

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

GENERAL ELIGIBILITY REQUIREMENTS:

1. Home must be a year-round primary residence that is at least 12 months old, and one of the following types of residential buildings:
 - a. single family home (detached dwelling).
 - b. secondary suite in a single-family home (detached dwelling); the home and secondary suite must be individually metered.
 - c. mobile home that is permanently fixed, sits on a foundation and is structurally complete with installed and connected plumbing, heating, electrical, water and sewer services; towing apparatus and axle must be removed.
 - d. duplex, triplex, row home or townhome, where each unit has its own natural gas and/or electricity meter. Utility accounts must be in the name of the resident and/or homeowner; utility accounts in the name of a strata corporation are not eligible.
2. The following types of homes are not eligible:
 - a. multi-unit residential buildings such as condominiums, high-rises and apartment buildings (except for strata unit owners installing a FortisBC rebate-eligible natural gas fireplace).
 - b. garages, workshops, and outbuildings.
 - c. newly constructed homes less than twelve (12) months old.
 - d. additions to existing homes that increase the square footage of the home.
 - e. existing spaces, such as a garage or solarium, converted into a living space.
 - f. a home defined as “substantially reconstructed,” by the Homeowner Protection Act (as per **BC Housing Regulatory Bulletin No. 6**) is not eligible. A substantially reconstructed home can include structural repairs, renovation where exterior walls and/or existing plumbing, electrical or gas lines are moved or it requires a New Home Registration Form under the Homeowner Protection Act.
3. The home must be connected to a residential account with one of the following utilities:
 - a. FortisBC natural gas
 - b. FortisBC Inc.
 - c. BC Hydro
 - d. City of New Westminster
 - e. City of Penticton
 - f. City of Grand Forks
 - g. Nelson Hydro
 - h. District of Summerland
 - i. Pacific Northern Gas

We're working together to help B.C. save energy

4. The home must be primarily heated by one of the following (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C):
 - a. natural gas, propane or oil (a fireplace is not considered a primary heating system).
 - b. electricity (hard-wired electric heating systems such as electric baseboards, radiant ceilings, radiant floors, forced-air furnace/boiler, or heat pump).
 - i. BC Hydro customers whose primary heating type is electricity (electric baseboard, furnace, boiler or heat pump) must meet a minimum electricity consumption to be eligible for rebates. BC Hydro program eligibility can be checked at bchydro.com/homerebates.
 - c. homes primarily heated by wood or other solid fuels are only eligible for the following rebates:
 - i. air source heat pump (convert from wood)
 - ii. natural gas fireplace
 - iii. natural gas water heater or heat pump water heater
 - iv. Two Upgrade Bonus
 - d. homes primarily heated by natural gas supplied by Pacific Northern Gas Ltd. are only eligible for the following rebates:
 - i. insulation
 - ii. windows and doors
 - iii. air source heat pump (convert from fossil fuel)
 - iv. dual fuel ducted heat pump
 - v. heat pump water heater (convert from fossil fuel or electric)
 - vi. air-to-water heat pump (convert from fossil fuel)
 - vii. Two Upgrade Bonus
 - viii. Home Energy Improvement Bonus
5. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed. Self-installations are not eligible.
6. Rebates cannot exceed the cost on the invoice and the paid cost of the upgrade. Rebates may be combined with funding received from the **Canada Greener Homes Grant**, but combined rebates cannot exceed the cost on the invoice or paid cost of the upgrade. Rebates cannot be combined with funding received from the **CleanBC Better Homes Income Qualified Program**. Upgrade costs covered by warranty are not eligible for rebates. Financing or leasing agreements must result in full ownership (a copy of the agreement may be requested).
7. Rebates can only be claimed once.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

We're working together to help B.C. save energy

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

MUNICIPAL TOP-UPS

1. Municipal Top-Ups are a limited time special offer funded by participating municipalities. Participating municipalities are listed on betterhomesbc.ca/municipal-offers.
2. Municipal Top-Ups are subject to availability on a first-come, first-served basis while funds last.
3. Homes must be located within the municipal boundary of a participating municipality. Applicants, homes, upgrade eligibility requirements, and top-up amounts are listed on betterhomesbc.ca/municipal-offers.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

We're working together to help B.C. save energy

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

INSULATION

Rebate requirements:

