

## **UPDATED: Construction Notice – Electrical Upgrade Work Fraser Highway, 152 Street Intersection Surrey**

June 24, 2024

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of a duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Construction will result in some eastbound and westbound lane closures and will impact driveway access on Fraser Highway. Please see the map on page 2.

**Where:** The intersection of Fraser Highway and 152 Street in Surrey.

**When:** Anticipated to start June 18 with targeted completion by mid-July.

**Working Hours (UPDATED):** Monday to Saturday from 7 a.m. to 5 p.m. Starting June 29, working hours will include Saturdays.

This work requires temporary traffic pattern changes. Traffic will be reduced to a single lane, in each direction.

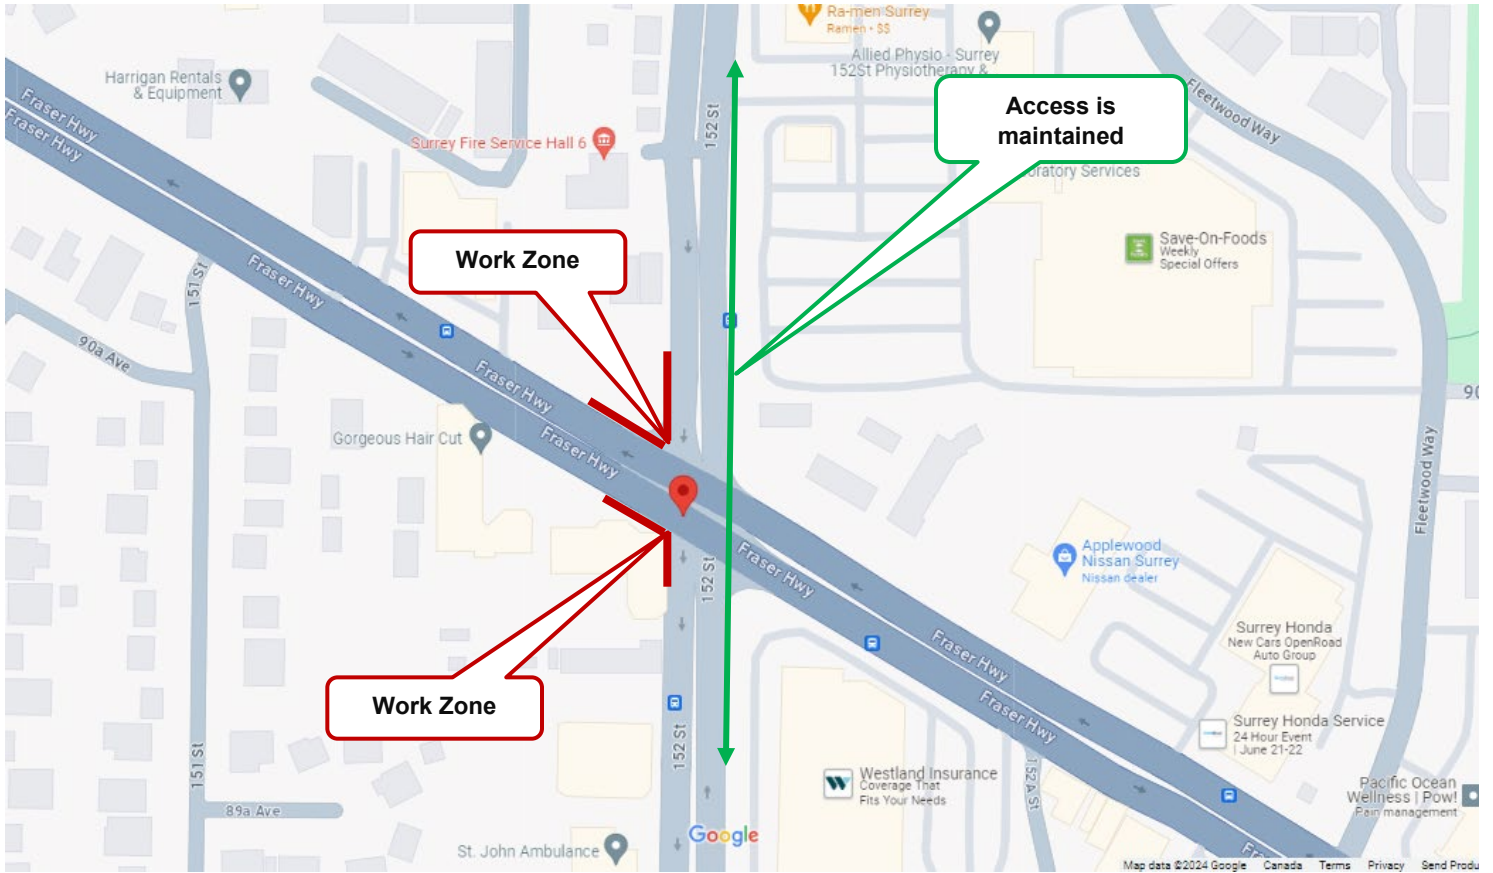

- Access to 152 Street (north and south) from Fraser Highway will be maintained.

Safety is our top priority. Sidewalks, bike lanes and bus stops on this route will be impacted and may not be available. Please follow the onsite signage provided by Translink and the crew on site.

Drivers are advised to plan ahead and expect delays. Please reduce speed in the construction zone and follow the directions of traffic control personnel and posted signage.

If you have any questions or would like more information about our work to relocate the power lines and equipment, please contact us at 1-866-647-3334. Look for additional updates at [www.bchydro.com/skytrain](http://www.bchydro.com/skytrain)

For inquiries directly related to the SkyTrain extension project, please contact [surreylangleyskytrain@gov.bc.ca](mailto:surreylangleyskytrain@gov.bc.ca)
