Electric Tariff the following words have the meanings set out below and alternate forms of the same words have corresponding meanings.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

BC Hydro	British Columbia Hydro and Power Authority.
BC Hydro- Owned Street Lighting Service	Service for lighting of public highways, streets, lanes and other similar public applications and displays, or for lighting of private property, where BC Hydro owns, installs and maintains the fixtures, conductors, controls and poles.
Billing Demand	Maximum Demand or, where permitted by the applicable Rate Schedule, estimated Demand, used to determine Demand charges under a Rate Schedule.
Customer	<p>Any Person whose application for Service has been accepted by BC Hydro or, in the absence of such an application, the Person with possession of the Premises to which Service is provided or the Owner or such other Person designated as the Customer pursuant to the Electric Tariff. If a Customer receives Service at more than one Premises, such Customer will be considered a separate Customer for each Premises.</p> <p>BC Hydro will determine the number of Premises for the purpose of this definition.</p>
Customer Crisis Fund	A pilot program established by BC Hydro with the revenue received pursuant to Rate Schedule 1903, for the purpose of providing crisis grants to qualifying Residential Service Customers.
Customer Crisis Fund Grant	A credit issued by, in its discretion, to a qualifying Residential Service Customer in respect of arrears owing to BC Hydro.
Customer Crisis Fund Return	The return of a Customer Crisis Fund Grant that BC Hydro determined should not have been granted.
Customer- Owned Street Lighting Service	Service for lighting of public highways, streets, lanes, traffic signals, traffic signs and other similar public applications and displays where the Customer owns, installs and maintains the fixtures, conductors and controls.

ACCEPTED: June 24, 2018ORDER NO. G-166-17

COMMISSION SECRETARY

Demand	The rate at which electric energy is used in any instant or averaged over any designated period of time, measured in kilowatts (kW) or kilovolt amperes (kVA).
Disconnection	A physical deactivation of a Service Connection, including through removal of Metering Equipment and / or other BC Hydro equipment used to provide Service, regardless of duration.
Dwelling	A building or part of a building comprising private living quarters and containing sleeping quarters, a kitchen and bathroom, and in which the occupants have free access to all rooms, or alternative living quarters acceptable to BC Hydro, and including single-family homes, apartments, townhouses, row-houses and duplexes.
Electric Tariff	These Terms and Conditions, the Rate Schedules and all Electric Tariff Supplements.
Electric Tariff Supplement	A form of agreement for Service entered into by a Customer and BC Hydro pursuant to section 2.2 (Electric Tariff Supplements) of these Terms and Conditions, as filed with the British Columbia Utilities Commission from time to time.
Electricity	Both Demand and Energy or either, as the context requires.
Energy	Electric consumption, measured in kilowatt hours (kWh).
Estimated Construction Cost	The cost estimated by BC Hydro to construct an Extension, a Service Connection or Optional Facilities pursuant to section 8.3 (Extension Fee for Rate Zone I), as the context requires.
Extension	An addition to or an increase in the capacity of BC Hydro's distribution system required to meet new or increased Service requirements, but excluding Service Connections.
Extension Fee	A contribution-in-aid of construction of an Extension, calculated as set out in section 8.3 (Extension Fee for Rate Zone I).
Financing Agreement	An agreement under which BC Hydro provides financing to a Customer for improving the energy efficiency of a Premises.

ACCEPTED: June 24, 2018ORDER NO. G-166-17

COMMISSION SECRETARY

General Service	<p>Service for business, commercial, institutional or industrial use, including use in nursing homes, boarding houses, rooming houses, common areas of multiple occupancy buildings, recreational establishments, marinas and yacht clubs, hotels, motels, mobile home parks and similar establishments or parts thereof, or for any other use not specifically provided for in the Electric Tariff.</p> <p>For greater certainty, General Service is not available for use in circumstances where Transmission Service or Street Lighting Service is available for use, and is available as an alternative to Residential Service only in the circumstances described in section 6.1.3 (General Service Election – Residential Customers) and as an alternative to Irrigation Service only in the circumstances described in section 6.1.4 (General Service Election – Irrigation Customers).</p>
Guarantor	<p>A BC Hydro Customer who agrees to be responsible for another Customer's security deposit amount as required by section 2.6.3 (Security) and who meets BC Hydro's requirements for acting as a Guarantor.</p>
Irrigation Service	<p>Except where General Service is requested pursuant to section 6.1.4 (General Service Election – Irrigation Customers), Service for irrigation and outdoor sprinkling use where associated motor loads are 746 watts (W) or more.</p>
Legacy Meter	<p>An Electricity meter, other than a Smart Meter or a Radio-off Meter, that is of a type in use by BC Hydro.</p>
Maximum Demand	<p>The highest Demand averaged over a time interval of not more than 32 consecutive minutes that is registered during a specified period by a meter with Demand measurement capability.</p>
Metering Equipment	<p>An assembly of metering and ancillary equipment, including one or more Legacy Meters, Radio-off Meters and / or Smart Meters, auxiliary control units, cabling, communication links, range extenders and any other devices owned and used by BC Hydro in connection with metering Electricity for a Premises, providing remote access to the metered data and / or monitoring the condition of the installed equipment, as applicable.</p>

ACCEPTED: June 24, 2018ORDER NO. G-166-17

COMMISSION SECRETARY

Month	A period of from 27 to 33 consecutive days.
Owner	The legal or beneficial owner(s) of a building or Premises or an agent or other authorized representative of such owner(s), such as a property manager, strata corporation or developer, as the context requires.
Permanent Service	Service that is not Temporary Service.
Person	A natural person, partnership, corporation, society, unincorporated entity or body politic.
Point of Delivery	The location at which the Service Connection is connected to the Metering Equipment or the Customer's electrical facilities, whichever comes first.
Power Factor	<p>The ratio determined by the following formula and based on monthly measurements of kilowatt hours (kWh) and lagging kilovolt-ampere reactive hours (kVarh) or at BC Hydro's discretion by random checks from time to time.</p> $\text{Power Factor} = \frac{kWh}{\sqrt{kWh^2 + kVarh^2}}$
Premises	A building, a separate unit of a building, a Dwelling or machinery, together with the surrounding land.
Primary Voltage	A voltage of 750 volts (V) or more measured phase to phase.
Radio-off Meter	A Smart Meter adjusted so that the meter's components that transmit and receive data by radio are deactivated.
Rate Schedule	A schedule that sets out rates for Service and other terms and conditions, as filed with the British Columbia Utilities Commission from time to time.
Rate Zone I	All distribution areas served by BC Hydro within the limits from time to time outlined in Rate Map A included in these Terms and Conditions, as well as the Districts of Kingsgate-Yahk and Lardeau-Shutty Bench.
Rate Zone IB	Bella Bella.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

 COMMISSION SECRETARY

Rate Zone II	Anahim Lake, Atlin, Bella Coola, Dease Lake, Elhateese, Fort Ware, Good Hope Lake, Haida Gwaii, Hartley Bay, Jade City, Telegraph Creek District, Toad River and Tsay Keh Dene.
Residential Service	<p>Except as otherwise provided in section 6.1.3 (General Service Election – Residential Customers), Service for use:</p> <ol style="list-style-type: none"> 1. In Dwellings, including Dwellings where a portion is used to carry on a business; 2. In the common areas of multiple occupancy buildings if such common areas are used only for the common benefit of Dwellings in that building; and 3. At farms, in the circumstances described in section 6.1.2 (Eligibility of Farms for Residential Service).
Secondary Voltage	A voltage of less than 750 volts (V) measured phase to phase.
Service	The provision by BC Hydro of Electricity to a Premises.
Service Agreement	The agreement setting out the rights and responsibilities of BC Hydro and a Customer for Service, including the application for Service accepted by BC Hydro (if any), all applicable provisions of the Terms and Conditions and applicable Rate Schedule(s), and any additional terms and conditions of Service as agreed by BC Hydro and the Customer in an Electric Tariff Supplement or otherwise.
Service Connection	That part of the BC Hydro distribution system extending between a Point of Delivery and the first point of attachment to the rest of the BC Hydro distribution system.
Smart Meter	<p>An Electricity meter that:</p> <ol style="list-style-type: none"> 1. Meets the requirements set out in section 2 of the <i>Smart Meters and Smart Grid Regulation</i>, B.C. Reg. 368/2010, and 2. Has components that transmit data by radio and those components are activated.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

Street Lighting Service	BC Hydro-Owned Street Lighting Service or Customer-Owned Street Lighting Service or both, as the context requires.
System Improvement Costs	The incremental cost of work on BC Hydro's distribution system, including substations, attributed to new or increased Service requirements, as estimated by BC Hydro.
Temporary Service	Service that will or, in BC Hydro's determination, is likely to be taken temporarily.
Termination	Cessation of Service to a Premises under any applicable Rate Schedule(s) or termination of the Service Agreement with a Customer, as the context requires.
Terms and Conditions	These terms and conditions of Service, as filed with the British Columbia Utilities Commission from time to time.
Transformation	The transformation of Primary Voltage to Secondary Voltage, including all associated labour, equipment and materials.
Transmission Service	Service for commercial, industrial and institutional Customers, provided at 60 kilovolts (kV) or more.
Two Months	A period of from 54 to 66 consecutive days.

COMMISSION SECRETARY

2. APPLICATION FOR SERVICE AND SERVICE AGREEMENT

2.1 Application for Service and Service Agreement

A Person requesting new or modified Service must apply to BC Hydro online at www.bchydro.com, by telephone, or in person. Applicants may be required to complete and sign an application and agreement for Service in the form provided by BC Hydro and to provide information and identification acceptable to BC Hydro.

BC Hydro may refuse to accept an application for Service for any of the reasons listed in section 2.4 (BC Hydro Refusal to Provide Service and Termination).

The Service Agreement between a Customer and BC Hydro will comprise, to the extent applicable, the application for Service, as accepted by BC Hydro, the provisions of the Terms and Conditions and Rate Schedules, and any additional terms and conditions of Service agreed by BC Hydro and the Customer in an Electric Tariff Supplement or otherwise.

Customer Crisis Fund Grants and Customer Crisis Fund Returns are deemed to be, for the purpose of section 2.4 (Refusal to Provide Service and Termination by BC Hydro) and section 5.2.1(5) (Regular Billing) of the Electric Tariff, amounts owing to Customers and amounts owing to BC Hydro, respectively, in respect of Service provided by BC Hydro to Customers pursuant to Service Agreements.

2.2 Electric Tariff Supplements

BC Hydro may provide Service under an Electric Tariff Supplement, subject to filing it with the British Columbia Utilities Commission.

2.3 Commencement and Term of Service

Except as otherwise provided in the Service Agreement, a Person becomes a Customer and Service commences when:

1. BC Hydro connects or re-connects the Premises to BC Hydro's electrical system; or
2. The Person's right to possession of the Premises commences,

whichever is later and regardless of whether such Person has completed and signed an application or any contract for Service, and Service will continue until Terminated by BC Hydro or the Customer.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

2.4 Refusal to Provide Service and Termination by BC Hydro

BC Hydro may, without liability of any kind, refuse to provide Service to any Person or may without notice Terminate Service to any Customer (whether by Disconnection or otherwise) who:

1. Fails to pay for Service;
2. Fails to pay an amount due as a result of that Customer acting as a Guarantor for another BC Hydro Customer under section 2.6.3 (Security);
3. Fails to apply for Service or fails to provide information or identification acceptable to BC Hydro when applying for Service or at any subsequent time on request by BC Hydro;
4. Occupies the Premises with another occupant who has an amount outstanding under a Service Agreement or Financing Agreement in respect of the current Premises or another Premises previously occupied by the Person or Customer and such other occupant at the same time;
5. Fails to provide access as required by section 9.3 (Access to Premises);
6. Fails to pay any amount owing under a Financing Agreement; or
7. Otherwise fails to comply with the Service Agreement.

2.5 No Assignment

A Customer may not assign a Service Agreement to another Person.

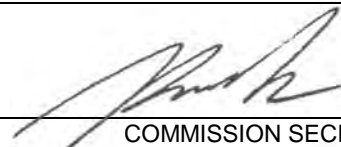

2.6 Security for Payment of Bills**2.6.1 Security for Payment of Bills**

An applicant for Service who has not established credit satisfactory to BC Hydro will be required to:

1. Provide security in accordance with section 2.6.3 (Security), or
2. Participate in Pay As You Go Billing as set out in section 2.6.2 (Pay As You Go Billing), with no security.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

A Customer who has not maintained credit satisfactory to BC Hydro will be required to provide security or to increase the amount of existing security in accordance with section 2.6.3 (Security).

2.6.2 Pay As You Go Billing

Customers participating in Pay As You Go Billing will be billed by BC Hydro at the beginning of each month based either on an estimated average monthly bill or one-twelfth of the estimated annual bill for Service, subject to amendment by BC Hydro from time to time. Pay As You Go bills have the same force and effect as bills based on actual meter readings and must be paid in accordance with section 5.3 (Payment of Bills).

Any Customer participating in Pay As You Go Billing who has paid in full all amounts when due during the immediately preceding year may terminate Pay As You Go Billing and elect any other billing option then available to that Customer under the Service Agreement.