1. New insulation must be:
 - a. batt, loose fill, board or spray foam.
 - b. installed by a **Program Registered Contractor** in accordance with the **Best Practice Guide Air Sealing and Insulation Retrofits for Single Family Homes**. Self-installations are not eligible.
 - c. installed to reduce heat loss from the home (e.g. insulation for soundproofing or insulation in outbuildings is not eligible).
2. Rebates are calculated based on the R-value of new insulation added
 - a. in cases where pre-existing insulation was removed (e.g. due to pest infestation or mold), the rebate is calculated on the difference in R-Value between the newly added and pre-existing insulation.
3. Pest infestations and rodent tunnels in the location of the insulation upgrade must be resolved. Your rebate application will not be processed until the issue has been resolved.
4. Insulation upgrades made to a home that require installations to meet code compliance and new building construction requirements, including and not limited to renovations that require a “New Construction” or “Addition/Alteration” building permit are not eligible.

Location of insulation upgrade	Rebate per sq. ft.	Minimum R-value of new insulation to be added	Rebate maximum	Bonus eligibility
Attic—flat and cathedral ceiling	\$0.02	R12	\$900	Each location that achieves a minimum \$500 rebate qualifies as one bonus-eligible upgrade
Exterior wall cavities	\$0.09	R12	\$1,200	
Exterior wall sheathing	\$0.09	R3.8	\$1,200	
Basement/crawlspace walls*	\$0.09	R10	\$1,200	
Other (exposed floor, floor over crawlspace*, basement header)	\$0.07	R20	\$1,000	

*One rebate for basement/crawlspace walls or floor over crawlspace

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.

Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

We're working together to help B.C. save energy

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

WINDOWS AND DOORS

Rebate requirements:

1. The new windows and/or doors must:
 - a. replace existing windows and doors in the building envelope of the home between an unheated space (e.g. outdoors) and a heated space (e.g. indoors).
 - b. skylights are not eligible for a rebate.
 - c. be listed with one of the following certification bodies:
 - i. Canadian Standards Association (CSA)
 - ii. Intertek Canada (Intertek)
 - iii. Labtest Certification (LC)
 - iv. QAI Laboratories (QAI)
 - v. National Fenestration Ratings Council (NFRC)
2. The number of windows and/or doors eligible for rebates is based on the number of Rough Openings (“RO”) in which the windows or doors were replaced. Each RO is counted as one window and/or door. A bay window, which may be made up of several window sections, is regarded as one RO. Each bay window will qualify for one rebate.
3. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed. Self-installations are not eligible.

Upgrade	Rebate	U-Factor (As indicated on the product label)	Rebate maximum	Bonus eligibility
Tier 1 window*	\$50 each	1.40–1.23 W/m ² –K	\$1,000	Minimum of \$250 rebate achieved qualifies as one bonus-eligible rebate
Tier 2 window/door*	\$100 each	1.22 W/m ² –K or less	\$2,000	

*Homes within the City of Vancouver municipal boundary are not eligible for the Tier 1 window and Tier 2 window/door rebates.

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. A photo of a manufacturer label from each installed window/door.

Deadlines:

1. The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

NATURAL GAS FURNACE AND CONNECTED THERMOSTAT

Rebate requirements:

1. The home must:
 - a. have a residential account with FortisBC natural gas.
 - b. be primarily heated by a natural gas heating system (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C).
2. The new natural gas furnace must:
 - a. replace an existing natural gas furnace that is at least 10 years old.
 - b. be installed with a two-pipe direct vent system. Manufacturer's instructions permitting alternatives are not eligible. A photo of the two-pipe direct vent system must be made available upon request.
 - c. undergo commissioning to ensure it is installed and operating according to best practice. A copy of the completed **commissioning sheet** must be made available upon request.
 - d. be sufficiently sized to operate and serve as the primary heating system for the home.
 - e. be listed as an eligible system on **fortisbc.com/furnace**.
 - f. must be installed in accordance with the **High-efficiency furnace installation guide for existing houses**.
3. Emergency replacement of a broken heating system is not eligible.
4. The connected thermostat must be installed by a licensed contractor at the same time as the new eligible natural gas furnace.
5. All upgrades must be installed by a Technical Safety BC licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed. Self-installations are not eligible.

