

Construction Update

Fraser Highway between 149 Street and 150 Street, Surrey

March 6, 2025

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of new electrical poles and duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Our crews will be working on the south side of Fraser Highway first and will be switching to the north side after. Construction will periodically impact eastbound and westbound traffic along Fraser Highway.

Where (Updated): Fraser Highway between 149 Street and 150 Street in Surrey.
Please see the map on page 2 for specific locations.

When (Updated): Anticipated to start March 10 with targeted completion by mid-April.

Working Hours: Monday to Saturday from 7 a.m. to 5 p.m.

This work requires temporary traffic pattern changes. Traffic will be reduced to a single lane in each direction along Fraser Highway. Access to 149 Street and 150 Street south of Fraser Highway will be maintained (see map on page 2).

Safety is our top priority. Sidewalks, bike lanes and bus stops on this route will be impacted and may not be available. Please follow the on-site signage provided by TransLink and the direction of the crew on site.

Drivers are advised to plan ahead and expect delays. Please reduce speed in the construction zone and follow the directions of traffic control personnel and posted signage. Bicyclists are advised to look for [alternative bike routes](#) while the work is underway along Fraser Highway.
