

# Strategic Energy Management Industrial Energy Manager

## GET FUNDING FOR AN ON-SITE ENERGY EXPERT.

There are plenty of ways to save money on energy costs, but you need to know about them in order to use them. This is where an industrial energy manager can help, working on your site every day to cut costs while boosting productivity and product quality. Our Industrial Energy Manager offer provides funding for you to hire a dedicated on-site energy manager, with additional funding to kick off your long-term energy planning. Combine that with some of our other incentive offers for energy-efficient upgrades, and you'll be saving across your entire organization. Ultimately we're all working together to build smart energy management into your everyday business practices.

## Is this program for you?

An industrial customer can take part if they meet these requirements:

- You're willing to hire an energy manager as a full-time employee.
- Your candidate's salary and qualifications meet certain criteria, subject to approval.
- Your facility consumes 20 gigawatt-hours per year or more.
- Your organization is willing to participate in an Energy Management Assessment.

## Benefits of an Energy Manager

- An on-site energy manager will work with your facilities' tools, equipment, and systems to reduce energy waste year after year.
- Smart energy management gives you a competitive advantage – increased productivity, profitability, and marketing opportunities.
- With our funding offer, you'll get the benefits of great energy management at minimal cost.

## The offer

Industrial customers know that isolated energy efficiency projects are not as effective as comprehensive energy management, which saves more and improves operations in the long run. We offer funding so that you can hire an industrial energy manager to develop and implement a strategic energy management plan that will benefit your entire facility, for as long as it's in operation.

- **Salary**—We'll cover up to 75% of your energy manager's salary for two years.
- **Training**—We offer full funding for the required training of your new energy manager.
- **Energy Management Assessment**—We pay the full cost of an on-site energy management assessment.
- **Strategic Energy Management planning workshop**—We fully fund a workshop to facilitate your custom plan.
- **Energy Monitoring & Targeting**—We provide funding of up to \$80,000 for energy monitoring & targeting.
- **Energy management consulting services**—We offer 100% funding for energy management consulting services.
- **Employee engagement**—Generous funding for employee activities including training and awareness events.