Upgrade	Rebate	Rebate maximum	Bonus eligibility
Natural gas furnace (95 to 96.9% AFUE)	\$800	Maximum of one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate
Natural gas furnace (97–99% AFUE)	\$1,000		
Connected thermostat	\$150	Maximum of one connected thermostat rebate	Not bonus-eligible

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.

Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

NATURAL GAS BOILER AND COMBINATION SYSTEM

Rebate requirements:

1. The home must:
 - a. have a residential account with FortisBC natural gas.
 - b. be primarily heated by a natural gas heating system (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C).
2. The new natural gas boiler/combination system must:
 - a. replace an existing natural gas boiler that is at least 10 years old.
 - b. be installed with a two-pipe direct vent system. Manufacturer's instructions permitting alternatives are not eligible. A photo of the two-pipe direct vent system must be made available upon request. (Not required for P9 certified tankless water heater with air handler combination systems.)
 - c. undergo commissioning to ensure it is installed and operating according to best practice. A copy of the completed **commissioning sheet** must be made available upon request. (Not required for P9 certified tankless water heater with air handler combination systems.)
 - d. be sufficiently sized to operate and serve as the primary heating system for the home.
 - e. be listed as an eligible system on **fortisbc.com/boiler**.
3. Emergency replacement of a broken system is not eligible.
4. All upgrades must be installed by a Technical Safety BC licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed. Self-installations are not eligible.

Upgrade	Rebate	Rebate maximum	Bonus eligibility
Natural gas boiler (≥94% AFUE)	\$1,000	Maximum of one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate
Combination heating and hot water system	\$1,200 + \$300 Two Upgrade Bonus	Qualifies as one primary space heating upgrade and one primary water heating rebate.	Qualifies as two bonus-eligible rebates

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.

Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply.

Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

NATURAL GAS WATER HEATER

Rebate requirements:

1. The home must have a residential account with FortisBC natural gas.
2. The new natural gas water heater must be listed as an eligible system on fortisbc.com/waterheater.
3. The existing water heater being replaced must be the primary water heater for the home.
4. Warranty replacements of a water heating system are not eligible.
5. All upgrades must be installed by a Technical Safety BC licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed. Self-installations are not eligible.

Upgrade	Rebate	Rebate maximum	Bonus eligibility
Storage tank	\$200	Maximum one primary water heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate
Condensing storage tank	\$1,000		
Condensing tankless	\$1,000		

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.

Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

AIR SOURCE HEAT PUMP (CONVERT FROM ELECTRIC)

1. The home must primarily be heated by electricity (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C).
2. The new heat pump must:
 - a. replace an existing hard-wired electric heating system (e.g. electric baseboards, radiant ceilings, radiant floors, or forced-air furnace). The back-up space heating system must also be electric.
 - b. be sized to function as the primary heating system of the home.
 - c. serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
 - d. have an AHRI certified reference number that references all components of the heat pump.
 - e. be listed as a qualifying system on the **Qualified Heat Pump Product List**. Qualifying FortisBC Electric central ducted heat pumps (Tier 1) are only listed at fortisbc.com/airsourceheatpump.
 - f. be installed in accordance with the **Heat Pump Best Practices Installation Guide for Existing Homes**.
3. Replacing an existing heat pump or adding a head to an existing heat pump are not eligible.
4. Emergency replacement of broken electrical systems is not eligible.
5. Products with a maximum static pressure of less than 0.6" Water Column (WC) are considered ductless mini-split or ductless multi-split systems.
6. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed (e.g. heat pumps must be installed by a licensed heating and cooling contractor). Self-installations are not eligible.

	Efficiency requirements
Ductless mini-split heat pump	<ol style="list-style-type: none"> 1. SEER \geq 16; HSPF (Region IV) \geq 10.00 2. Variable speed compressor
Ductless multi-split heat pump	<ol style="list-style-type: none"> 1. SEER \geq 16; HSPF (Region IV) \geq 9.30 2. Variable speed compressor
Central ducted heat pump (Tier 1)	<ol style="list-style-type: none"> 1. Only homes heated primarily by electricity provided by FortisBC, City of Penticton, City of Grand Forks, Nelson Hydro, and District of Summerland are eligible. 2. SEER \geq 15; HSPF (Region IV) \geq 8.50
Central ducted heat pump (Tier 2)	<ol style="list-style-type: none"> 1. SEER \geq 16; HSPF (Region IV) \geq 9.30 2. Variable speed compressor

