

## Construction Update

### Industrial Avenue between 200 Street & 201A Street, Langley

**October 2, 2025**

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This work includes the installation of new electrical poles and duct bank to accommodate the relocation of power lines from the north side of Fraser Highway to the south side.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables.

Our crews will work on the north and south sides of Industrial Avenue and some parts of 200 Street in Langley (see map on page 2).

**Where:** Industrial Avenue between 200 Street and 201A Street, in Langley.

200 Street between Industrial Avenue and Logan Avenue in Langley. Please see the map on page 2 for specific locations.

**When:** Anticipated to start on October 8, with a targeted completion by the end of November.

**Working Hours:** Monday to Saturday from 7 a.m. to 5 p.m.

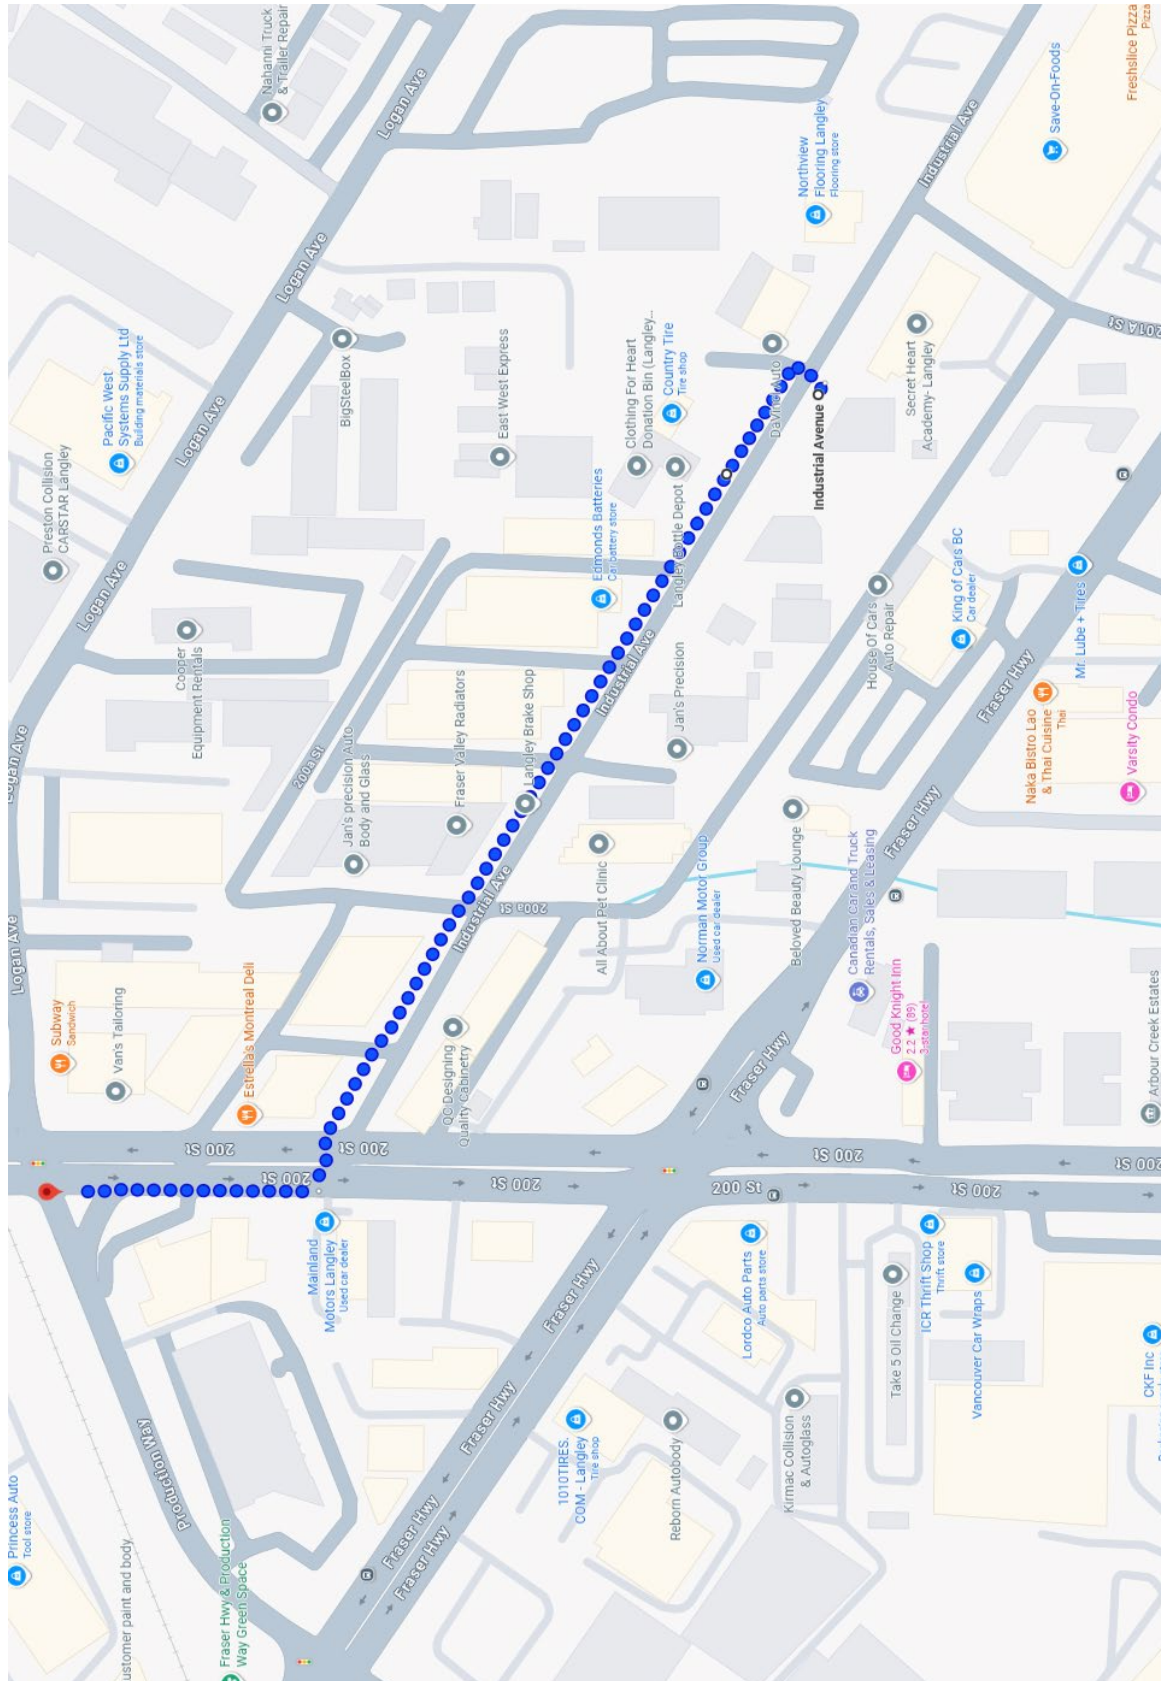

Planned outages will be required to safely complete this work. Once the outages are scheduled, affected BC Hydro account holders will receive a separate notification (auto-dialer and email). Please ensure your account contact information is up to date.

Safety is our top priority. Traffic will be reduced to a single lane eastbound along Industrial Avenue and one lane each direction along 200 Street between Industrial Avenue and Logan Avenue. Access to 200 Street and 201A Street off Fraser Highway will be maintained.

Street parking on this route will be impacted and may not be available. Drivers are advised to plan ahead and expect delays. Please reduce speed in the construction zone and follow the directions of traffic control personnel and posted signage.

If you have any questions or would like more information about our work to relocate the power lines and equipment, please contact us at 1-866-647-3334. Look for additional updates at [www.bchydro.com/skytrain](http://www.bchydro.com/skytrain).
