

## **UPDATED Construction Notice – Electrical Upgrade Work Fraser Highway and 176 Street, Surrey**

December 27, 2024

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of a duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Construction will result in some eastbound and westbound lane closures and will impact driveway access on Fraser Highway.

**Where:** Fraser Highway at 176 Street intersection in Surrey.

**When (UPDATED):** Anticipated to start January 5 with targeted completion by the end of January.

**Working Hours (UPDATED): Night Shift –** Sunday to Friday nights from 8p.m. to 5a.m.

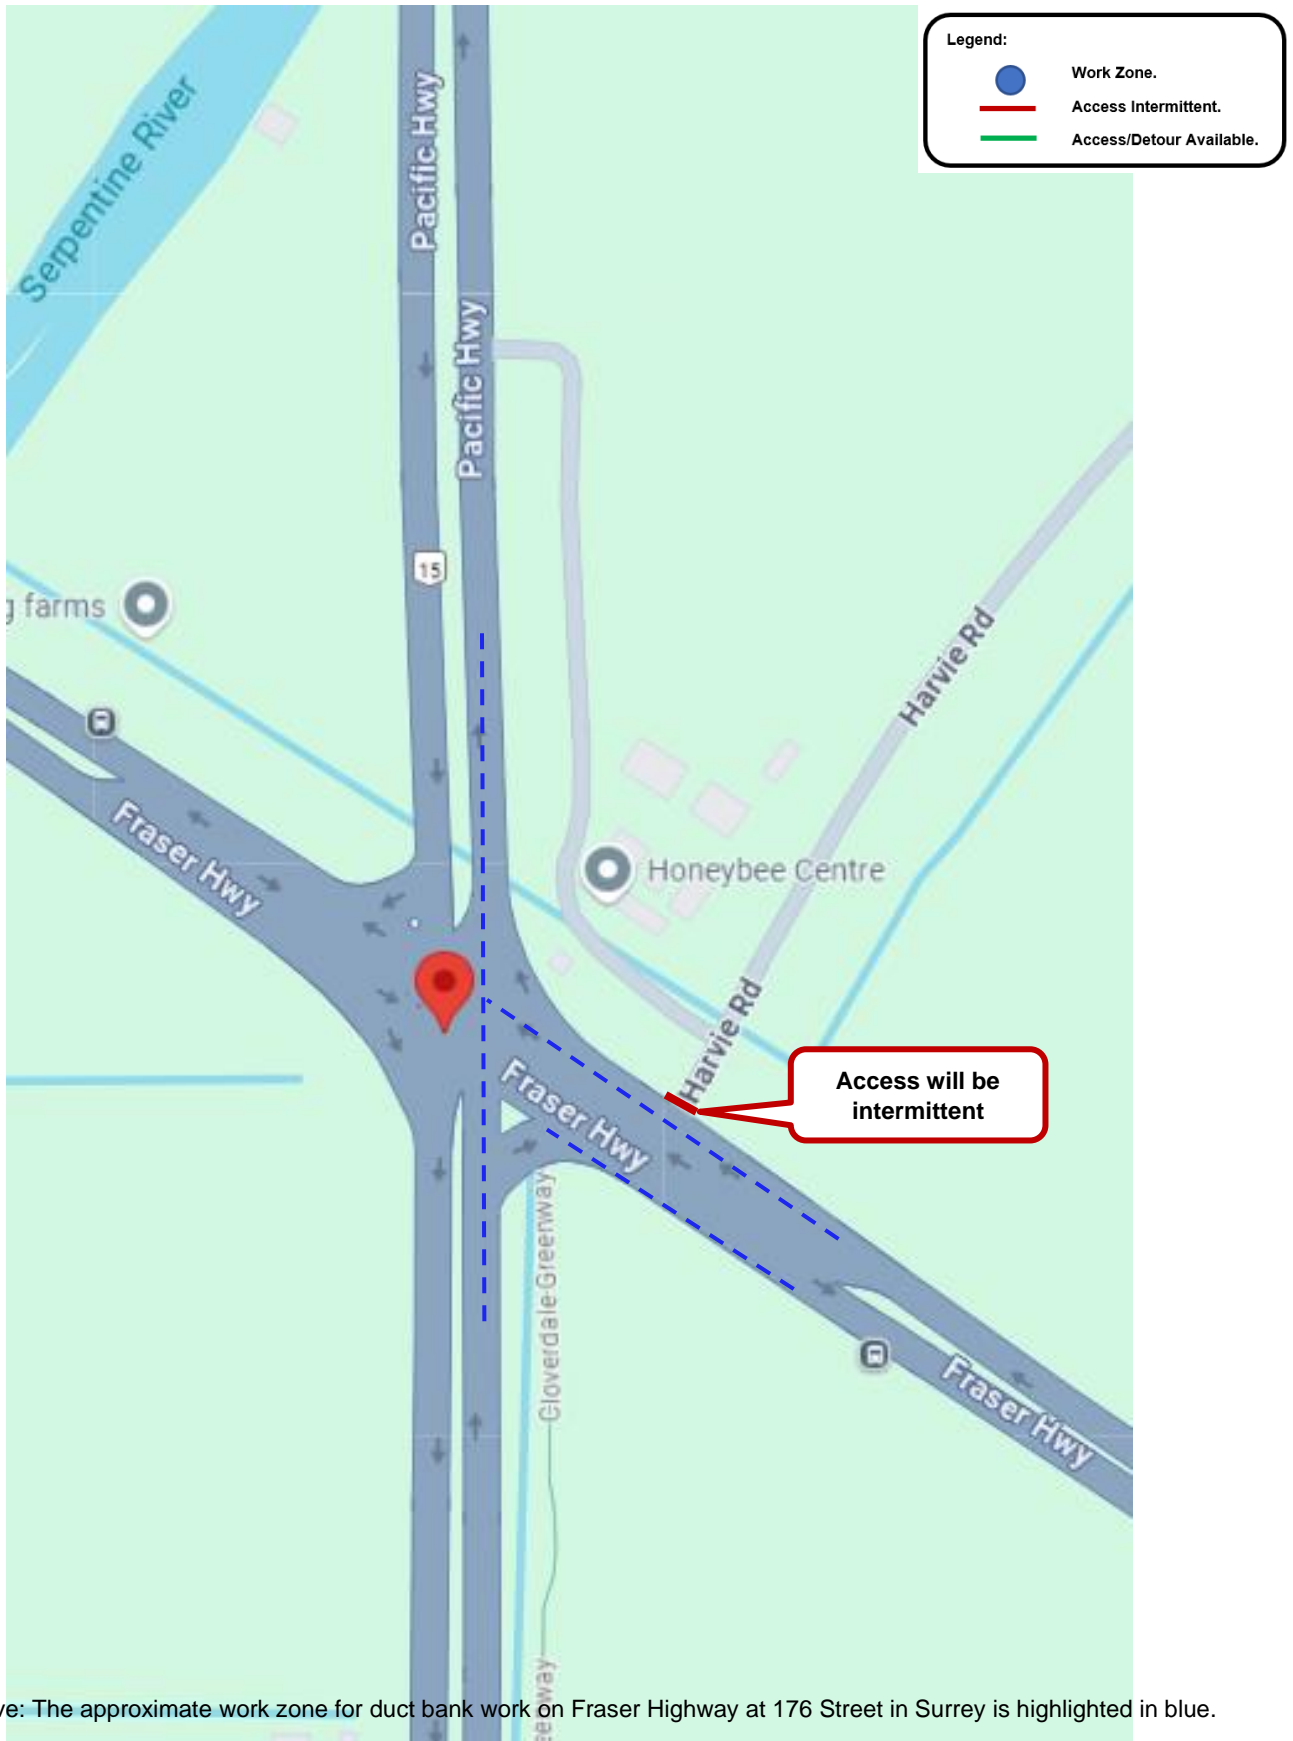

This work requires temporary traffic pattern changes. Traffic will be reduced to a single lane, in each direction along Fraser Highway. Access to Harvie Road will be intermittent (see map on page 2). A temporary detour will be in place to access 176 Street South of Fraser Highway, Please use 168 Street and 64 Avenue.

Safety is our top priority. Sidewalks, bike lanes and bus stops on this route will be impacted and may not be available. Please follow the onsite signage provided by TransLink and the direction of the crew on site.

Drivers are advised to plan ahead and expect delays. Please reduce speed in the construction zone and follow the directions of traffic control personnel and posted signage. Cyclists are advised to look for [alternative bike routes](#) while the work is underway along Fraser Highway. <https://www.surrey.ca/cycling>