We're working together to help B.C. save energy

Heat pump type	FortisBC	BC Hydro	Rebate maximum	Bonus eligibility
Ductless mini-split heat pump	\$1,200	\$1,000	Maximum one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate
Ductless multi-split heat pump	\$2,000	\$1,000		
Central ducted heat pump (Tier 1)	\$1,200	N/A		
Central ducted heat pump (Tier 2)	\$2,000	\$2,000

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

AIR SOURCE HEAT PUMP (CONVERT FROM WOOD)

1. The home must be primarily heated by a wood or solid fuel heating system (wood or pellet stove, insert or furnace). A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C.
2. The new heat pump must:
 - a. be sized to function as the primary heating system of the home.
 - b. serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
 - c. have an AHRI certified reference number that references all components of the heat pump.
 - d. be listed as a qualifying system on the [Qualified Heat Pump Product List](#).
 - e. be installed in accordance with the [Heat Pump Best Practices Installation Guide for Existing Homes](#).
3. The back-up heating system must be wood or electric. Fossil fuel back-up systems (e.g. dual fuel ducted heat pump systems or standalone fossil fuel heating systems) are not eligible for wood-to-electric upgrades.
4. The existing wood or solid-fuel heating system may be retained in safe and working order or removed in accordance with all applicable laws.
5. Replacing an existing heat pump or adding a head to an existing heat pump are not eligible.
6. Emergency replacement of a wood or solid fuel space heating system is not eligible.
7. Products with a maximum static pressure of less than 0.6" Water Column (WC) are considered ductless mini-split or ductless multi-split systems.
8. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed (e.g. heat pumps must be installed by a licensed heating and cooling contractor). Self-installations are not eligible.

Efficiency requirements	
Ductless mini-split heat pump	<ol style="list-style-type: none">1. SEER ≥ 16; HSPF (Region IV) ≥ 10.002. Variable speed compressor
Ductless multi-split heat pump	<ol style="list-style-type: none">1. SEER ≥ 16; HSPF (Region IV) ≥ 9.302. Variable speed compressor
Central ducted heat pump (Tier 2)	<ol style="list-style-type: none">1. SEER ≥ 16; HSPF (Region IV) ≥ 9.302. Variable speed compressor

We're working together to help B.C. save energy

Heat pump type	Rebate	Rebate maximum	Bonus eligibility
Ductless mini-split heat pump	\$ 1,000	Maximum one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate
Ductless multi-split heat pump	\$ 1,000		
Central ducted heat pump (Tier 2)	\$ 2,000		

SUPPORTING DOCUMENTATION:

1. Paid invoice (see sample invoice for requirements). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. Before and after photos of the wood or solid fuel heating system if it is being removed.
3. Copy of an inspection report completed by a Wood Energy Technology Transfer Inc. (WETT)–certified professional if the wood or solid fuel heating system is being retained in safe and working order.
 - a. The inspection report must be dated within the 12 month period before or 6 month period following the date of the heat pump installation invoice and include the inspector's WETT certification number, the site address of the wood or solid fuel heating system, and whether the installation is compliant with relevant codes.

Deadlines: The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

AIR SOURCE HEAT PUMP (CONVERT FROM FOSSIL FUEL)

Rebate requirements:

1. The home must be primarily heated by fossil fuel (oil, propane or natural gas). A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C. A fireplace is not considered a primary heating system.
2. The new heat pump must:
 - a. be sized to function as the primary heating system for the home.
 - b. serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
 - c. replace the existing fossil fuel heating system and all fossil fuel heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be removed or decommissioned in accordance with all applicable laws.
 - d. have an AHRI certified reference number that references all components of the heat pump.
 - e. be listed as a qualifying system on the **Qualified Heat Pump Product List**.
 - f. be installed in accordance with the **Heat Pump Best Practices Installation Guide for Existing Homes**.
3. Emergency replacement of fossil fuel space heating systems are eligible.
4. Homes in Non-Integrated Areas of the electricity grid must contact **betterhomesbc@gov.bc.ca** for pre-approval prior to installation.
5. Products with a maximum static pressure of less than 0.6" Water Column (WC) are considered ductless mini-split or ductless multi-split systems.
6. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed (e.g. heat pumps must be installed by a licensed heating and cooling contractor). Self-installations are not eligible.

