

Construction Update

Fraser Highway between 148 Street and 149 Street, Surrey

April 16, 2025

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of new electrical poles and duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Our crews will be working on the north side of Fraser Highway.

Where (Updated): Fraser Highway between 148 Street and 149 Street in Surrey.
Please see the map on page 2 for specific locations.

When (Updated): Anticipated to start April 22 with targeted completion by end of April.

Working Hours: Monday to Saturday from 7 a.m. to 5 p.m.

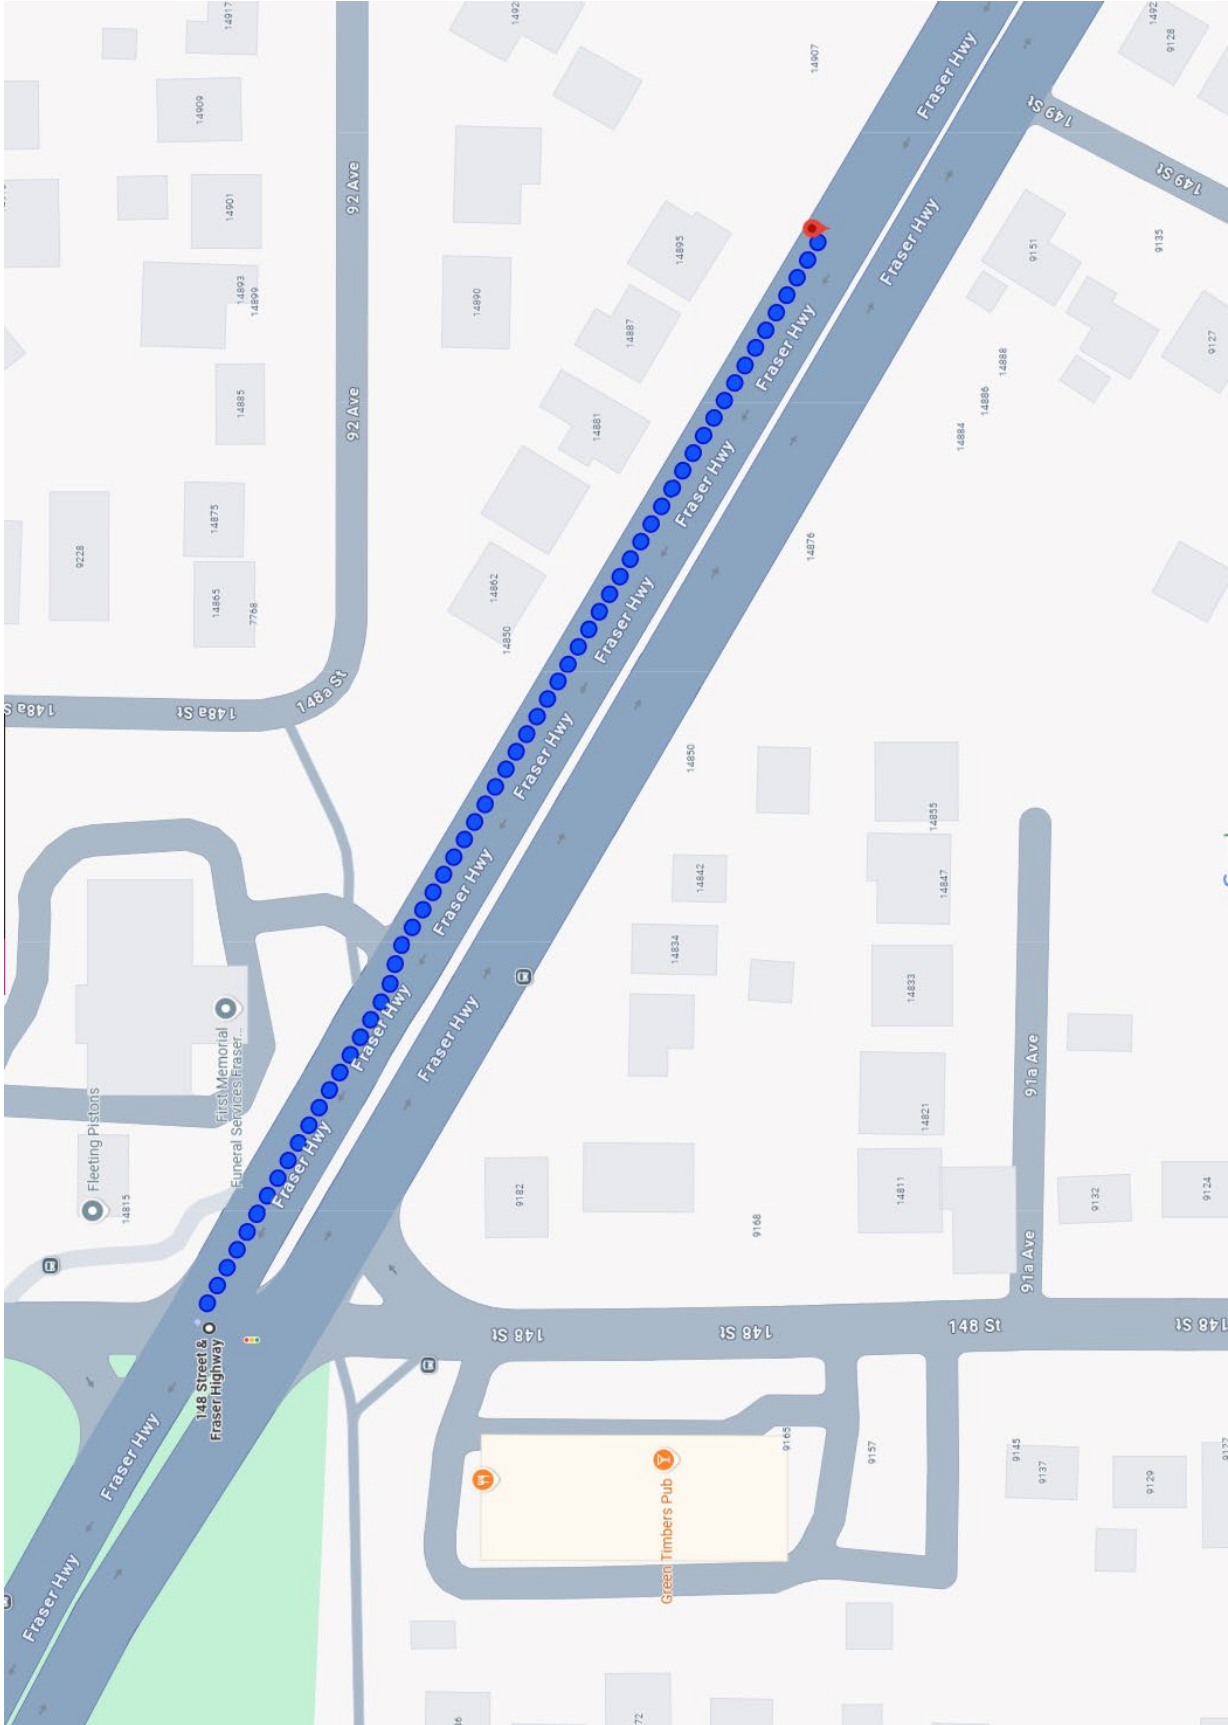

This work will take place within the construction zones already in place for Surrey Langley SkyTrain construction. Traffic is reduced to a single lane in each direction along Fraser Highway. Access to 148 Street and 149 Street south of Fraser Highway will be maintained (see map on page 2).

Safety is our top priority. Sidewalks, bike lanes and bus stops on this route will be impacted and may not be available. Please follow the on-site signage provided by TransLink and the direction of the crew on site.

Drivers are advised to plan ahead and expect delays. Please reduce speed in the construction zone and follow the directions of traffic control personnel and posted signage. Cyclists are advised to look for [alternative bike routes](#) while work is underway on Fraser Highway.