2.6.3 Security

The amount of security required will in each case be determined by BC Hydro in its discretion based on factors such as Energy consumption at the Premises and Customer account and credit history, provided that the security required by BC Hydro will not in any case exceed:

1. If the account is billed monthly, two times the average monthly bill of the Customer or, in the case of an applicant, two times the estimated average monthly bill;
2. If the account is billed bi-monthly, three times the average monthly bill of the Customer or, in the case of an applicant, three times the estimated average monthly bill; or

This security obligation may be satisfied by providing to BC Hydro a security deposit or, for a Customer taking Residential Service, a guarantee from a Guarantor. A security deposit must be in the form of cash or an equivalent form of security acceptable to BC Hydro and a guarantee must be in a form acceptable to BC Hydro.

2.6.4 Application and Return of Security

1. A security deposit may be returned to the Customer, or in the case of a guarantee provided by a Guarantor cancelled, at any time if, according to the records of BC Hydro, the Customer has at all times during the immediately preceding one year period maintained an account with BC Hydro and paid in full all amounts when due in accordance with the Service Agreement.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

2. BC Hydro may apply the whole or any part of the Customer's security deposit and earned interest, if any, toward payment of any amount not paid by the Customer to BC Hydro on the due date shown on the bill. No application of the security deposit under this section will restrict BC Hydro's right to Terminate Service for the Customer's failure to pay for Service. The Customer will promptly replenish the security deposit upon request by BC Hydro.
3. A cash security deposit and interest, if any, may be applied by BC Hydro in whole or in part toward payment of the final bill of the Customer on the billing date of the final bill.
4. A security deposit in a form other than cash may be applied by BC Hydro in whole or in part toward payment of the final bill of the Customer if all amounts owing are not paid on the due date shown on the bill.
5. If a Customer's account is closed and a guarantee has been provided, BC Hydro may transfer to the Guarantor's account any outstanding balance, up to the maximum amounts specified in section 2.6.3 (Security), within one year of the date on which the account was closed.
6. Any part of a security deposit, including interest, if any, on a cash security deposit, that has not been applied in accordance with this section will be refunded or returned to the Customer.
7. BC Hydro will pay interest on cash security deposits at a rate equal to BC Hydro's weighted average cost of debt, calculated for BC Hydro's most recent fiscal year.
8. Payment of interest on a cash security deposit held by BC Hydro will be made in the form of a credit to the Customer's account each time the account is billed or added to the amount of the cash deposit when a refund is made as provided in paragraph 5 above.
9. BC Hydro will not pay interest on security deposits held by it in a form other than cash.
10. No interest will accrue on any security deposit after the billing date of the final bill for the account secured by the deposit.

2.7 Termination of Service by Customer

Except as otherwise provided in the Service Agreement, a Customer may Terminate Service by giving to BC Hydro at least 24 hours' notice. The Customer continues to be subject to all

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

applicable terms and conditions of the Service Agreement, including the obligation to pay for all Electricity provided to the Premises and all damage to and loss of wires, Metering Equipment or other apparatus of BC Hydro until the Termination date specified in the notice or 24 hours after BC Hydro receives such notice, whichever is later.

In cases where the Customer is a tenant and fails to provide notice of Termination in accordance with this section, the Owner will, pursuant to section 2.3 (Commencement and Term of Service) but subject to the terms of any rental premises agreement in effect pursuant to section 9.2 (Rental Premises Agreements), become the new Customer for the Premises on the day that its right to possession of the Premises commences and therefore assume responsibility for payment of Electricity used on the Premises from that date.

2.8 No Release of Customer Obligations

No Termination of Service will release a Customer from any previously existing obligations to BC Hydro under a Service Agreement or Financing Agreement or any other agreement with BC Hydro.

2.9 Customer Request for Disconnection

Upon receipt of a Customer request, BC Hydro will Disconnect the Customer's Premises. The Customer will be responsible to pay for all Electricity used at the Premises until Disconnection in accordance with this section, unless Service is earlier Terminated by either the Customer or BC Hydro.

2.10 Re-Application for Service

Where a Customer Terminates Service to a Premises and that Person, or a co-occupant, representative or agent of that Person, applies for Service to the same Premises within 12 months of such Termination on the same Rate Schedule as previously applied, and regardless of whether Disconnection occurred, the applicant will pay the sum of:

1. The greater of the Minimum Reconnection Charge, as set out in section 11.3 (Minimum Reconnection Charges), or BC Hydro's estimated cost to restore Service; and
2. The sum of the minimum charges the Customer would have paid between the time of Termination and the time that Service is restored, under this section.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

3. PROVISION OF ELECTRICITY**3.1 New and Replacement Service Connections**

BC Hydro will provide an overhead or underground Service Connection for a Premises, subject to and in accordance with BC Hydro's current distribution system development plans, distribution standards and applicable laws and regulations in each case. BC Hydro may from time to time remove and replace any Service Connection as necessary to ensure compliance with BC Hydro's distribution system development plans, distribution standards and applicable laws and regulations.

3.2 Number of Service Connections

BC Hydro will serve each private property parcel of land with one Service Connection, except where BC Hydro and the appropriate inspection authority consent otherwise. The Customer will in each case pay the applicable Service Connection charge as set out in section 3.14 (Service Connection Charges).

3.3 Premises Previously Connected

If a Premises is connected to BC Hydro's distribution system at the time when the application for Service is made, no new Service Connection will be required and the applicant will pay an Account Charge as set out in section 6.5 (Account Charge).

3.4 Premises Not Previously Connected

If a Premises is not connected to BC Hydro's distribution system at the time when the application for Service is made, a Service Connection, Metering Equipment and possibly an Extension will be required and the applicant will pay BC Hydro the amount set out under section 3.14 (Service Connection Charges) and, where applicable, the Extension Fee, provided that no Metering Equipment will be required in cases where BC Hydro permits unmetered Service.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

3.5 Temporary Service

For Temporary Service, the applicant must pay to BC Hydro in advance of construction all costs BC Hydro estimates it will incur to install and remove the facilities necessary to provide Temporary Service. The facilities will include the Extension, Service Connection and transformers of BC Hydro, and the costs will include charges for labour, administration and depreciation on materials as determined by BC Hydro from time to time.

3.6 Service Voltage and Number of Phases

BC Hydro will determine the Service voltage and the number of phases of each Service Connection.

3.7 Civil Work and Structures on Private Property

A Customer will provide, own and maintain, at the cost of the Customer, all civil work and structures required for underground Service Connections on private property including ducts, foundations, pads and switch gear and other equipment rooms, all as required for compliance with BC Hydro distribution and environmental standards.

3.8 Electrical Facilities on Private Property

Customer's electrical facilities intended to be installed at Primary Voltage will be of a type or characteristic, and operated in a manner, acceptable to BC Hydro.

BC Hydro is not responsible for electrical facilities, including wiring, poles and equipment, on the Customer's side of the Point of Delivery, except that BC Hydro will maintain its Metering Equipment and transformers (if any) located on the Customer's side of the Point of Delivery.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

3.9 Primary Loop Service Connection

Where an underground Service Connection at Primary Voltage is provided and Customer-supplied equipment provides three-way switching on BC Hydro's distribution feeder, the Point of Delivery will be the source terminals on the Customer's switch which may be used by the Customer to interrupt only the Customer's load. BC Hydro will assume ownership, operation and maintenance of the two primary load break switches located on BC Hydro's side of the Point of Delivery in the primary entrance equipment originally supplied by the Customer. These two switches may be used only by BC Hydro to interrupt other Customers on that loop service.

3.10 Care of BC Hydro Equipment

The Customer will take reasonable care of and protect all meters and apparatus belonging to BC Hydro on the Customer's Premises, and will pay to BC Hydro the cost of any BC Hydro meters or apparatus broken, missing or damaged except to the extent that the Customer can show that the meter or apparatus was broken, missing or damaged due to an inherent defect or to any act or omission of BC Hydro's representatives or agents.

All meters, wires or other apparatus furnished by BC Hydro remain the property of BC Hydro and must not be moved or removed from the Premises without BC Hydro's advance written permission.

3.11 Service Upgrades**3.11.1 Service Connection Upgrades**

Prior to BC Hydro upgrading the load capability of a Service Connection at the Customer's request, the Customer will pay BC Hydro the applicable fee as set out in section 3.14 (Service Connection Charges).

3.11.2 Transformer Upgrades

A transformer upgrade, whether the transformer is owned by BC Hydro or the Customer, may require additional work that constitutes a new Extension. In those cases, and prior to BC Hydro upgrading the transformer at the Customer's request, the Customer will pay BC Hydro the applicable Extension Fee (if any) pursuant to section 8 (Distribution Extensions – 35 kV or Less).

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

3.11.3 Upgrades Must Comply with Standards

BC Hydro will not make any upgrade, modification or alteration to a Service Connection or any transformer except as permitted by and in accordance with the applicable provisions of the Electric Tariff and BC Hydro's distribution system development plans, distribution standards and applicable laws and regulations.

3.12 Transformation on Private Property (All Rate Zones)

1. If Service is at Secondary Voltage, BC Hydro will provide Transformation.
2. If Service is at Primary Voltage, the applicant will supply Transformation, except that:
 - (a) If the applicant requests, BC Hydro will supply Primary Voltage to Secondary Voltage transformers, provided the transformers are single phase, oil-filled with a capacity of not more than 167 kVA; and
 - (b) BC Hydro may, if it has suitable transformers available, agree to rent transformers to the applicant for the Transformer Rental Charge set out in section 11.4 (Miscellaneous Standard Charges).
3. BC Hydro will operate and maintain its transformers on private property.

3.13 Connection and Disconnection Work

Connections to or Disconnections from BC Hydro's electrical system will only be made by individuals authorized by BC Hydro except where the connection or Disconnection is made by a Customer-owned switching device on the Customer's side of the Point of Delivery.

3.14 Service Connection Charges

For each Service Connection installed in Rate Zone I, the Customer will pay to BC Hydro the applicable charges set out in section 11.1 (Minimum Connection Charges – Rate Zone I) and section 11.2 (Additional Meter Charges).

For all other Service Connections, the Customer will pay to BC Hydro the Estimated Construction Cost which will include the cost of installation of one meter per Service Connection.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

4. METERING

4.1 Meter Installation

The provision of Electricity by BC Hydro will be metered at Secondary Voltage except where BC Hydro otherwise determines. The installation cost of the first meter is included in the Service Connection charge. Any additional meters required will be installed for a standard charge in accordance with section 11.2 (Additional Meter Charges).

4.2 Meter Equipment and Location

To determine for billing purposes the quantity of Electricity used by the Customer, BC Hydro will select and install Metering Equipment for the Premises at a location most convenient to BC Hydro for each separate Rate Schedule under which the Customer takes Service. At the request of a Customer receiving multiple Residential or General Service, BC Hydro may agree to install for billing purposes more than one meter for the Customer's Premises (including Demand measurement capability where required) for each separate Rate Schedule under which the Customer takes Service and in such cases the Customer will be billed separately for Electricity consumption and, where appropriate, associated Demand registered on each such meter. The Customer will provide wiring, fittings, structures and poles satisfactory to BC Hydro and in accordance with any applicable electrical code, civic by-law or other law or regulation, for the installation of each meter. BC Hydro may install for the Customer's Premises any meter or apparatus that it may need for its use or convenience.

4.2.1 Meter Types

BC Hydro's standard meter for measuring Energy consumption and (if applicable) Demand at a Customer's Premises is the Smart Meter. Except as set out in section 4.2.2 (Conditions for Retention or Installation of Legacy Meters and Radio-off Meters), in all cases BC Hydro will install a Smart Meter at Customer Premises.

Notwithstanding the preceding paragraph, but subject to the conditions specified in section 4.2.2 being satisfied in each case, BC Hydro will permit to remain in operation, install, replace, maintain and service Legacy Meters and Radio-off Meters at a Residential Service Customer's Premises for the periods specified in sections 4.2.3 (Periods during which Legacy Meters May Remain in Place) and 4.2.4 (Periods during which Radio-off Meters May Remain in Place).

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

4.2.2 Conditions for Retention or Installation of Legacy Meters and Radio-off Meters

The conditions that must be satisfied for BC Hydro to permit to remain in operation, install, replace, maintain and service Legacy Meters or Radio-off Meters at a Residential Service Customer's Premises are:

1. The Customer is, as of the date of the Customer's election in accordance with paragraph 3 or deemed election in accordance with paragraph 4, taking Residential Service at the Customer's Premises; and
2. BC Hydro had not, before the date of the Customer's election in accordance with paragraph 3 or deemed election in accordance with paragraph 4, installed a Smart Meter at the Customer's Premises, but rather a Legacy Meter remained in place at those Premises as of the date of the Customer's election or deemed election; and
3. The Customer, during the period beginning September 1, 2013 and ending December 1, 2013, by notice to BC Hydro, elects to retain the Legacy Meter then in place at the Customer's Premises, or to have a Radio-off Meter installed in place of the Legacy Meter; or
4. The Customer, despite satisfaction of the conditions set out in paragraphs 1 and 2 has failed to provide notice of election to BC Hydro in accordance with paragraph 3, in which case the Customer will be deemed to have elected effective December 1, 2013 to retain the existing Legacy Meter at the Customer's Premises and the Customer will thereafter pay the charges for having a Legacy Meter installed at the Customer's Premises as set out in section 11.4 (Miscellaneous Standard Charges).

