<sup>1</sup> The Province of British Columbia's Crown Agency Accountability System (<http://www.gov.bc.ca/caro/publications/index.htm>) establishes guiding principles for the governance of Crown corporations. The Shareholder's Expectations Manual identifies roles and responsibilities for the Government and Crown corporations, and provides for a Shareholder's Letter of Expectations (Letter) to be jointly developed.

## **CORPORATION ACCOUNTABILITIES**

Government has provided the following mandate direction to BC Hydro under the *Hydro and Power Authority Act*:

- Pursuant to the *Hydro and Power Authority Act*, BC Hydro's mandate includes the generation, transmission, distribution and supply of power subject to the regulatory oversight of the Commission pursuant to the *Utilities Commission Act*.

## **GENERAL CORPORATION ACCOUNTABILITIES**

Over the past decades, British Columbians have come to expect high quality products and services delivered by their Crown corporations. The Province is well served by our Crown corporations and it

is up to the Boards and Senior Management teams of these organizations to manage in the best interests of the Province and our citizens.

For those Crown corporations that are commercial entities, they are expected to earn positive returns for their shareholders, the people of British Columbia, to help provide health care, education and other critical social services required by our growing and aging population.

As a commercial Crown corporation, it is critical that the operations of the entity be done as efficiently as possible, in order to ensure families are provided with services at the lowest cost possible. In addition, it is expected that Crown corporations, to the greatest extent possible, participate in the Government's open data and public engagement opportunities.

British Columbians rightly expect openness and transparency from both their Government and Crown corporations and it is incumbent upon both parties to be as open and transparent as possible with citizens.

Government sets broad policy direction to ensure the Corporation's operation and performance is consistent with government's strategic priorities and Fiscal Plan, and as such, the Corporation will:

- Ensure that the Corporation's priorities reflect Government's goals of putting families first; creating jobs and building a strong economy; and open government and public engagement;
- Prior to commencing collective bargaining or initiating changes to non-union compensation on or after January 1, 2012, coordinate with Government to develop detailed plans for funding proposed compensation changes or other incentives under the Province's Cooperative Gains Mandate. Plans must be based on real savings and must not include proposals for:
  - increased funding from Government,
  - reductions in service, or
  - transferring the costs of existing services to the public,
  - but may include revenue generation opportunities.

Plans must be reviewed and approved by Government before any proposed changes to union or non-union compensation are made. Any changes to an approved plan also require approval by Government.

Commencing the effective date of any changes to the collective agreement and/or non-union compensation plans, the Corporation must report annually to Government on the implementation of a plan, including information on progress in meeting savings targets;

- Government is undertaking reviews of all Crown corporations. The Corporation is expected to participate in the review as requested, and to implement the results of the review;

- At this time of fiscal constraint, government has initiated a review of incentive pay and will be communicating with Boards in early 2012;
- Conduct its affairs with the principles of integrity, efficiency, effectiveness, and customer service;
- Display annual *Financial Information Act* – Statement of Financial Information and Executive Compensation Disclosure Schedules, a Remuneration for Appointees to Crown Agency Boards Schedule and Corporate Governance Disclosure in an easily accessible website location;
- Inform Government immediately if the Corporation is unable to meet the performance and financial targets identified in its Service Plan;
- Comply with Government's requirements to be carbon neutral under the *Greenhouse Gas Reduction Targets Act*, including: accurately defining, measuring, reporting on and verifying the greenhouse gas emissions from the Corporation's operations; implementing aggressive measures to reduce those emissions and reporting on these reduction measures and reduction plans; and offsetting any remaining emissions through investments in the Pacific Carbon Trust, which will invest in greenhouse gas reduction projects outside of the Corporation's scope of operations;
- Ensure Government is advised in advance of the release of any information requests by the Corporation under the *Freedom of Information and Protection of Privacy Act*;
- Ensure any debt/credit card payment services provided to the public are in compliance with the International Payment Card Industry Data Security Standards;
- For Corporations subject to the *Public Sector Employers Act*, ensure the Corporation's membership in the Crown Corporation Employers' Association is in good standing;
- Annually assess the Board appointment process to ensure that succession results in a balance of renewal and continuity of Board membership, and provide the results of this assessment to the Shareholder for consideration;
- Ensure that Board appointments to Crown corporation subsidiaries comply with Board Resourcing and Development Office's Best Practice Guidelines and are approved by Cabinet; and
- Comply with Government's requirement that lobbyists not be engaged to act on behalf of the Corporation in its dealings with government.

REPORTING**

Government provides an Information Requirements and Events Calendar

(<http://www.gov.bc.ca/caro/publications/index.html>) to the ministries responsible and the Corporations that set out the dates the Crown corporations must submit their financial information, service plans, annual service plan reports, and other information to government in order to meet the statutory reporting dates and other government requirements.

The parties agree that each will advise the other in a timely manner of any issues that may materially affect the business of BC Hydro and/or the interests of Government, including information on any risks to achieving financial forecasts and performance targets.