Upgrade	Efficiency requirements
Ductless mini-split heat pump	<ol style="list-style-type: none">1. SEER \geq 16; HSPF (Region IV) \geq 102. Variable speed compressor
Ductless multi-split heat pump	<ol style="list-style-type: none">1. SEER \geq 16; HSPF (Region IV) \geq 9.302. Variable speed compressor
Central ducted heat pump (Tier 2)	<ol style="list-style-type: none">1. SEER \geq 16; HSPF (Region IV) \geq 9.302. Variable speed compressor

We're working together to help B.C. save energy

Heat pump type	Utility service territory		Rebate maximum	Bonus eligibility
	FortisBC	BC Hydro		
Ductless mini-split heat pump	\$3,000	\$6,000	Maximum one primary space heating system rebate per homes, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate
Ductless multi-split heat pump	\$3,000	\$6,000		
Central ducted heat pump (Tier 2)	\$3,000	\$6,000		

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. Proof of fossil fuel (oil, propane or natural gas) system removal or decommissioning. One of the following documents will be accepted:
 - a. local government permit or inspection report, which must include:
 - i. date of inspection
 - ii. address where inspection took place
 - b. invoice from the removal or decommissioning company or heat pump installation company, which must include:
 - i. description of the work completed (e.g. the oil system, including oil tank, was removed according to applicable regulations and local government bylaws)
 - ii. date of removal or decommissioning

Deadlines:

1. The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

AIR SOURCE HEAT PUMP WITH FOSSIL FUEL BACK-UP (DUAL FUEL DUCTED HEAT PUMP)

Rebate requirements:

1. The home must be primarily heated by propane or natural gas. A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C. A fireplace is not considered a primary heating system.
2. The new heat pump must:
 - a. be sized to function as the primary heating system for the home. Serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
 - b. be integrated with a propane or natural gas heating system and all propane or natural gas heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be modified in accordance with all applicable laws.
 - c. have the thermostat, outdoor temperature switch-over control or equipment control board set to the following region-specific temperatures for the duration of the product lifetime:
 - i. Lower Mainland and Vancouver Island regions: 5°C
 - ii. Southern Interior and Northern B.C. regions: 2°C
 - d. be sized to ensure it has the capacity to meet the home's heat demand at or below the region-specific outdoor set-point (i.e. the application balance point must be lower than the region-specific outdoor thermostat set-point).
 - e. be listed as an eligible system on **Qualified Heat Pump Product List**.
 - f. have an AHRI certified reference number that references the outdoor unit and the indoor unit(s) of the heat pump, and the furnace model number.
 - g. be installed in accordance with the **Heat Pump Best Practices Installation Guide for Existing Homes**
3. A program approved heat load calculation is required to properly size the system. Rule of thumb equipment sizing will not be accepted. Existing supplemental heating from other electric or non-fossil fuel heating systems may be taken into account in the heat load calculation. Supplemental heating from fossil fuel heating systems (e.g. gas fireplace) cannot be taken into account in the heat load calculation. Program approved methodology can be found at betterhomesbc.ca/faqs/heat-load-calculations.
4. Emergency replacement of fossil fuel space heating systems are eligible.
5. Homes in Non-Integrated Areas of the electricity grid must contact betterhomesbc@gov.bc.ca for pre-approval prior to installation.
6. Homes primarily heated by oil are not eligible for an air source heat pump with fossil fuel back up with the following exception:
 - a. Homes in Northern B.C. (B.C. building Code Climate Zone 6, 7A, 7B or 8) provided:
 - i. the indoor and outdoor unit(s) of the heat pump are listed on AHRI certification as a matched system that meets the Program's HSPF and SEER requirements. However, an AHRI certified reference number that references the outdoor unit and the indoor unit(s) of the heat pump, and the furnace model number is not needed.

We're working together to help B.C. save energy

- ii. the requirement to remove, decommission or modify the oil furnace does not apply. The oil furnace may still be used as a back-up heating source.
- 7. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed (e.g. heat pumps must be installed by a licensed heating and cooling contractor). Self-installations are not eligible.