4.2.3 Periods during which Legacy Meters May Remain in Place

If the conditions set out in section 4.2.2 (Conditions for Retention or Installation of Legacy Meters and Radio-off Meters) have been satisfied, Residential Service Customers who have satisfied the conditions in section 4.2.2 and who have elected, or are deemed to have elected, to retain a Legacy Meter at the Customer's Premises may continue to have their Electricity consumption measured by the Legacy Meter for the periods, and subject to the conditions, specified below:

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

1. A Customer who has elected, or is deemed to have elected, to retain a Legacy Meter can continue to retain the Legacy Meter until the seal of the meter expires, or the meter ceases to function properly, whichever comes first.
2. If the seal of a Legacy Meter expires, or the meter ceases to function properly before the seal expiry date, BC Hydro will, so long as it has a suitable Legacy Meter in its meter inventory available for installation, install a replacement Legacy Meter at the Customer's Premises. A Customer for whom a replacement Legacy Meter has been installed in accordance with the preceding sentence can continue to retain the replacement Legacy Meter for the period specified in paragraph 1, and any replacement Legacy Meter so installed will be subject to replacement in accordance with this paragraph 2 as the occasion arises. For the purposes of this section, BC Hydro will only be deemed to have suitable replacement Legacy Meters in its meter inventory if it has existing verified and sealed Legacy Meters in its meter inventory as of the date that a Legacy Meter in place at a Customer's Premises requires replacement, and BC Hydro is under no obligation to repair, rebuild or modify, or re-verify and re-seal, any Legacy Meters that have been removed from service for any reason, nor to purchase or otherwise acquire from any source any Legacy Meters in replenishment of its Legacy Meter inventory.
3. In any case where the seal of a Legacy Meter expires, or the meter ceases to function properly, and BC Hydro does not have a suitable Legacy Meter in its meter inventory available for installation, BC Hydro will install either a Smart Meter or a Radio-off Meter at the Customer's Premises, at the Customer's election. A Customer with a Legacy Meter installed at the Customer's Premises can also elect to have a Smart Meter or a Radio-off Meter installed in place of the Legacy Meter at any time. A Customer who elects to have a Smart Meter or a Radio-off Meter installed at the Customer's Premises cannot later change back to a Legacy Meter at the applicable Premises.
4. A Customer with a Legacy Meter in place at the Customer's Premises who moves to another Premises for which the Customer is eligible to take Residential Service, can elect to have a Smart Meter or Radio-off Meter installed at the new Premises, but cannot retain or have installed a Legacy Meter at the new Premises. Except where a Customer who is eligible to elect to have either a Smart Meter or a Radio-off Meter installed in a new Premises moves into the vacated Premises and elects to have a Radio-off Meter installed, the vacated Premises will in all cases have a Smart Meter installed.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

5. A Customer with a Legacy Meter in place whose Service is Terminated for any reason whatsoever ceases to be eligible to retain a Legacy Meter, and if that Customer again takes Residential Service at the same or another Premises the Customer can elect to have either a Smart Meter or a Radio-off Meter installed upon resumption of Service.
6. In any case where a Customer ceases to be eligible to have a Legacy Meter installed at the Customer's Premises, or BC Hydro no longer has suitable Legacy Meters available for installation at the Customer's Premises, and the Customer is required to elect to have either a Radio-off Meter or a Smart Meter installed instead, but the Customer refuses or fails to make an election within 10 days after BC Hydro has delivered written notice to the Customer's Premises notifying the Customer that he or she must elect either a Radio-off Meter or a Smart Meter, the Customer will be deemed to have elected to have a Radio-off Meter installed and the Customer will pay the charges for having a Radio-off Meter installed at the Customer's Premises as set out in section 11.4 (Miscellaneous Standard Charges) from the date of BC Hydro's installation of the replacement Radio-off Meter.

4.2.4 Periods during which Radio-off Meters May Remain in Place

If the conditions set out in section 4.2.2 (Conditions for Retention or Installation of Legacy Meters and Radio-off Meters) have been satisfied, Residential Service Customers who have satisfied the conditions in section 4.2.2 and who have elected, or are deemed to have elected, to have a Radio-off Meter installed may continue to have their Electricity consumption measured by the Radio-off Meter for the periods, and subject to the conditions, specified below.

1. A Customer who has elected, or is deemed to have elected, to have a Radio-off Meter installed can continue to retain the Radio-off Meter, and have a replacement Radio-off Meter installed from time to time as necessary, for so long as the Customer continues to take Residential Service at the Customer's Premises.
2. A Customer with a Radio-off Meter in place at the Customer's Premises who moves to another Premises for which the Customer is eligible to take Residential Service, may elect to have a Smart Meter or a Radio-off Meter installed at the new Premises. Except where a Customer who is eligible to have either a Smart Meter or a Radio-off Meter installed in a new Premises moves into the vacated Premises and elects to have a Radio-off Meter installed, the vacated Premises will in all cases have a Smart Meter installed.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

3. A Customer with a Radio-off Meter in place whose Service is Terminated for any reason whatsoever, but who again takes Residential Service at the same or another Premises may elect to have either a Smart Meter or a Radio-off Meter installed upon resumption of Service.

4.2.5 Legacy Meter and Radio-off Meter Charges

A Customer whose Electricity consumption is metered by a Legacy Meter or a Radio-off Meter in accordance with this section 4, will pay the applicable meter charges set out in section 11.4 (Miscellaneous Standard Charges).

If a Customer whose Electricity consumption is metered by a Radio-off Meter moves to a different Premises or elects to have a Smart Meter installed in place of the Radio-off Meter, the Customer will pay the Radio-off Meter Removal Charge set out in section 11.4 (Miscellaneous Standard Charges).

4.3 Meter Testing

Any Customer who doubts the accuracy of the meter measuring Electricity used by the Customer may have the meter tested pursuant to the *Electricity and Gas Inspection Act (Canada)*. Applications for such tests should be made to the nearest Measurement Canada office.

When a meter is tested pursuant to this section and determined to be accurate within the limits prescribed by the *Electricity and Gas Inspection Act (Canada)*, the Customer will pay the Meter Test Charge as set out in section 11.4 (Miscellaneous Standard Charges). If the meter test discloses that the meter is registering with an error greater than that permitted under the *Electricity and Gas Inspection Act, (Canada)*, no Meter Test Charge will apply.

BC Hydro is not permitted to verify the accuracy of meters. BC Hydro may, however, conduct tests for its own information from time to time.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

4.4 Metering of Multiple Occupancy Buildings**4.4.1 Multiple Occupancy Buildings - Residential Units**

If a building contains more than one unit, including one or more Dwelling, the Owner of the building may determine in respect of the unit(s) that are Dwellings that:

1. All Dwellings in the building will receive Service through a single meter; or
2. Each Dwelling will receive Service through a separate meter.

4.4.2 Multiple Occupancy Buildings - Non-Residential Units

If a building contains more than one unit, including one or more commercial or common use unit, each commercial, common use or other unit in the building that is not a Dwelling will be metered separately, except:

1. To the extent that BC Hydro considers it impractical to do so; or
2. Where the Point of Delivery is at a Primary Voltage, and the Owner elects for the building to be served through one meter.

Examples of situations where BC Hydro considers separate metering of multiple occupancy building units that are not Dwellings to be impractical include:

1. Where building occupancy is transient in nature, and
2. Where the design of the building renders it impractical to meter Electricity use on a unit by unit basis, such as:
 - (a) An office building with shared common space;
 - (b) A hotel with one large load unit and several small load units; and
 - (c) A building that easily permits amalgamation and division of individual units, such as a shopping centre or warehouse.

In all cases where multiple occupancy buildings are served through a single meter, the Customer must comply with the provisions of section 9.1 (Resale of Electricity) and the *Utilities Commission Act* related to the resale of Electricity.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

5. METER READING AND BILLING**5.1 Meter Reading**

The interval between consecutive meter readings will be at the sole discretion of BC Hydro.

Where the Rate Schedule under which the Customer takes Service does not require measurement of the Customer's Demand, the meter will normally be read once every two months; otherwise meters will normally be read once per month.

5.2 Billing**5.2.1 Regular Billing**

Bills will be rendered on the basis of actual Energy consumed and, where applicable, Demand, as registered by a meter or meters and in accordance with the Rate Schedule under which the Customer takes Service, except:

1. Where the Service is not metered;
2. To the extent that section 6.3 (Late Payment Charge) applies;
3. Where the bill is being rendered in accordance with section 2.6.2 (Pay As You Go Billing), or section 5.6 (Monthly Equal Payments);
4. Where section 5.2.2 (Change in Rate Schedule) applies; or
5. Where a Customer Crisis Fund Grant has been issued, or a Customer Crisis Fund Return has been requested, by BC Hydro.

If meter readings cannot be obtained for any reason, including where the meter fails to register or registers incorrectly, the Demand or Energy consumption or both may be estimated by BC Hydro for billing purposes and the next bill for which actual meter readings are available will be adjusted for the difference between estimated and actual use over the interval between meter readings. Estimated bills are deemed to have the same force and effect under the Electric Tariff as bills that are based on actual meter readings.

If meters are read at longer or shorter intervals than the period set out in the Rate Schedule under which the Customer takes Service, the minimum charge, the service charge, the

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

number of kilowatt hours in each step and, if applicable, the Demand charge set out in such Rate Schedule will be prorated before the bill is calculated based on a 365-day year.

5.2.2 Change in Rate Schedule

In circumstances where a Rate Schedule is changed and the effective date of the change falls between the dates of two successive meter readings, BC Hydro will render a bill determined upon a prorated basis.

5.3 Payment of Bills

Bills will be rendered as often as deemed necessary by BC Hydro. The amount payable as shown on a bill is owed to BC Hydro on the billing date. To avoid a Late Payment Charge under section 6.3 (Late Payment Charge), the amount payable must be paid in full on or before the due date shown on the bill, which will be:

1. The first business day after the 21st calendar day following the billing date; or
2. Such other period as may be defined in an Electric Tariff Supplement or otherwise agreed by the Customer and BC Hydro.

Bills may be paid by any payment method set out at www.bchydro.com/payments. Information on bill payment options can also be obtained by contacting the customer service department of BC Hydro.

5.4 Billing of Fractional Demand

A Billing Demand that includes a fraction will be deemed to be the nearest whole unit of Demand below that fraction.

The minimum Billing Demand will, except where the context otherwise requires, be deemed to be 1 kW or 1 kVA, whichever is applicable.

5.5 Waiver of Minimum Charges

Where the Owner of a motel or mobile home park is the Residential Service Customer for any separately metered unit of accommodation in the motel or mobile home park, whether pursuant to BC Hydro requirements or otherwise, and if no Electricity is consumed in such unit during an interval between meter readings, the minimum charge otherwise applicable to such interval will be waived.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

In multi-unit residential buildings where separate meters for the units are installed during construction of the building, minimum charges will apply only after Service to the relevant unit is energized.

5.6 Monthly Equal Payments

On application by a Customer, BC Hydro will, provided the Customer's credit is established to the satisfaction of BC Hydro, permit the Customer to pay fixed monthly installments on account of Electricity consumed by the Customer during all or any part of a 12-month period commencing with an actual meter reading at the Customer's Premises (the Budget Period). Monthly installments will be fixed so that the sum of the installments to be paid during the Budget Period equals the amount BC Hydro estimates will be payable under the applicable Rate Schedule for Electricity consumed during the Budget Period. BC Hydro may at any time revise its estimate of a Customer's consumption and increase or decrease the amount of monthly installments payable by the Customer accordingly.

Payment of monthly installments pursuant to this section may be terminated by the Customer at any time by giving five days' notice of termination to BC Hydro, or by BC Hydro without notice if the Customer has not maintained credit to the satisfaction of BC Hydro.

At the end of each Budget Period or upon its earlier termination the amount payable by the Customer to BC Hydro for Electricity actually used during the Budget Period will be compared against the sum of the monthly installments paid by the Customer during that period, and any deficit will be paid by the Customer to BC Hydro, and any excess will be paid or credited by BC Hydro to the Customer on the next bill.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

5.7 Back-Billing

Pursuant to the *Utilities Commission Act*, this Electric Tariff constitutes the consent of the British Columbia Utilities Commission to allow BC Hydro, in the circumstances herein specified, to charge, demand, collect and receive from its Customers in respect of a regulated service rendered a greater or lesser compensation than that specified in the Terms and Conditions or applicable Rate Schedules.

