

Construction Notice – Electrical Upgrade Work

158th Street - 160th Street, Fraser Highway in Surrey

March 18, 2024

We're working closely with the Surrey Langley SkyTrain Project team to accommodate the rapid transit extension from Surrey to Langley. This electrical upgrade work includes the installation of duct banks between 158th Street and 160th Street at Fraser Highway in Surrey.

A duct bank is a series of plastic conduits encased in concrete that house and protect underground cables. Work activities include excavation, pouring concrete, backfill with gravel and re-paving. Please see page two for a map of the work area.

Where: Between 158th Street and 160th Street at Fraser Highway in Surrey.

When: Anticipated to start March 18, 2024, through to April 2024

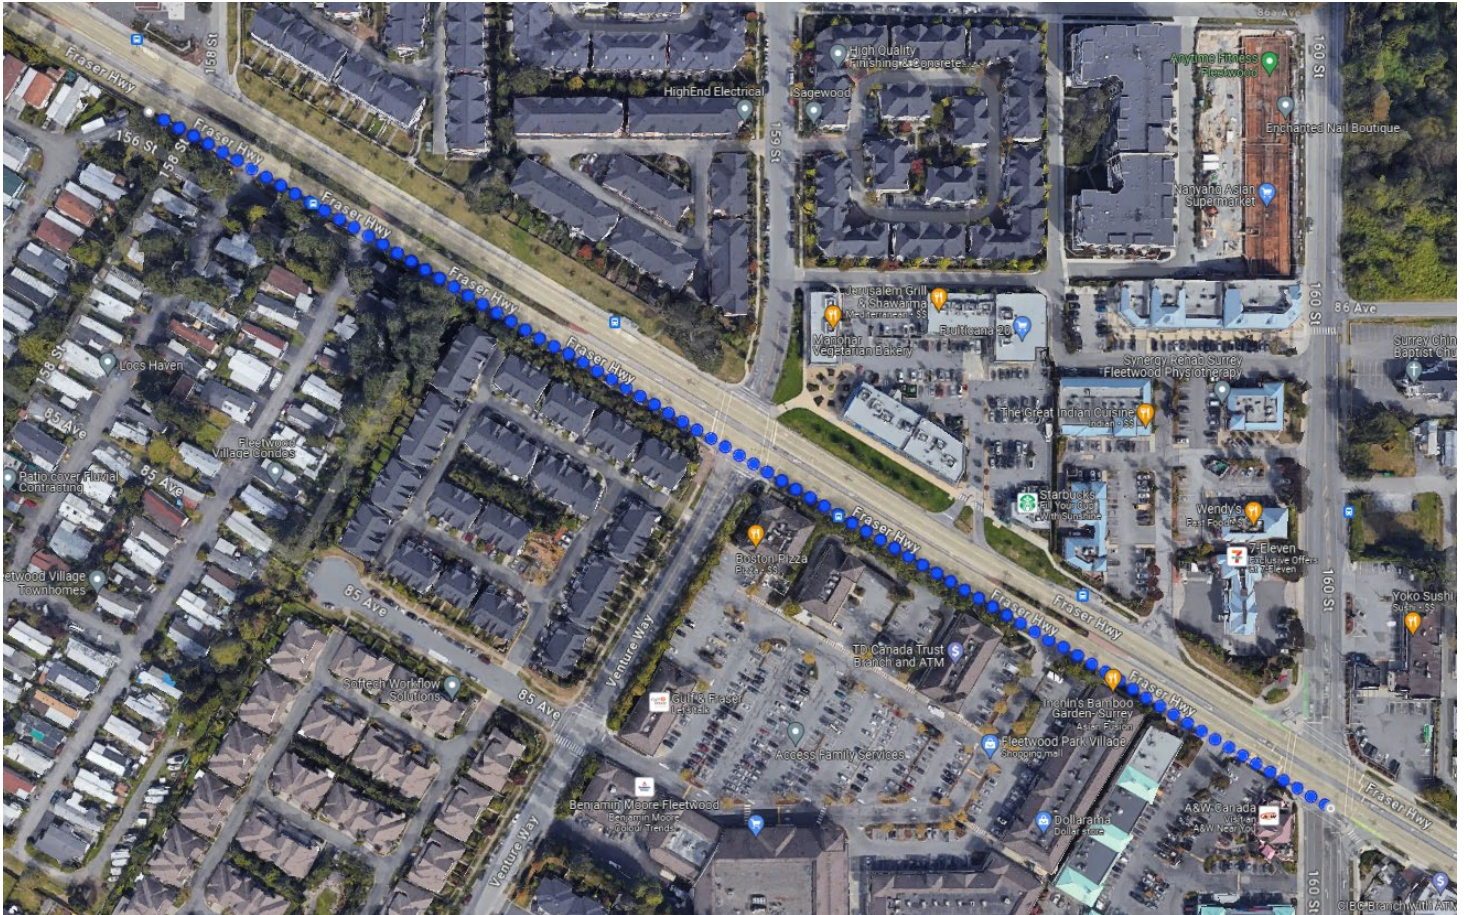

Hours: Monday to Friday, 7 a.m. to 5 p.m

Safety is our top priority. For this work, we require temporary traffic pattern changes. Please adhere to traffic management on site. To ensure everyone's safety, we advise drivers to reduce their speed in the construction zone and follow the directions of traffic control personnel and posted signage.

This project will ensure that we can continue to provide safe and reliable power to residents and businesses in the Lower Mainland and allow for the safe construction of the SkyTrain around the power lines.

If you have any questions or would like more information about our work to relocate the power lines and equipment, please contact us at 1-866-647-3334. Look for additional updates at www.bchydro.com/skytrain.

For inquiries directly related to the SkyTrain extension project, please contact surreylangleyskytrain@gov.bc.ca