Upgrade	Efficiency requirements
Dual fuel ducted heat pump	<ol style="list-style-type: none"> 1. SEER \geq 16; HSPF (Region IV) \geq 9.30 2. Variable speed compressor not required

Upgrade	Rebate	Rebate maximum	Bonus eligibility
Dual fuel ducted heat pump	\$3,000	Maximum one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. Proof of fossil fuel (oil, propane or natural gas) system removal, decommissioning, or modification (as applicable for the upgrade). One of the following documents will be accepted:
 - a. local government permit or inspection report, which must include:
 - i. date of inspection
 - ii. address where inspection took place
 - b. invoice from the removal, decommissioning or modification company or heat pump installation company, which must include:
 - i. description of work completed pertaining to removal, decommissioning or modification, as applicable for the upgrade.
 - ii. date of removal, decommissioning or modification
3. Copy of the heat load calculation based on program-approved methodology found at betterhomesbc.ca/faq/heat-load-calculations.

Deadlines:

1. The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Effective date: For invoices dated on or after April 1, 2022

AIR-TO-WATER HEAT PUMP (CONVERT FROM FOSSIL FUEL)

Rebate requirements:

1. The home must be primarily space and/or water heated by a fossil fuel (oil, propane or natural gas). A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C. A fireplace is not considered a primary heating system.
2. The new air-to-water heat pump system must:
 - a. be sized to function as the primary heating system for the home.
 - b. serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
 - c. replace the existing fossil fuel heating system and all the fossil fuel heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be removed or decommissioned in accordance with all applicable laws.
 - d. be listed as an eligible system on the **Air-to-Water Heat Pump Qualifying List**.
 - e. be installed in accordance with the **Heat Pump Best Practices Installation Guide for Existing Homes**.
3. Emergency replacement of fossil fuel space heating systems are eligible.
4. Homes in Non-Integrated Areas of the electricity grid must contact betterhomesbc@gov.bc.ca for pre-approval before the installation.
5. Homes with a combined space and domestic hot water boiler who are only installing an air-to-water heat pump for space heating may keep the boiler for domestic hot water. However, all connections between the boiler and the space heating system must be removed.
6. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed (e.g. air-to-water heat pumps must be installed by a licensed heating and cooling contractor and/or plumber). Self-installations are not eligible.

Upgrade	Rebate	Rebate maximum	Bonus eligibility
Air-to-water heat pump	\$3,000	Maximum one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate
Combined space and hot water heat pump	\$1,000—4,000	Qualifies as one primary space heating upgrade and one primary water heating rebate.	Qualifies as two bonus-eligible rebates

We're working together to help B.C. save energy

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. Proof of fossil fuel (i.e. oil, propane or natural gas) system removal or decommissioning. One of the following documents will be accepted:
 - a. local government permit or inspection report, which must include:
 - i. date of inspection
 - ii. address where inspection took place
 - b. invoice from the removal or decommissioning company or heat pump water heater installation company, which must include:
 - i. description of work completed (e.g. the gas water heater was removed according to applicable regulations and local government bylaws)
 - ii. date of removal

Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

ELECTRIC HEAT PUMP WATER HEATER (CONVERT FROM FOSSIL FUEL)

Rebate requirements:

1. The heat pump water heater must replace a fossil fuel (oil, propane or natural gas) water heating system and all fossil fuel water heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be removed or decommissioned in accordance with all applicable laws.
2. The existing water heater being replaced must be the home's primary water heater.
3. Eligible systems are listed as Tier 2 or higher on NEEA's **Advanced Water Heater Specification Qualified Products List for Heat Pump Water Heaters**.
4. Emergency replacement of fossil fuel water heating systems with heat pump water heaters are eligible.
5. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed (e.g. heat pump water heaters must be installed by a licensed heating and cooling contractor and/or plumber). Self-installations are not eligible.

Upgrade	Rebate	Rebate maximum	Bonus eligibility
Heat pump water heater	\$1,000	Maximum one primary water heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible rebate

Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. Proof of gas water heater removal. One of the following documents will be accepted:
 - a. local government permit or inspection report, which must include:
 - i. date of inspection
 - ii. address where inspection took place
 - b. invoice from the removal company or heat pump water heater installation company, which must include:
 - i. description of work completed (e.g. the gas water heater was removed according to applicable regulations and local government bylaws)
 - ii. date of removal

Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

ELECTRICAL SERVICE UPGRADE

Rebate requirements:

1. Only homes that convert from a fossil fuel (oil, propane or natural gas) primary space and/or water heating system to a heat pump are eligible. A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C.
2. The service upgrade (new wire from electric utility) is for upgrading to 100-, 200- or 400-amp service in an existing home within six months of the heat pump installation.
3. Eligible expenses include:
 - a. utility connection fees
 - b. electrical panel or sub-panel upgrade
 - c. service mast alterations or replacement
 - d. conduit replacement, meter base alterations or replacements
 - e. weather head alteration or replacement
 - f. labour
4. All upgrades must be installed by a licensed contractor with a GST number and a valid B.C. business license for the trade applicable to the upgrade being installed. (e.g. electrician). Self-installations are not eligible.