1. Back-billing means the re-billing by BC Hydro for services rendered to a Customer because the original billings were discovered to be either too high (over-billed) or too low (under-billed). The discovery may be made by either the Customer or BC Hydro, including as a result of an inspection under the *Electricity and Gas Inspection Act (Canada)*. The cause of the billing error may include any one or more of the following non-exhaustive reasons:
 - (a) Stopped meter
 - (b) Metering Equipment failure
 - (c) Missing meter now found
 - (d) Switched meters
 - (e) Double metering
 - (f) Incorrect meter connections
 - (g) Incorrect use of any prescribed apparatus respecting the registration of a meter
 - (h) Incorrect meter multiplier
 - (i) Application of an incorrect rate
 - (j) Incorrect reading of meters or data processing, and
 - (k) Tampering, fraud, theft or any other criminal act.
2. Whenever the dispute procedure of the *Electricity and Gas Inspection Act (Canada)* is invoked, the provisions of that Act will apply, except insofar as they purport to determine the nature or extent of legal liability flowing from metering or billing errors.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

3. Where metering or billing errors occur and the dispute procedure under the *Electricity and Gas Inspection Act (Canada)* is not invoked, Energy consumption and Demand for billing purposes will be determined based on the records of BC Hydro or, to the extent they are available and accurate, the records of the Customer, or if no such records are available, based on BC Hydro's reasonable and fair estimates made consistently within each Customer class or according to the agreement for Service with the Customer, if applicable.
4. In every case of under-billing or over-billing, the cause of the error will be remedied without delay, and the Customer will be promptly notified of the error and of the effect upon the Customer's ongoing bill.
5. The provisions of paragraph 7 below do not apply and, subject to the applicable limitation period provided by law, back-billing may be applied for the whole period of under-billing or over-billing if:
 - (a) There are reasonable grounds to believe that the Customer has tampered with or otherwise used BC Hydro's Service in an unauthorized way, or evidence of fraud, theft or another criminal act exists, or if a reasonable Customer should have known of an under-billing and failed to promptly bring it to the attention of BC Hydro; or
 - (b) The required adjustment to the Customer's bill is minor, such as in the case of an estimated bill under section 5.2.1 (Regular Billing) or section 5.6 (Monthly Equal Payments); or
 - (c) The required adjustment to the Customer's bill relates to the under-billing or over-billing of a standard charge set out in section 11 (Schedule Standard Charges), except Legacy Meter Charges and Radio-off Meter Charges under section 11.4 (Miscellaneous Standard Charges).

In addition, the Customer is liable for the direct (unburdened) administrative costs incurred by BC Hydro in the investigation of any incident of tampering, unauthorized use or criminal activity, including the direct costs of repair and replacement of equipment.

Under-billing resulting from circumstances described in this paragraph 5 will bear interest at the rate normally charged by BC Hydro on unpaid accounts from the date of the original under-billed invoice until the amount under-billed is paid in full.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

-
6. In every case of over-billing, BC Hydro will refund to the Customer all money incorrectly collected for the duration of the error, except that if the date the error first occurred cannot be determined with reasonable certainty, the maximum refund period will be two years back from the date the error was discovered. Interest will be paid to the Customer at a rate equal to BC Hydro's weighted average cost of debt, calculated for BC Hydro's most recent fiscal year.
7. Subject to paragraph 5 above, in every case of under-billing, BC Hydro will back-bill the Customer for the duration of the error up to a maximum of:
- (a) Six months for Residential Service, small General Service (commercial) or Irrigation Service Customers; and
 - (b) One year for all other Customers or such other time period as is set out in a special or individually negotiated contract with BC Hydro.

BC Hydro will offer under-billed Customers reasonable terms of payment for the under-billed amount; if requested by the Customer, the payment term will be equivalent in length to the back-billing period. All under-billed amounts will be interest free and be billed and paid in equal installments corresponding to the normal billing cycle. Delinquency in payment of such installments will, however, be subject to the usual Late Payment Charges pursuant to section 6.3 (Late Payment Charge).

If a Customer disputes BC Hydro's assessment of an under-billed amount based on Energy consumption or Demand or duration of the error, BC Hydro will not threaten or cause Termination as a result of Customer's failure to pay the disputed portion of the back-billing, unless there are no reasonable grounds for the Customer to dispute same. The undisputed portion of the bill will be paid by the Customer and BC Hydro may threaten or cause Termination if such undisputed portion of the bill is not paid.

8. Subject to paragraph 5 above, in all instances of back-billing where changes of occupancy have occurred, BC Hydro will make a reasonable attempt to locate the former Customer. If, after a period of one year, such Customer cannot be located, the over- or under-billing applicable to that Customer will be cancelled.

ACCEPTED: June 24, 2018

ORDER NO. G-166-17

COMMISSION SECRETARY

6. RATES AND CHARGES**6.1 Rates****6.1.1 Application of Rate Schedules**

The rates to be charged by and paid to BC Hydro for Service will be the rates set out in the Rate Schedules from time to time in effect or elsewhere in the Electric Tariff, available at www.bchydro.com or upon request.

Customers may be served under any Rate Schedule for which they meet the applicability criteria. BC Hydro will endeavour to provide the Customer with information and advice regarding rates available to the Customer from time to time, but will not be responsible if the most favourable rate is not selected.

BC Hydro may conduct periodic reviews of a Customer's account and, where the Customer no longer meets the applicability criteria of a particular Rate Schedule, change the Customer to the appropriate Rate Schedule.

The Customer may also apply at any time to be billed on a different Rate Schedule and BC Hydro may, in its sole discretion, reject, defer or approve such application. BC Hydro will not approve a Customer request to move to another Rate Schedule where:

1. The Customer was billed under such Rate Schedule at any time during the preceding 12-month period; or
2. Such Rate Schedule is, in the opinion of BC Hydro, not available to the Customer.

6.1.2 Eligibility of Farms for Residential Service

Residential Service is available for use at farms, except:

1. Lodging on a farm that is not a Dwelling;
2. For use in the processing of farm products produced elsewhere;
3. For use in selling farm or other products to the general public, other than from a small roadside stand; or
4. For use for any commercial operation not ordinarily conducted on a farm.

ACCEPTED: March 16, 2017

6.1.3 General Service Election – Residential Customers

General Service is available as an alternative to Residential Service only where (i) the Customer or applicant for Service (as applicable) is eligible for Residential Service but requests General Service, and (ii) the Service will be used:

1. In a Dwelling, a portion of which is used to carry on a business, where Billing Demand and Energy consumption at the Premises meet the availability requirements of Medium General Service or Large General Service; or
2. At a farm, where the Billing Demand and Energy consumption at the Premises meet the availability requirements of Medium General Service or Large General Service; or
3. In the common areas of multiple occupancy buildings if such common areas are used only for the common benefit of Dwellings in that building.

6.1.4 General Service Election – Irrigation Customers

General Service is available as an alternative to Irrigation Service only where the Customer or applicant for Service (as applicable) is eligible for Irrigation Service but requests General Service.

6.2 Use of Electricity

A Customer will use Electricity only for the purposes permitted under the availability clause of the Rate Schedule under which the Customer takes Service.

6.3 Late Payment Charge

If the amount payable shown on a bill is not paid in accordance with section 5.3 (Payment of Bills), and if the unpaid balance is \$30 or more, the subsequent bill will, in addition to the overdue amount, include a Late Payment Charge calculated from the billing date as set out in section 11.4 (Miscellaneous Standard Charges). To allow time for payments made to BC Hydro to reach BC Hydro's payment processing centre and to coordinate the billing of Late Payment Charges with scheduled billing cycles, BC Hydro may, in its discretion, waive Late Payment Charges.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

6.4 Returned Payment Charge

If a cheque received by BC Hydro from a Customer or a pre-authorized payment deduction or electronic funds transfer in payment of any account or Financing Agreement amount is returned or stopped by the Customer's bank, trust company or financial institution because of insufficient funds, or any reason other than clerical error, a Returned Payment Charge, as set out in section 11.4 (Miscellaneous Standard Charges), for processing each failed payment will be added to the amount due and payable by the Customer whether or not the Service has been Disconnected.

6.5 Account Charge

When a change of Customer on an account for a Premises occurs an Account Charge as set out in section 11.4 (Miscellaneous Standard Charges) will be paid by the new Customer with respect to each account in that Customer's name for which a separate bill is rendered by BC Hydro, except that:

1. If the new Customer is, or was, the spouse of the former Customer, no such Account Charge will apply; and
2. If the new Customer is the Owner of a multi-tenant building, an Account Charge will apply only the first time a particular Dwelling account in the building is changed to the name of such Owner.

6.6 Call-Back Charges**6.6.1 Service Connection Call-Back Charge**

A Service Connection Call-Back Charge, as set out in section 11.4 (Miscellaneous Standard Charges), will be paid by the Customer each time a BC Hydro representative attends the Customer's Premises to install a new Service Connection at the request of the Customer and is unable to complete the work because the facilities required to be provided by the Customer, for the purpose of the Service Connection are deficient.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

6.6.2 Failed Installation Charge

A Failed Installation Charge, as set out in section 11.4 (Miscellaneous Standard Charges), will be paid by the Customer each time a BC Hydro representative attends the Customer's Premises to install Metering Equipment but is unable to complete the work because of an obstruction or an objection made by the Customer.

6.7 Minimum Reconnection Charge

A Customer will pay a Minimum Reconnection Charge, as set out in section 11.3 (Minimum Reconnection Charges), when Service is reconnected to a Premises previously Disconnected for the following reasons, and where all Metering Equipment and other BC Hydro equipment used to provide Service remains in place:

1. To permit the Customer to make alterations to or on private property;
2. Because BC Hydro was ordered to Disconnect by the appropriate inspection authority;
or
3. Where Service was Disconnected for any reason set out in section 2.4 (Refusal to Provide Service and Termination by BC Hydro).

BC Hydro may add to the Minimum Reconnection Charges set out in section 11.3 (Minimum Reconnection Charges), an amount to cover the costs incurred by BC Hydro when there are unusual circumstances.

A Customer will not be required to pay a Minimum Reconnection Charge under section 11.3 (Minimum Reconnection Charges) when the Disconnection was made:

1. For reasons of public safety, unless attributable to actions of the Customer;
2. By BC Hydro because no application for Service had been received in respect of such Service; or
3. For service requirements of BC Hydro.

6.8 Taxes and Levies

The rates and charges set out in the Electric Tariff do not include the goods and services tax (**GST**), the provincial services tax (**PST**) or any other tax or levy which BC Hydro may be lawfully authorized or required to add to its normal rates and charges.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

7. LOAD CHANGES AND OPERATION**7.1 Increases in Electrical Load**

A Customer will not increase the electrical load at the Customer's Premises by more than 15 kW or 20%, whichever is greater, or such that the aggregate load exceeds 80% of the rated capacity of the Customer's main switch, except to the extent that BC Hydro may otherwise approve in advance.

7.2 Power Factor Requirements**7.2.1 Lighting**

All new installations or connections of neon, mercury vapour, sodium vapour, fluorescent, or other types of lamps, lighting devices or display facilities to be powered by Electricity provided by BC Hydro must, at the Customer's expense, be equipped with high Power Factor ballasts or auxiliaries designed and installed to the satisfaction of BC Hydro to ensure that a lagging Power Factor of not less than 90% is maintained at the Premises.

7.2.2 Requirements for Lagging Power Factor

Each Customer must maintain an average lagging Power Factor of at least 90% at the Customer's Premises. It is the Customer's sole responsibility to monitor and test the Power Factor and implement corrective action as required to ensure compliance with this section. BC Hydro may, in its discretion, test the Customer's Power Factor continuously or from time to time. If the Customer's Power Factor is lower than 90%, BC Hydro may require the Customer, at the Customer's expense, to install Power Factor corrective equipment to ensure that a lagging Power Factor of not less than 90% is maintained at the Premises.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

7.2.3 Failure to Comply with Power Factor Requirements

If the Customer neglects or refuses to take all necessary steps to comply with the requirements of this section 7, including by failing to install Power Factor corrective equipment or auxiliaries promptly upon BC Hydro requesting it, BC Hydro may at its sole option:

1. Disconnect the Premises; or
2. Increase the Customer's bill for Electricity by a surcharge in accordance with the following table; the amount of the surcharge so determined will be added to the minimum bill or the calculation of the bill under the rate clause, whichever is greater.

Lagging Power Factor as Determined by BC Hydro	Lagging Power Factor Surcharge (%)
90% or more	Nil
Less than 90% but 88% or more	2
Less than 88% but 85% or more	4
Less than 85% but 80% or more	9
Less than 80% but 75% or more	16
Less than 75% but 70% or more	24
Less than 70% but 65% or more	34
Less than 65% but 60% or more	44
Less than 60% but 55% or more	57
Less than 55% but 50% or more	72
Less than 50%	80

No credit will apply to any leading Power Factor.

7.3 Disturbing Use

All equipment for which Electricity is provided under the Electric Tariff will be subject to the reasonable approval of BC Hydro and the Customer will at all times take and use Electricity so as not to endanger BC Hydro's apparatus or cause any undue or abnormal fluctuation of BC Hydro's line voltage or introduce disturbing elements into BC Hydro's electrical system. For three phase, four wire Service, the system design for the Premises served must not be such that any condition of unbalanced load between phases exceeds 10% of the phase carrying the least load.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

BC Hydro may require the Customer, at the Customer's own expense, to provide equipment which will reasonably limit such fluctuations or disturbances and may refuse to provide Electricity or suspend Service until such equipment is provided.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

8. DISTRIBUTION EXTENSIONS – 35 KV OR LESS**8.1 General Terms**

BC Hydro will construct distribution Extensions operating at a voltage of 35 kV or less to provide Service to applicants:

1. Along public roads or equivalent to public roads; and
2. On rights-of-way across private property.

The applicant is responsible for all rights-of-way clearing costs for the Extension.

8.2 Types of Distribution Extensions

Extensions may be constructed either overhead or underground, subject to and in accordance with BC Hydro's current distribution system development plans, distribution standards and applicable laws and regulations in each case.

8.3 Extension Fee for Rate Zone I

No Extension will proceed until the Customer has paid to BC Hydro the Extension Fee in accordance with this section. The Extension Fee is the Estimated Construction Cost of the Extension less the maximum contribution that BC Hydro is prepared to make toward the Extension. If BC Hydro's maximum contribution is greater than the Estimated Construction Cost of the Extension, the Extension Fee will be zero. No difference between BC Hydro's maximum contribution and the Estimated Construction Cost of the Extension may be used to reduce the Customer's Service Connection charge.

