

Construction Notice – Electrical Upgrade Work

Fraser Highway, 64 Avenue and 192 Street, Surrey

October 9, 2024

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of a duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Construction will result in some eastbound and westbound lane closures and will impact driveway access on Fraser Highway.

Where: Fraser Highway, between 191A Street and 194 Street, in Surrey.

Fraser Highway, along 64 Avenue at 192 Street, in Surrey. Please see the map on page 2 for specific locations.

When: Anticipated to start October 15 with targeted completion by mid-November.

Working Hours: Monday to Saturday from 7 a.m. to 5 p.m. Night work may be required.

This work requires temporary traffic pattern changes. Traffic will be reduced to a single lane, in each direction along Fraser Highway and 64 Avenue. Access to Kibeki Road south of 64 Avenue, and 192 Street north of Fraser Highway, will be intermittent (see map on page 2).

- To access Kibeki Road south of 64 Avenue, please take 193B Street and turn right on Kibeki Road (see map on page 2).
- To access 192 Street north Fraser Highway, please take 191A Street and use Watkins Drive (see map on page 2).

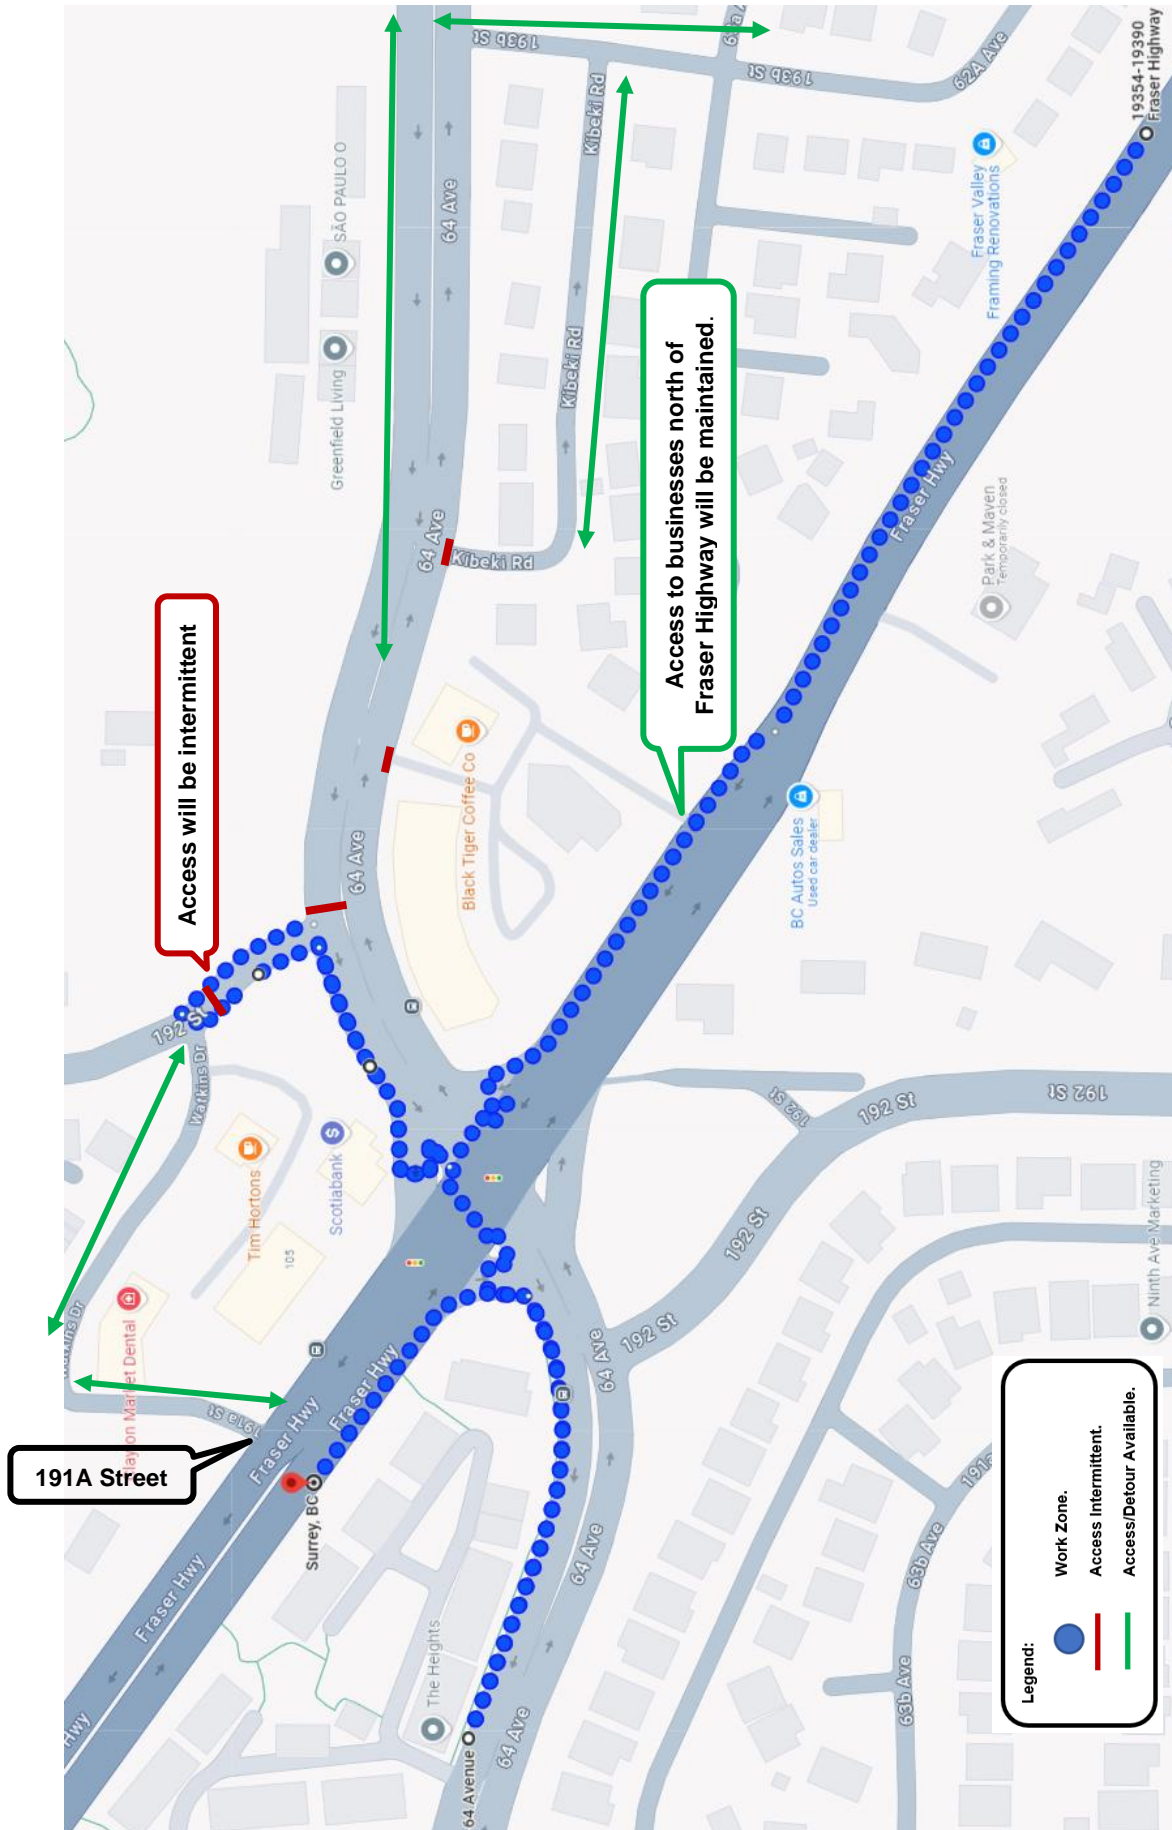

Safety is our top priority. Sidewalks, bike lanes and bus stops on this route will be impacted and may not be available. Please follow the onsite signage provided by TransLink and the direction of the crew on site.

Drivers are advised to plan ahead and expect delays. Please reduce speed in the construction zone and follow the directions of traffic control personnel and posted signage. Bicyclists are advised to look for [alternative bike routes](#) while the work is underway along Fraser Highway.
