## **We're accepting applications for the West End Substation Community Construction Liaison Committee to May 10, 2026.**

We expect to start construction in fall 2026 and this committee will be an important way for us to stay connected with the community.

Committee members will receive regular updates about upcoming work, share insights on behalf of the community, and help us ensure we're taking the community's needs into account as we deliver this important project. Members will receive an honorarium for participation.

To build a committee that reflects the West End, we're looking for **up to 15 members** representing a range of experiences and perspectives.

You can find more information, including our draft terms of reference, on our website at [bchydro.com/westendsub](https://bchydro.com/westendsub).

If you're unable to take part but know someone who would be a great representative, please let us know – we're happy to reach out to them directly.

Your responses will help us shape a committee that best represents the diverse voices in your community. We appreciate your interest and look forward to working together to support your neighbourhood during construction.