Except as otherwise provided in this section, the maximum contribution that BC Hydro is prepared to make toward an Extension in Rate Zone I is as follows:

Rate Class	Maximum BC Hydro Contribution
Residential	\$1,475 per Dwelling
General Service	\$200 per kW of estimated Billing Demand
Street Lighting	\$150 per fixture
Irrigation	\$150 per kW of estimated Billing Demand

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

For new Service to a Premises with total expected Maximum Demand of more than 500 kVA, the Estimated Construction Cost of the Extension will include associated System Improvement Costs.

For new Service to a Premises that:

1. Has a total expected Maximum Demand equal to or greater than 10,000 kW; and
2. Requires, in whole or in part, additions or alterations to BC Hydro's existing transmission system to provide Service via BC Hydro's distribution system,

such additions or alterations will be deemed to be System Reinforcement (as defined in Electric Tariff Supplement No. 6) and the Customer will be subject to the following terms and conditions found in Appendix 1 of Electric Tariff Supplement No. 6:

Clause Number	Description
1(b)	Application and Overview
2	Definitions of Customer and System Reinforcement
4 (c),(d),(e)	Estimates and Agreed Maximum Cost
5	System Reinforcement
9 (a(i)), (c)	Right-of-Way
13	Security for Costs
14	Force Majeure Events

Where BC Hydro has determined that an applicant will Terminate Service or substantially reduce its load within the first 10 years of Service, or where an applicant may be subject to Electric Tariff Supplement No. 6 pursuant to this section and BC Hydro does not expect future Customers to connect to the Extension, BC Hydro may reduce its maximum contribution toward the Extension.

If an applicant requests facilities that are not, in the opinion of BC Hydro, reasonably required to provide Service to a Premises (Optional Facilities), BC Hydro may provide the Optional Facilities if the applicant pays a non-refundable Optional Facilities Extension Fee equal to the Estimated Construction Cost of the Optional Facilities and any System Improvement Costs, plus the present value, over the expected life of the Optional Facilities, of the net operating and maintenance costs of the Optional Facilities. BC Hydro will not contribute toward the costs of Optional Facilities.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

The Extension Fee (if any) must be paid to BC Hydro in cash before construction of the Extension commences or, where agreed by BC Hydro, partly or wholly in kind.

8.4 Guarantee

Where BC Hydro reasonably forecasts a Customer will have Maximum Demand in excess of 100 kW, BC Hydro may require such Customer to provide a guarantee for the Extension in cash or another equivalent form acceptable to BC Hydro in accordance with this section.

The amount of the guarantee will in each case be determined by BC Hydro, subject to a maximum of BC Hydro's contribution toward the Estimated Construction Cost of the Extension. The guarantee will be held by BC Hydro for a guarantee period of up to five years.

At the end of the guarantee period, BC Hydro will re-evaluate its contribution to the Estimated Construction Cost of the Extension based on the actual number of Customers connected to the Extension and the actual average Billing Demand of those Customers over the guarantee period. BC Hydro will return to the Customer the guarantee in full or in part, or will keep the full amount of the guarantee depending on the results of such re-evaluation. Interest will not be paid on the guarantee in any circumstance.

8.5 Refund of Extension Fee for Rate Zone I (Excluding Subdivisions)

8.5.1 Extension Fee \$5,000 or Less

For Extensions in Rate Zone I where an Extension Fee of \$5,000 or less is required from the Customer and section 8.6 (Distribution Extensions Serving Subdivisions for Rate Zone I) does not apply, BC Hydro will automatically refund to the Customer 20% of the required Extension Fee. This refund recognises the estimated impact of subsequent Customer additions over the first five years. Customers receiving such reduction will not be entitled to any further reductions or future refunds in respect of the Extension.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

8.5.2 Extension Fee Greater Than \$5,000

For an Extension where the Extension Fee required from the Customer exceeds \$5,000 and to which section 8.6 (Distribution Extensions Serving Subdivisions for Rate Zone I) does not apply, BC Hydro will, if the Customer applies, refund to such Customer the difference, if any, between BC Hydro's maximum contribution for a subsequent Customer as determined under section 8.3 (Extension Fee for Rate Zone I) and BC Hydro's actual contribution to that subsequent Customer, for each subsequent Customer that connects to the same Extension in the first five years after such Extension is energized, subject to section 8.8 (Uneconomic Extension Fund).

Notwithstanding the above, total refunds to the original Customer under this section 8.5.2 will not exceed such Customer's Extension Fee and amounts of \$100 or less will not be refunded. No interest will accrue or be paid by BC Hydro on refunds.

A Customer may in writing apply for a refund under this section at any time after the first anniversary date of energization of the Extension, provided that only one refund evaluation request may be made in any 12-month period. Any Customer who fails to make a written request to BC Hydro for a refund under this section by the end of the sixth year after the Extension is energized will forfeit all rights to any refund under this section.

8.6 Distribution Extensions Serving Subdivisions for Rate Zone I**8.6.1 Non-Residential Subdivisions**

For an Extension required for non-residential Permanent Service to a subdivision in Rate Zone I, the applicant will pay an Extension Fee based on the loads known to be connecting to the Extension, as determined by BC Hydro.

BC Hydro will, upon receipt of an application under this section, refund to such applicant the difference, if any, between BC Hydro's maximum contribution for a subsequent Customer as determined under section 8.3 (Extension Fee for Rate Zone I) and BC Hydro's actual contribution to that subsequent Customer, for each subsequent Customer that connects to the same Extension in the first five years after such Extension is energized, subject to section 8.8 (Uneconomic Extension Fund).

Notwithstanding the above, total refunds to the original applicant under this section 8.6.1 will not exceed such applicant's Extension Fee and amounts of \$100 or less will not be refunded. No interest will accrue or be paid by BC Hydro on refunds.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

The original applicant may in writing apply for a refund under this section at any time after the first anniversary date of energization of the Extension, provided that only one refund evaluation request may be made in any 12-month period. Any Customer who fails to make a written request to BC Hydro for a refund under this section by the end of the sixth year after the Extension is energized will forfeit all rights to any refund under this section.

8.6.2 Residential Subdivisions

For an Extension required for Permanent Service to a subdivision in Rate Zone I comprised primarily of residential Customers, the applicant will pay an Extension Fee based on the loads that BC Hydro forecasts will connect to the Extension in the first five years following energization of the Extension and no refund will be available to the applicant in respect of any future connections to the Extension.

Notwithstanding the above, an applicant may elect to have a subdivision comprised primarily of residential Customers treated in accordance with the terms and conditions set out in section 8.6.1 (Non-Residential Subdivisions) in lieu of the provisions of this section 8.6.2.

8.7 Extensions for Rate Zone IB and Rate Zone II

An applicant in Rate Zone IB and Rate Zone II (including an Extension to serve a subdivision) will be required to contribute the Estimated Construction Cost of the Extension, plus the present value of net operating and maintenance costs. No refund will be available to the applicant in respect of any future connections to the Extension.

8.8 Uneconomic Extension Fund

For the purposes of this section, "extension cost" means the Extension Fee for Extensions in Rate Zone I and the applicant's contribution as set out in section 8.7 (Extensions for Rate Zone IB and Rate Zone II) for Extensions in Rate Zone IB and Rate Zone II.

BC Hydro will budget funds annually to its uneconomic extension fund which is intended to provide limited assistance to eligible applicants who are required to pay an extension cost for the construction of an Extension. In each year that applications from eligible applicants are received, BC Hydro will allocate amounts from its uneconomic extension fund on the basis of lowest cost per Customer connected to the BC Hydro distribution system.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

Applicants may apply for funding from the uneconomic extension fund if the Extension will serve:

1. Farm irrigation load; or
2. A Dwelling that will be occupied as a Dwelling for the majority of the year (Principal Residence), including such a Dwelling located on a farm.

In cases where funding is available from the uneconomic extension fund in accordance with this section, the applicant will pay:

1. For a single phase Extension to serve a Principal Residence that is not on a farm:
 - (a) The extension cost for the first distribution conductor spanning two BC Hydro poles (Span of Line), including Transformation and any pole required to maintain a safe clearance for BC Hydro's distribution conductor over a road, railway or other facility, as well as the extension cost of any distribution line required more than 800 metres beyond the first Span of Line; and
 - (b) For the first 800 metres of distribution line beyond the first Span of Line, 10% of the Estimated Construction Cost and the present value of net operating and maintenance costs;
2. For a single phase Extension to serve a Principal Residence on a farm:
 - (a) The extension cost for the first Span of Line, including Transformation and any pole required to maintain a safe clearance for BC Hydro's distribution conductor over a road, railway or other facility, as well as the extension cost of any distribution line more than 1200 metres beyond the first Span of Line; and
 - (b) For the first 1200 metres of distribution line beyond the first Span of Line, 10% of the Estimated Construction Cost and the present value of net operating and maintenance costs; and
3. For a single or three phase Extension to serve farm irrigation load, the extension cost on the complete Extension, less a contribution by BC Hydro of up to six times its estimated annual revenue on the Extension. The maximum contribution by BC Hydro will be the Estimated Construction Cost of the Extension.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

Applicants that pay an Extension Fee or contribute to the construction of an Extension and receive funding from BC Hydro's uneconomic extension fund under this section will not be eligible for any future refunds relating to that Extension.

8.9 Distribution Extensions on Private Property (All Rate Zones)

BC Hydro will determine if an Extension on private property is of such length as to make it uneconomic for BC Hydro to construct, own and operate or to assume ownership and maintenance of such facilities.

8.10 Distribution Extensions on Private Property Constructed by BC Hydro (All Rate Zones)

If an applicant requests, and to the extent BC Hydro agrees, BC Hydro may extend its distribution lines and transformers on private property when it is impractical or uneconomic for the applicant to take Service directly from BC Hydro's distribution facilities on public property, provided that:

1. The applicant, without any cost to BC Hydro, grants or provides to BC Hydro all easements and / or rights-of-way as BC Hydro may reasonably require at any time for unimpeded and safe ingress and egress to private property for the purpose of construction, installation, maintenance, repair, operation and / or removal of such distribution lines, transformers and related equipment, and as otherwise may be required for vegetation management, emergency response and performance of all other obligations of BC Hydro;
2. All clearing and civil work related to the provision of Electricity for the Premises must be constructed and performed by the applicant in accordance with BC Hydro's distribution and environmental standards; and
3. BC Hydro will own, operate and maintain the electrical components of the distribution facilities including poles supporting overhead lines, up to the Point of Delivery; all civil work associated with any underground facilities, including ducts, foundations and pads, will be owned, operated and maintained by the Customer as set out in section 3.7 (Civil Work and Structures on Private Property).

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

8.11 Distribution Extensions on Private Property Constructed by the Customer (All Rate Zones)

If a Customer requests and to the extent BC Hydro agrees, BC Hydro may assume ownership and responsibility for operation and maintenance of the electrical components of distribution facilities on private property up to the Point of Delivery, including poles supporting overhead lines provided that:

1. The Customer, without any cost to BC Hydro, transfers to BC Hydro all right, title and interest in and to the facilities and grants to BC Hydro all easements and / or rights-of-way as BC Hydro may reasonably require at any time for unimpeded and safe ingress and egress to such facilities for maintenance, repair, operation and / or removal, and as otherwise may be required for vegetation management, emergency response and performance of all other obligations of BC Hydro;
2. The facilities are newly constructed, or have been reconstructed within the past 12 months, or otherwise are in a condition acceptable to BC Hydro;
3. The facilities and all clearing and civil work related to the provision of Electricity must have been constructed and performed by the Customer in accordance with BC Hydro's distribution and environmental standards;
4. All civil work associated with any underground facilities, including ducts, foundations and pads, will be owned, operated and maintained by the Customer as set out in section 3.7 (Civil Work and Structures on Private Property); and
5. Customer pays to BC Hydro a fee equal to BC Hydro's estimated cost for inspection of the facilities plus, in the case of a Customer in Rate Zone II, the present value of net operating and maintenance costs.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

9. GENERAL PROVISIONS**9.1 Resale of Electricity**

If a Customer wishes to resell to a tenant of the Customer at the same Premises and on a metered basis Electricity provided by BC Hydro to the Customer, the price for such Electricity will not exceed the price that BC Hydro would have charged had such tenant been a Customer of BC Hydro. This requirement will be included in an agreement for resale between BC Hydro and the Customer.

9.2 Rental Premises Agreements

As a condition of Service to a Premises where a tenant is the Customer, BC Hydro may require an Owner to enter into with BC Hydro a rental premises agreement setting out the responsibilities of the Owner in relation to payment for Service. Regardless of whether a rental premises agreement has been executed, BC Hydro may, at its sole option at any time and from time to time, elect to:

1. Deal directly with an Owner as the Customer in respect of any or all services to the Premises; or
2. Deal directly with each tenant as a Customer of BC Hydro.

9.3 Access to Premises

BC Hydro's employees and representatives will, at all reasonable times, have free access to all equipment provided with Electricity, and to BC Hydro's Metering Equipment, wires, poles and all other apparatus on the Customer's Premises for the purpose of reading meters and testing, installing, removing, repairing or replacing any of BC Hydro's equipment, and for ascertaining the quantity, use or method of Electricity consumption. Without limiting the foregoing, the Customer will supply BC Hydro with lockbox keys or other keys or means of access to meter rooms and other locations as may be necessary to comply with this section. In no case will BC Hydro accept keys to private residential Premises.