Upgrade	Rebate	Rebate maximum	Bonus eligibility
Electrical service upgrade	\$500	Maximum of one electrical service upgrade rebate per home	Not bonus-eligible

Supporting documentation:

1. Paid utility bill or invoice for the electrical service upgrade (100, 200, or 400 amp service) (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. Paid contractor invoice (**see sample invoice for requirements**). Invoice must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.

Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

HOME ENERGY IMPROVEMENT BONUS

Rebate requirements:

1. A pre-upgrade EnerGuide home evaluation and post-upgrade EnerGuide home evaluation must be performed by a Program Qualified Energy Advisor listed at betterhomesbc.ca/ea.
2. Participants must have at least three (3) bonus-eligible upgrades installed and complete the post-upgrade EnerGuide home evaluation within 18 months after the completion of their pre-upgrade EnerGuide home evaluation.
3. Refer to the list of **bonus-eligible rebates**.

Rebate details:

Upgrade	Rebate	Rebate maximum
Home Energy Improvement Bonus	\$20 per percentage improvement in EnerGuide rating (GJ/year), minimum \$750 up to \$2,000.	Maximum of one Two Upgrade Bonus or Home Energy Improvement Bonus per premises

Supporting documentation:

1. Paid invoices for pre-upgrade EnerGuide home evaluation (**see sample invoice for requirements**) and post-upgrade EnerGuide home evaluation (**see sample invoice for requirements**). Invoices must be paid in full, as indicated by a \$0 balance owing, proof of full payment, etc.
2. A copy of the pre-upgrade EnerGuide Homeowner Information Sheet and post-upgrade EnerGuide Homeowner Information Sheet.

Deadlines:

The bonus application and supporting documentation must be submitted within six (6) months of the date of the post-upgrade EnerGuide home evaluation.

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.

Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2022

REBATE MAXIMUMS AND BONUS-ELIGIBILITY

Upgrade	Rebate maximum	Bonus eligibility
Attic insulation	\$900	Qualifies as one bonus-eligible upgrade if minimum \$500 rebate achieved
Exterior wall cavity insulation	\$1,200	Qualifies as one bonus-eligible upgrade if minimum \$500 rebate achieved
Exterior wall sheathing insulation	\$1,200	Qualifies as one bonus-eligible upgrade if minimum \$500 rebate achieved
Basement/crawlspace walls insulation	\$1,200	Qualifies as one bonus-eligible upgrade if minimum \$500 rebate achieved
Other insulation	\$1,000	Qualifies as one bonus-eligible upgrade if minimum \$500 rebate achieved
Windows and doors	\$1,000 for Tier 1 windows \$2,000 for Tier 2 windows/doors	Qualifies as one bonus-eligible upgrade if minimum \$250 rebate achieved
Primary space heating system: 1. Air source heat pump 2. Natural gas furnace 3. Natural gas boiler 4. Air to water heat pump for space heating only	Maximum one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible upgrade.
Primary water heating system: 1. Electric heat pump water 2. Natural gas water heater 3. Air to water heat pump for water heating only	Maximum one primary water heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed.	Qualifies as one bonus-eligible upgrade.
Combined space and water heating systems: 1. Natural gas combination heating and hot water system 2. Air to water heat pump for space and water heating	Qualifies as one primary space heating upgrade and one primary water heating rebate.	Qualifies as two bonus-eligible upgrades.
EnerChoice fireplace	\$300 each	Maximum of one fireplace upgrade is bonus-eligible
Connected thermostat	Maximum of one connected thermostat rebate per home	Not bonus-eligible
Electrical service upgrade	Maximum of one electrical service upgrade rebate per home	Not bonus-eligible

Note: Additional Terms and Conditions apply. Visit: bchydro.com/homerebates, fortisbc.com/homerebates or betterhomesbc.ca for full details.