If free access as required by this section is denied or obstructed in any manner, including by debris, telecommunication blockage, unsafe walkways or other means of access, or the presence of animals, and the Customer does not promptly resolve the issue upon request by BC Hydro, BC Hydro may Disconnect the Premises until the issue has been addressed.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

9.4 Interruption of Service

At any time in the event of a shortage of water or fuel supply, whether actual or apprehended by officials of BC Hydro, or in the event of a breakdown or failure of generating, transmitting or distributing plant, lines or equipment, or to comply with the requirements of any law, or for any reason whatsoever not attributable to or beyond the reasonable control of BC Hydro, BC Hydro may require any Customer, class or classes of Customers, or all Customers to suspend their use of Electricity for any purpose or purposes, or for all purposes, or to reduce their consumption of Electricity to any degree and for any purpose or purposes or for all purposes, for one or more specified periods of time or until notice of termination of the interruption is provided by BC Hydro.

Notice of any requirement for interruption or of termination of the interruption in whole or in part may be communicated to affected Customers by public announcements made electronically, in the press and / or by radio or television, and may be communicated to individual affected Customers by notice in writing sent through the mail, left at the Premises where Service is received, or served personally and / or verbally, including by telephone.

If, in the opinion of BC Hydro, a Customer fails to comply with any requirement of BC Hydro communicated as set out above, BC Hydro may suspend Service to such Customer after providing notice of Termination in accordance with this section.

Without limiting section 9.7, BC Hydro will not be liable for any loss, injury, damage or expense occasioned to or suffered by any Customer in connection with any interruption requirement or termination of interruption under this section.

9.5 Liability of BC Hydro

BC Hydro will endeavour to provide a regular and uninterrupted supply of Electricity but does not guarantee a constant supply of Electricity or the maintenance of unvaried frequency or voltage and will not be responsible or liable for any loss, injury, damage or expense caused by or resulting from any interruption, termination, failure or defect in the provision of Electricity, whether caused by the negligence of BC Hydro, or its representatives or agents or otherwise, except to the extent that the loss, injury, damage or expense results directly from the wilful misconduct of BC Hydro or its representatives or agents, provided, however, that neither BC Hydro, nor any of its representatives or agents is responsible for any loss of profit, loss of revenue or other economic loss, even if the loss arises directly from the wilful misconduct of BC Hydro or its representatives or agents.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

BC Hydro reserves the right to Terminate Service (including by Disconnection) at any time to prevent fraudulent use of Electricity, to protect its property, or to protect Service to other Customers, or if the Customer fails to comply with the terms of the Service Agreement, or if BC Hydro is ordered by a competent government authority to Terminate such Service.

BC Hydro may also temporarily Disconnect a Premises to make repairs or improvements to its electrical system or in the event of fire, flood or other sudden emergency. BC Hydro will, whenever practicable, give notice of such Disconnection to the Customer and will restore Service as soon as reasonably possible. Neither BC Hydro nor any of its representatives or agents will be liable for any loss, injury, damage or expense caused by or arising out of any such Disconnection.

9.6 Liability of Other Utilities

Service under the Electric Tariff is sometimes provided by BC Hydro through the use of property and services provided by or shared with other telephone and electric utilities. It is a condition of Service that any loss or damages, direct or indirect, that the Customer may suffer by reason of any defect in Service under the Electric Tariff or any interruption in or failure to provide Service, whether or not caused by negligence, will not be recoverable from such other utilities, and that the Customer will not take proceedings of any kind against any such utilities by reason of any defect in the Service or any interruption in or failure to provide Service to the Customer by BC Hydro.

9.7 Generating Facility Connections (Distributed Generation)

Customers wishing to interconnect a Generating Facility (as defined in Rate Schedule 1289) to BC Hydro's distribution system under Rate Schedule 1289 must pay the associated incremental interconnection costs (if any) in the following circumstances:

1. The Customer utilizes a synchronous generator;
2. The Customer takes Service at a Primary Voltage; and / or
3. The Customer utilizes a Generating Facility with a nameplate capacity of greater than 50 kW.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

The associated incremental interconnection costs will be determined by comparing the interconnection costs of the Customer's Generating Facility, including any study costs incurred by BC Hydro, to a typical net metering customer project application up to 50 kW and taking Service other than at a Primary Voltage. BC Hydro's Distributed Generation Interconnection Practices provide more detail on interconnection requirements and applicable costs.

Before BC Hydro will provide approval to connect a Generating Facility to BC Hydro's electrical system, the Customer must pay to BC Hydro the actual associated incremental costs for the connection as requested by BC Hydro.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

10. RATE ZONE IB AND RATE ZONE II**10.1 Special Terms Applicable to Supply in Rate Zone IB and Rate Zone II**

1. Where BC Hydro supplies Electricity in Rate Zone IB or Rate Zone II for an independent power producer (**IPP**) Customer, BC Hydro may require that supply to such Customer be by Electric Tariff Supplement. Such supply is subject to special conditions as provided in this section and as BC Hydro, in its sole discretion, considers necessary to insert in the Customer's Electric Tariff Supplement.

BC Hydro will, where possible, supply such Customer, provided that:

- (a) Service can be provided on terms that are not unduly uneconomic from BC Hydro's point of view; and
- (b) No undue disturbance will be caused to BC Hydro's electrical system or to other Customers.

Without limiting the foregoing, where Electricity supply to the area is or may be impaired, BC Hydro may supply to a Customer only that portion of the Customer's Electricity requirements that, in BC Hydro's opinion, can be supplied without causing or increasing impairment of supply to the area as a whole.

2. For IPP Customers in Rate Zone IB and Rate Zone II served under an Electric Tariff Supplement called "Interruptible Electricity Supply Agreement", the Energy component of the rates owing for such supply will be the greater of:
 - (a) The unit price paid by BC Hydro to the IPP for the most recent purchase of Electricity from the IPP; and

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

- (b) The average unit cost incurred by BC Hydro to generate Electricity at all diesel generating stations owned and operated by BC Hydro in Rate Zone IB and Rate Zone II, plus a 10% profit margin, where the average unit cost will be calculated by summing all costs to BC Hydro in Rate Zone IB and Rate Zone II of fuel, oil, operation and maintenance for such diesel generating stations divided by the total kilowatt hours generated by all such diesel generating stations during BC Hydro's immediately prior fiscal year. Each average unit cost calculated for a particular complete BC Hydro fiscal year will apply as of July 1 of the next fiscal year and continue until July 1 of the subsequent year, at which time the average unit cost will be recalculated for the most recently completed BC Hydro fiscal year.

10.2 BC Hydro Contribution to Costs to Serve Customers in Rate Zone IB and Rate Zone II Districts

BC Hydro's normal contribution will be based on the present value of the cost savings BC Hydro anticipates would arise from serving existing Rate Zone IB or Rate Zone II Customers plus forecast growth from the integrated electrical system rather than from remote generation. The present value calculations will reflect:

1. BC Hydro's forecast of short term marginal values and long term marginal costs of Electricity supply from the integrated electrical system;
2. A reasonable estimate of the expected escalation in the cost of existing remote generation;
3. Any plans for capital replacement of, or addition to, existing remote generation plant, including consideration of any expected efficiency gains resulting from the capital replacement or addition; and
4. Current taxation procedures for the specific transmission facilities required for integration.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

11. SCHEDULE OF STANDARD CHARGES**11.1 Minimum Connection Charges – Rate Zone I**

The minimum connection charge for each single phase, Secondary Voltage Service Connection installed in Rate Zone I, including one meter, is as set out below.

Overhead Service Connection:	
• 100 Amp.	\$ 799.00
• 200 Amp.	\$ 838.00
Underground Service Connection:	
• 100 Amp.	\$ 957.00
• 200 Amp.	\$ 1,270.00

A premium may apply to Service Connection installations performed outside of BC Hydro's regular working hours.

11.2 Additional Meter Charges

Charges applicable to the installation of additional meters pursuant to section 3.14 (Service Connection Charges) or as otherwise specified in these Terms and Conditions are as follows.

Charge per additional meter installed at the same time as a Service Connection:	\$ 46.00
Charge per additional meter installed subsequent to a Service Connection:	
• One meter	\$ 181.00
• Each additional meter	\$ 46.00

ACCEPTED: March 16, 2017ORDER NO. G-5-17

COMMISSION SECRETARY

11.3 Minimum Reconnection Charges

The following Minimum Reconnection Charges apply to reconnections performed by BC Hydro pursuant to section 2.10 (Re-Application for Service) or section 6.7 (Minimum Reconnection Charge).

Remote and manual reconnections performed during regular working hours and remote reconnections performed outside of BC Hydro working hours (default Minimum Reconnection Charge)	\$ 30.00 per meter
Manual reconnections performed outside of regular working hours	\$ 280.00 per meter
Manual reconnections at the Point of Delivery because the Customer failed to provide access to the meter	\$ 700.00 per meter

ACCEPTED: March 16, 2017ORDER NO. G-5-17

COMMISSION SECRETARY

11.4 Miscellaneous Standard Charges

The following miscellaneous standard charges will apply as set out in these Terms and Conditions.

Account Charge ^{Note 1}	\$ 12.40
Failed Installation Charge	\$ 65.00
Late Payment Charge ^{Note 2}	1.5% per month (equivalent 19.6% per annum compounded monthly)
Legacy Meter Charge ^{Note 3}	\$ 32.40 per month
Meter Test Charge	\$ 181.00
Net Metering Site Acceptance Verification Fee (Generators above 5 kW)	BC Hydro's actual costs, to a maximum of \$ 600.00
Radio-off Meter Charge ^{Note 3}	\$ 20.00 per month
Radio-off Meter Initial Charge ^{Note 4} (from existing Legacy Meter)	\$ 22.60
Radio-off Meter Initial Charge ^{Note 5} (from existing Smart Meter)	\$ 77.60
Radio-off Meter Removal Charge ^{Note 6}	\$ 55.00
Returned Payment Charge	\$ 6.00
Service Connection Call-Back Charge – Zone I	\$ 368.00
Transformer Rental Charge	17% per annum of replacement value to be billed monthly

Note 1 Exceptions to this charge are set out in section 6.5 (Account Charge).

Note 2 Calculated from the billing date.

Note 3 If BC Hydro has failed to obtain a manual meter reading for any bi-monthly billing period, BC Hydro will, unless BC Hydro's failure to obtain the manual meter reading was attributable to the acts or omissions of the Customer, deduct the amount of \$27.90 from the Legacy Meter Charges payable for that billing period, or the amount of \$30.08 from the Radio-off Meter Charges payable for that billing period. In all cases in which the Customer's bill was based on a manual meter reading obtained by BC Hydro, the full Legacy Meter Charge or Radio-off Meter Charge, as applicable, will be payable by the Customer.

Note 4 For eligible Customers who have a Legacy Meter and elect to have that Legacy Meter replaced with a Radio-off Meter in accordance with the prescribed conditions.

Note 5 For eligible Customers who have a Legacy Meter or a Radio-off Meter, move to a Premises that has a Smart Meter installed, and elect to have that Smart Meter replaced with a Radio-off Meter in accordance with the prescribed conditions.

Note 6 For eligible Customers who have a Radio-off Meter but move to a different Premises or elect to have a Smart Meter installed at their current Premises in accordance with the prescribed conditions.

2. A Customer taking Service under these Rate Schedules is required to have, to BC Hydro's satisfaction, an installed permanent backup heating system using an alternative fuel, or an installed permanent independent electrical generating system, in good working order, and an adequate supply of fuel therefor, so that the Customer can continue heating operations when the supply of Electricity is interrupted. The output rating of the backup system must be of sufficient capacity to supply the heating load served under these Rate Schedules.

If at any time a Customer fails to comply with the foregoing requirements, BC Hydro may immediately Terminate the supply of Electricity under these Rate Schedules to such Customer.

3. BC Hydro will interrupt the supply of Electricity by either manual or automatic means or by written notice by registered mail or hand delivery to the Customer to cease the use of Electricity under these Rate Schedules. A Customer who has been given such written notice to cease the use of Electricity under these Rate Schedules will in accordance with the requirements of the notice cease such use and will not begin to use Electricity again until so authorized by BC Hydro, by written notice.

If a Customer fails to comply with these requirements, BC Hydro may in its sole discretion:

- (a) Continue to supply Electricity, in which case the rate will be the rate for Electricity during a Period of Interruption as stated in these Rate Schedules, or
- (b) Terminate the supply of Electricity under these Rate Schedules.

8. No other load than that stipulated in the Availability clause is permitted under these Rate Schedules. Any unauthorized use of Electricity or any refusal by a Customer to permit access to Premises in accordance with the Terms and Conditions of BC Hydro's Electric Tariff will result in immediate Termination under the applicable Rate Schedule and all unauthorized consumption as estimated by BC Hydro will be billed at the rate for Electricity during a Period of Interruption as stated in these Rate Schedules.
9. In addition to and without restriction of any other limitations of liability of BC Hydro, BC Hydro will specifically not be liable for any loss, damage, injury or expense occasioned to or suffered by any Customer receiving Service on these Rate Schedules, or by any other Person, for or by reason of any interruption of Electricity supply whatsoever for any reason whatsoever.
10. A Customer who signs a contract with BC Hydro for the supply of Electricity to new load under these Rate Schedules during the period commencing July 1, 1988 and ending December 31, 1988 will be eligible to receive an incentive rebate on his Electricity bills provided the Customer begins taking Service under these Rate Schedules no later than 12 months following the date the contract was signed.
11. A rebate will be applied to reduce the effective rate to 1.1 ¢ per kWh. Such rebate will apply only to an accumulated maximum of \$30.00 per kW of connected new load in excess of 35 kW and only up to the first two years following connection. Bills for Energy consumed will be calculated and presented at full rates with the rebate for any given period applied to the following bill. The maximum two year period of billing rebates will be extended by the equivalent of any Period of Interruption. Rebates will not be applied to reduce the rate applicable for consumption during a Period of Interruption, nor will rebates be applied to reduce Power Factor surcharges.

2. GENERAL SERVICE

RATE SCHEDULE 1268 – DISTRIBUTION SERVICE – IPP DISTRIBUTION TRANSPORTATION ACCESS

Availability	For Customers who have generators connected to BC Hydro’s distribution system and who want to access BC Hydro’s transmission system pursuant to and in accordance with BC Hydro’s Open Access Transmission Tariff (OATT).
Applicable in	Rate Zone I excluding Districts of Kingsgate-Yahk and Lardeau-Shutty Bench.
Rate	Distribution Transportation Charge: 0.184 ¢ per kWh
Special Conditions	<ol style="list-style-type: none"> 1. The Customer is required to pay the costs, including the cost of altering existing facilities, to connect the generator to BC Hydro’s distribution system in accordance with BC Hydro’s Connection Requirements for Utility or Non-Utility Generation, 35 kV and Below. 2. For Customers with self-generation (i.e., with a Customer Baseline Load (CBL) greater than zero), this Rate Schedule is only applicable to sales of Surplus Energy. It may not be used by self-generating Customers who appear to have varied their demand for power from BC Hydro based on the actual or anticipated difference between BC Hydro’s rate for providing Service to them and the market price of power. 3. For the purposes of this Rate Schedule, “Surplus Energy” in any period is the energy made available from generation by the Customer calculated as the difference between the Customer’s CBL and the Customer’s actual consumption from BC Hydro in that period.

ACCEPTED: _____ April 27, 2018

ORDER NO. _____ G-47-18

COMMISSION SECRETARY

	<p>4. The Customer's CBL is established, in general, by determining the Customer's Energy consumption, on a monthly basis, for the past three years; in cases where inadequate history exists, alternative methods may be used to determine a Customer's CBL. Once established, the Customer's CBL will not be automatically adjusted for changes in the Customer's net metered consumption from BC Hydro. Any subsequent changes to the CBL must be due to changes in the Customer's load and not due to changes in its generation. The Customer must provide metered output from its generator which demonstrates an increase in generation output commensurate in time and amount with the Surplus Energy transported using this Rate Schedule. Where it appears that the Customer has transported on this Rate Schedule Energy that is not Surplus Energy, BC Hydro will provide replacement energy to the Customer's load at market prices, subject to Commission approval for such sales.</p> <p>5. The metering point to determine the electricity being delivered to BC Hydro's distribution system will be determined by BC Hydro. The electricity delivered to BC Hydro's distribution system will also be deemed to be delivered to BC Hydro's transmission system (that is, no distribution loss adjustment will be applied to the electricity from an independent power producer or self-generator when determining capacity and energy delivered to BC Hydro's transmission system).</p>
Rate Rider	The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.
Rate Increase	<p>Effective April 1, 2016 and April 1, 2017 the rate under this Rate Schedule included rate increases of 4.0% and 3.5%, respectively, before rounding, both approved by BCUC Order No. G-47-18.</p> <p>Effective April 1, 2018 the rate under this Rate Schedule includes an increase of 3.0% before rounding, approved by BCUC Order No. G-47-18.</p>

5. Fixtures with Automated Dimming Controls

The following special terms and conditions apply to lighting fixtures fitted with dimming controls:

- (a) For purposes of this Special Condition No. 5, “dimming controls” means control units or fittings attached to, or forming part of, a street lighting fixture capable of being programmed or remotely operated so as to reduce the lumens output of the lamps during specified hours each day while the lamps are in operation. The reductions may vary according to the hours of the day, the days of the week, and the seasons of the year.
- (b) A Customer wishing to have fixtures with dimming controls separately rated under this Rate Schedule must submit a dimming schedule satisfactory to BC Hydro listing each light fixture fitted with dimming controls, the wattage of the fixture (including the lamp and, where applicable, the ballast), the dimming control setting or settings and the hours each day that the dimming control setting or settings will be in operation.
- (c) Whenever the Customer wishes to make changes in the lighting fixtures listed in the dimming schedule or in the dimming control settings or hours of operation, the Customer will submit an updated lighting fixture schedule to BC Hydro listing any changes. Changes will be permitted on a semi-annual basis (twice per year).

ORDER NO. G-47-18

COMMISSION SECRETARY

3. This Rate Schedule is only for the following purposes:

To provide Electricity the Customer would otherwise generate during periods when all or part of the Customer's electrical generating plant is curtailed.

Electricity used for this purpose may be taken on an instantaneous basis when the impact of the instantaneous pickup of loads normally provided by the Customer's electrical generation units does not occur after BC Hydro has advised the Customer that a period of system constraint or potential system constraint exists.

During periods of potential system constraints, BC Hydro will require Customers to arm load shedding relays to ensure that the loss of electricity production from a Customer's electrical generation unit will not result in a demand greater than the Customer's Maximum kVA Demand on BC Hydro's system. BC Hydro may require the Customer to provide it with control of these load shedding relays. During periods of potential system constraints, upon a Customer's request, BC Hydro will endeavour to provide Electricity normally provided by the Customer's electrical generation unit.

The Customer is required to advise BC Hydro within 30 minutes of taking Electricity under this Rate Schedule for this purpose. If the Customer fails to advise BC Hydro within 30 minutes, measured Demand and Energy consumption will be billed under Rate Schedule 1823, 1825, 1827 or 1852, whichever is applicable.

4. Electricity taken under this Rate Schedule will not displace Electricity otherwise to be taken by the Customer under Rate Schedule 1823, 1825, 1827 or 1852.

Electricity taken under this Rate Schedule will not displace electricity that would normally be generated by the Customer for the purpose of re-sale.

	<ol style="list-style-type: none">5. In addition to the charges specifically set out in this Rate Schedule, the Customer will pay for any additional facilities required to deliver Electricity under this Rate Schedule provided that BC Hydro obtains the prior consent of the Customer for construction of the additional facilities.6. A Customer may be required to allow BC Hydro to install metering and communication equipment to measure the electricity output of the Customer's self-generation unit.7. BC Hydro will bill for Electricity taken under Rate Schedule 1880 at the same time it bills for Electricity taken under Rate Schedule 1823, 1825, 1827 or 1852, whichever is applicable.
Taxes	The rates set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.
Note	The terms and conditions under which Transmission Service is supplied are contained in Electric Tariff Supplement Nos. 5 and 6, or Electric Tariff Supplement Nos. 87 and 88, as applicable.
Rate Rider	The Deferral Account Rate Rider as set out in Rate Schedule 1901 applies to all charges payable under this Rate Schedule, before taxes and levies.
Rate Increase	<p>Effective April 1, 2016 and April 1, 2017 the Energy Charge under this Rate Schedule included rate increases of 4.0% and 3.5%, respectively, before rounding, both approved by BCUC Order No. G-47-18.</p> <p>Effective April 1, 2018 the Energy Charge under this Rate Schedule includes an increase of 3.0% before rounding, approved by BCUC Order No. G-47-18.</p>

COMMISSION SECRETARY

2. BC Hydro agrees to provide Electricity under this Rate Schedule to the extent that it has energy and capacity to do so. BC Hydro may refuse Service under this Rate Schedule in circumstances where BC Hydro does not have sufficient energy or capacity. For greater certainty, BC Hydro will not be required to construct a System Reinforcement under Electric Tariff Supplement No. 6 to provide Service under this Rate Schedule.
3. By March 1 of each year in which the Customer wishes to take Electricity under this Rate Schedule, the Customer must notify BC Hydro that the Customer elects to take Electricity under this Rate Schedule during the upcoming Freshet Period and also provide to BC Hydro an estimate of the amount of energy (in MWh) that the Customer expects to take under this Rate Schedule during each month of the Freshet Period and a description of the operational changes the Customer plans to make at its plant to take advantage of this freshet energy pilot program.
4. If BC Hydro and the Customer agree that the LLH and HLH Baselines or Reference Demand calculated in accordance with the provisions above are not representative of the Customer's expected Rate Schedule 1823 Electricity usage during the Freshet Period of 2016, 2017 or 2018, and the parties agree to alternative LLH and HLH Baselines or Reference Demand, BC Hydro will file the agreed-to baselines or Reference Demand with the British Columbia Utilities Commission (**BCUC**). Subject to direction from the BCUC, BC Hydro will use such filed baselines or Reference Demand for the purposes of applying this Rate Schedule and Rate Schedule 1823.

ACCEPTED: May 17, 2018ORDER NO. G-94-18

COMMISSION SECRETARY

5. Electricity under this Rate Schedule will not be available to a Customer if:
 - (a) The Customer has an electricity purchase agreement (**EPA**) with BC Hydro; and
 - (b) The Customer has, in accordance with the EPA, changed the Seasonal, Monthly or Hourly GBL (as applicable and as defined in the EPA) applicable during the Freshet Period of 2016, 2017 or 2018.
6. A Customer taking Electricity under this Rate Schedule may, by providing notice to BC Hydro at any time prior to July 31, cancel supply under this Rate Schedule for the current Freshet Period.
7. If a Customer taking Electricity under this Rate Schedule advises BC Hydro that the Customer is or will be taking Electricity under Rate Schedule 1880 (Standby and Maintenance) during the current Freshet Period, supply under this Rate Schedule will be automatically cancelled for the current Freshet Period.
8. If supply under this Rate Schedule is canceled under Special Condition No. 6 or 7, all Electricity supplied to the Customer during the current Freshet Period will be deemed to be supplied under Rate Schedule 1823 or Rate Schedule 1880, as applicable. Such Customer's Energy and Demand Charges will be determined in accordance with Rate Schedule 1823 or Rate Schedule 1880, whichever is applicable, and BC Hydro will make any necessary retroactive billing adjustments.
9. Subject to any advance billing arrangement under Electric Tariff No. 5 or other special billing terms in effect for a particular Customer, BC Hydro will bill for Electricity supplied under this Rate Schedule 1892 after the Freshet Period has ended and BC Hydro has determined the HLH and LLH Net Freshet Energy for the Customer. BC Hydro will then make any necessary retroactive billing adjustments in relation to energy supplied under Rate Schedule 1823.

5. TRANSMISSION SERVICE**RATE SCHEDULE 3817 – WHEELING SERVICE – FORTISBC INC.**

Availability	This Rate Schedule is available to FortisBC Inc. (FortisBC) for the Wheeling of electricity over BC Hydro's transmission facilities in accordance with the terms and conditions of the Amended and Restated Wheeling Agreement entered into between BC Hydro and FortisBC and deemed effective July 1, 2014 (Amended and Restated Wheeling Agreement).
Applicable in	The Point of Supply and the Points of Interconnection specified in the Amended and Restated Wheeling Agreement.
CPI Adjustment	Each Contract Year, the applicable rates for General Wheeling and Emergency Wheeling to each Point of Interconnection identified in this Rate Schedule will be adjusted by increasing the prior Contract Year's applicable rates by the annual rate of inflation as published by Statistics Canada using the British Columbia Consumer Price Index (all items) for the month of July preceding the commencement of the Contract Year in which the adjustment will apply. These adjustments will become effective at the commencement of the next Contract Year on October 1 of that calendar year, and the adjusted rates will be posted on BC Hydro's transmission website.

ACCEPTED: March 16, 2017ORDER NO. G-5-17

COMMISSION SECRETARY

<p>Annual General Wheeling Rates</p>	<p>Subject to adjustment in accordance with the CPI Adjustment provision of this Rate Schedule, for the purposes of calculating the applicable rates for General Wheeling to each Point of Interconnection identified in this Rate Schedule for the Contract Year commencing October 1, 2013, the applicable rates for General Wheeling to each Point of Interconnection identified in this Rate Schedule for the prior Contract Year are:</p> <ol style="list-style-type: none"> 1. Point of Supply to Creston Point of Interconnection \$13,411.12 per MW of Nominated Wheeling Demand 2. Point of Supply to Okanagan Point of Interconnection \$20,578.55 per MW of Nominated Wheeling Demand 3. Point of Supply to Princeton Point of Interconnection \$54,874.45 per MW of Nominated Wheeling Demand
<p>Monthly Charge</p>	<p>The monthly charge will be one-twelfth of the above annual rate per MW of Nominated Wheeling Demand for each Point of Interconnection.</p>
<p>Nominated Wheeling Demand</p>	<p>The maximum amount of electricity, as determined in section 6.1 of the Amended and Restated Wheeling Agreement, that BC Hydro will Wheel for FortisBC under General Wheeling to each Point of Interconnection during a stated Contract Year.</p>
<p>POI Imbalance Wheeling</p>	<p>A rate will be charged for each MW of POI Imbalance Wheeling that is equal to 200% of the then-current maximum rate that would apply to FortisBC under Schedule 01 of BC Hydro's Open Access Transmission Tariff for Hourly Non-Firm Point-To-Point Transmission Service.</p>
<p>Emergency Wheeling</p>	<p>Subject to adjustment in accordance with the CPI Adjustment provision of this Rate Schedule, a rate of 0.110 ¢ per kWh will be charged for each kWh of Emergency Wheeling. This charge would only apply to Wheeled Electricity which cannot be accommodated within the limits of the Nominated Wheeling Demand applicable to the Point of Interconnection, and which meets the criteria for Emergency Wheeling in accordance with the Amended and Restated Wheeling Agreement.</p>

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

 COMMISSION SECRETARY

Note	The terms and conditions under which Wheeling is provided to FortisBC are contained in the Amended and Restated Wheeling Agreement. All terms capitalized above are defined in the Amended and Restated Wheeling Agreement.
Taxes	The rates and charges set out in this Rate Schedule are exclusive of goods and services and provincial sales taxes.

ACCEPTED: March 16, 2017

ORDER NO. G-5-17

COMMISSION SECRETARY

	<p>and includes all wiring, protection-isolation devices, disconnect switches, and other equipment and facilities on the Customer's side of the Point of Delivery.</p> <p>For clarity, where the Customer leases the Generating Facility from a third party or retains a third party to install, operate and maintain the Generating Facility on its behalf, then as between the Customer and BC Hydro, the Customer will remain responsible for any obligations under all terms and conditions of Service, including applicable Rate Schedules, BC Hydro's DGTIR-100, and other applicable interconnection requirements to the same extent as if the Customer owns, installs, operates and maintains the Generating Facility itself.</p>
Applicable in	All Rate Zones.
Rate	<p>Energy Charge:</p> <p>Charges for Net Energy consumed by the Customer will be in accordance with the Rate Schedule under which the Customer is receiving Service from BC Hydro.</p> <p>Energy Price:</p> <p>For all electricity represented by the Generation Credit Balance remaining in the Customer's Generation Account at any Anniversary Date, BC Hydro will pay 9.99 ¢ per kWh.</p>
Metering	<ol style="list-style-type: none">1. Inflows of Electricity from the BC Hydro system to the Customer, and outflows of electricity from the Customer's Generating Facility to the BC Hydro system, will normally be determined by means of a single meter capable of measuring flows of electricity in both directions.2. Alternatively, if BC Hydro determines that flows of electricity in both directions cannot be reliably determined by a single meter, or that dual metering will be more cost-effective, BC Hydro may require that separate meters be installed to measure inflows and outflows of electricity.

ACCEPTED: March 16, 2017ORDER NO. G-5-17

COMMISSION SECRETARY

	<ol style="list-style-type: none">3. The Customer will install, at its cost, the meter base and any wiring, poles, protection-isolation devices, disconnect switches, and other equipment and facilities on the Customer's side of the Point of Delivery as required under BC Hydro's "Distributed Generation Technical Interconnection Requirements – 100 kW and Below" (DGTIR-100) or other interconnection requirements applicable to the Generating Facility. BC Hydro will supply and install the Metering Equipment and make the final connections.4. Any Metering Equipment required for purposes of this Rate Schedule will be in addition to any meters with demand measurement capability (if applicable) required under the Rate Schedule under which the Customer is receiving Service from BC Hydro.
Billing	<p>Determination of the Customer's bill will be as follows:</p> <ol style="list-style-type: none">1. Meter reading and billing frequency will be in accordance with the Rate Schedule under which the Customer is receiving Service from BC Hydro.2. At the end of each billing period BC Hydro will determine the "Net Energy" applicable for that billing period, defined as the difference between the Electricity supplied by BC Hydro to the Customer during the billing period and the electricity delivered from the Generating Facility to BC Hydro's system during the billing period.3. If Net Energy is positive, BC Hydro will bill the Customer for the Net Energy consumed by the Customer during the billing period, subject to the application of any generation credits then in the Customer's Generation Account, as described in item 5 below.4. If Net Energy is negative, BC Hydro will credit the Net Energy amount to the Customer's Generation Account, as described in item 5 below, and will bill the Customer only for the Basic Charge and Demand Charge (if applicable) under the Rate Schedule under which the Customer is receiving Service from BC Hydro.

ACCEPTED: March 16, 2017ORDER NO. G-5-17

COMMISSION SECRETARY

	<ol style="list-style-type: none"><li data-bbox="493 327 1451 737">5. Beginning with the first billing period following the date a Customer commences taking Service under this Rate Schedule, BC Hydro will establish a Generation Account for that Customer. If Net Energy is negative for that billing period, BC Hydro will credit the Net Energy amount to the Customer's Generation Account. BC Hydro will likewise follow this procedure for successive billing periods, except that if for any billing period Net Energy is positive, any credit balance then in the Customer's Generation Account will be applied to the positive Net Energy amount for that billing period until the Net Energy amount is reduced to zero.<li data-bbox="493 772 1451 1220">6. BC Hydro will follow this procedure, and will notify the Customer of amounts credited and debited to the Generation Account and of the remaining credit balance (if any) in the Generation Account, on the bill rendered by BC Hydro for each billing period, until the end of the sixth billing period, in the case of Customers being billed bi-monthly, or until the end of the twelfth billing period, in the case of Customers being billed monthly (Anniversary Date). At the Anniversary Date, BC Hydro will credit any negative Net Energy amount for that billing period to the Generation Account, or apply any credits in the Generation Account to any positive Net Energy amount for that billing period, in the same manner as for prior billing periods.<li data-bbox="493 1255 1451 1541">7. If any credit balance ("Generation Account Balance") remains in the Generation Account following the procedures set forth in item 6, BC Hydro will be deemed to have purchased that amount of electricity from the Customer, and will be obliged to pay the Customer for that electricity at the Energy Price determined in accordance with the Rate provision of this Rate Schedule, and the Generation Account will revert to zero.

ACCEPTED: March 16, 2017ORDER NO. G-5-17

COMMISSION SECRETARY

	<p>8. The procedures set forth above will apply in each succeeding 12-month period and at each succeeding Anniversary Date for so long as the Customer continues to take Service under this Rate Schedule. If Service under this Rate Schedule is Terminated prior to any Anniversary Date, the procedures set forth above will be applied as of the date of Termination. In that event, BC Hydro will pay the amount owing in respect of any credit balance in the Generation Account to the Customer within 45 days of the date of Termination, subject to any rights of deduction or set-off BC Hydro may have.</p> <p>9. In no case will any credit balance in the Generation Account have any cash value or be convertible to cash, except as provided above. If the amount determined to be owing to the Customer at any Anniversary Date as set forth in item 7 above is equal to or less than the charges BC Hydro anticipates are likely to be billed to the Customer during the six month period following the Anniversary Date, BC Hydro may withhold the amount owing and credit it against charges owing by the Customer for future billing periods. If the amount determined to be owing is greater than the charges BC Hydro anticipates are likely to be billed to the Customer during the six month period following the Anniversary Date, BC Hydro will pay the amount owing to the Customer within 45 days of the Anniversary Date.</p>
Special Conditions	<p>1. Subject to the provisions of Rate Schedule 1289, any other applicable Rate Schedule(s) under which the Customer is from time to time receiving Service from BC Hydro and other applicable provisions of BC Hydro's Electric Tariff, BC Hydro will supply Electricity to, and accept delivery of electricity from, the Customer at the Point of Delivery.</p> <p>2. BC Hydro will act with reasonable promptness to perform any inspections and/or give any approvals that it is authorized or required to give under the terms and conditions of Service, and will not unreasonably withhold or delay the giving of its consent in any case where its consent is required.</p>

	<ol style="list-style-type: none"><li data-bbox="495 325 1421 651">3. To receive Service under this Rate Schedule, the Customer must submit the required application. For Generating Facilities having a rated generating capacity of greater than five kilowatts, and for which BC Hydro determines that a site acceptance verification is required, the Customer must also pay the Net Metering Site Acceptance Verification Fee as set out in section 11 (Schedule of Standard Charges) of the Terms and Conditions of the Electric Tariff.<li data-bbox="495 682 1453 976">4. In addition, a Customer who (a) utilizes a synchronous generator, (b) takes Service at a Primary Voltage and/or (c) utilizes a Generating Facility with a nameplate rating greater than 50 kilowatts, will pay all associated incremental costs for connection of the Customer's Generator Facility as set out in Terms and Conditions section 9.7 (Generating Facility Connections (Distributed Generation)).<li data-bbox="495 1008 1453 1667">5. The Customer must not commence parallel operation of its Generating Facility until written approval has been provided to it by BC Hydro. Written approval will normally be provided by BC Hydro within 14 days following BC Hydro's receipt of a copy of the final inspection report or approval issued by the governmental authority having jurisdiction to inspect and approve the installation. Where Customer has been notified that inspection and acceptance by BC Hydro's Field Services – Protection and Control Department will also be required before the Generating Facility will be accepted for parallel operation, BC Hydro's approval will normally be provided within 14 days following the date of inspection and acceptance. BC Hydro may require the Customer to supply additional information and/or provide access to the Customer's Generating Facility to carry out additional inspections, as set forth in BC Hydro's DGTIR-100 or other interconnection requirements applicable to the Generating Facility.

	<p>6. Customer will design, install, operate and maintain the Generating Facility, and all ancillary facilities on the Customer's side of the Point of Delivery in accordance with all governmental laws and regulations from time to time applicable, and BC Hydro's DGTIR-100 or other interconnection requirements applicable to the Generating Facility. Customers will obtain and maintain any required governmental authorizations and/or permits required for the installation and operation of the Generating Facility. The Generating Facility will meet all applicable safety and performance standards, including the codes and standards identified in BC Hydro's DGTIR-100 or other interconnection requirements applicable to the Generating Facility. The Customer will be responsible for the safe and proper operations of the Generating Facility consistent with the requirements of the regulations of the <i>Safety Standards Act</i>. BC Hydro, acting reasonably, may from time to time prescribe additional requirements which in its judgment are required for the safety of its system.</p> <p>7. The Customer will at all times operate the Generating Facility in accordance with applicable governmental standards and requirements, and any manufacturer's instructions, and will further comply with BC Hydro standards and requirements from time to time in effect relating to parallel operation of independent net metering installations with its system. The Customer will promptly notify BC Hydro of any malfunction or breakdown of the Generating Facility that could constitute a safety hazard or reasonably be expected to cause disturbance or damage to BC Hydro's system.</p> <p>8. The Customer will not operate the Generation Facility so as to generate electricity at a rate greater than 110% of the nameplate rating of the Generating Facility, and will not add to or modify the Generating Facility without the prior written consent of BC Hydro.</p>

	<p>9. Service under this Rate Schedule is conditional on the continuance of Service to the Customer under any of the Rate Schedules described under the Availability section above, and is further conditional on the Customer being billed monthly or bi-monthly under BC Hydro's regular billing plan. If Service under the applicable Rate Schedule is suspended or Terminated for any reason, or if the Customer ceases to be billed under BC Hydro's regular billing plan, Service under this Rate Schedule will be deemed to have automatically been suspended or Terminated concurrent with suspension or Termination of Service under the applicable Rate Schedule, or change to a different billing plan, as applicable.</p> <p>10. If Service under this Rate Schedule is suspended or Terminated for any reason, and BC Hydro considers it necessary in its discretion for the Customer's Generating Facility to be re-inspected and approved prior to resuming parallel operation with BC Hydro's system, the Customer will pay the costs that BC Hydro estimates that it will incur for the re-inspection and approval.</p> <p>11. If the Customer voluntarily Terminates Service under this Rate Schedule, the Customer will not be eligible to again take Service under this Rate Schedule for a period of 12 months from the date of Termination, unless BC Hydro otherwise consents.</p>

	<p>12. BC Hydro will have the right to require Customer to interrupt (including, if so specified by BC Hydro, by means of physical disconnection or lock-out,) or reduce the output of its Generating Facility whenever:</p> <ul style="list-style-type: none">(a) BC Hydro deems such action necessary, in its sole judgment, to permit BC Hydro to construct, install, maintain, repair, replace, remove, investigate, or inspect any of its equipment or any part of its electric system; or(b) BC Hydro determines in its sole judgment, that curtailment, interruption, or reduction of Customer's electrical generation is otherwise necessary due to emergencies, forced outages, force majeure, safety hazards, possible damage to or disturbance of its electric system, or compliance with prudent electrical practices. <p>13. Notwithstanding any other provision of this Rate Schedule, in any of the events or circumstances mentioned in Special Condition No. 12, BC Hydro will have the right:</p> <ul style="list-style-type: none">(a) To require the Customer to immediately disconnect the Generating Facility from BC Hydro's system; and(b) To itself immediately disconnect the Generating Facility from the BC Hydro system if the Customer is either not available or fails to act, and such disconnection is deemed necessary by BC Hydro. <p>14. Whenever feasible BC Hydro will give the Customer reasonable advance notice that interruption or reduction in deliveries may be required, or that disconnection of the Generating Facility from BC Hydro's system may be required, but the failure of BC Hydro to give such notice will not invalidate any action taken by BC Hydro under any of the Special Conditions in Rate Schedule 1289.</p>
--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
